Our chances for a big strike are as good as any and better than most. We all expect to strike it rich here. While there is every reason to believe your investment will yield enormous profits, we do not make any specific promises or guarantee to that effect, except we do guarantee every stockholder a good, clean run for his money.

The men back of this enterprise are perfectly frank with you -not only because of the moral consideration, but because they believe it pays. Already the wisdom of this course has been amply demonstrated.

INVESTS \$50 IN OIL AND NOW HAS SUM OF \$250,000

Wichits Fells, Sept. 19.—An interesting story comes from the Red River country of Texas, regarding Cap-tain Anderson, an officer of the British army who hastened to America after the signing of the armistics as soon as he could secure his release. He had been reading of oil development in Okiahoma and Texas and unon arrival in New York in May bought a tieket for Wichits Falls. Arriving here he had but \$50 left. Part of this he used in an investment that proved profitable. The new money was turned back into other property. Captain Anderson took an inventory the other day and announced that he had made \$250,000 out of the \$50.

Texas is today attracting the attention of oll men and investors in every part of the United States. Hun-dreds of wells are producing oil—hundreds more are being drilled. Every week new wells extend the proven field. Every day new production is being brought in. Undreamed fortunes are being made. Land that was worth \$1.25 an acre for grasing two years ago commands from \$1,000 to \$25,000 an acre.— (The Oil Derrick).—Denver, Col.

Make Your Money Earn Money

Make Iour Money Lain Money The man who tells you it is unwise to put money in a savings bank to earn 4 per cent is dead wrong— AND HE KNOWS IT, TOO. It is the safest place in the world to put your money because you know where it is and can get it at any time. Nevertheless, a man should speculate with some part of his savings or earnings and he must do this if he wants to make greater profits and more money with his money. A man with a hundred thousand to a million dollars can afford to invest in four or five per cent interest bearing stocks and bonds—there is scarcely any risk in that plan, although they may decline in market value. He is satisfied with the income derived and usually doesn't have to worry very much—but he cer-tainly didn't make his pile by saving small sums, which only earned small retes of interest.

Church Gets \$200,000 a Year from Oil Wells in Its Yard—Spurns \$1,000,000 for Cemetery

Fort Worth, Texas.—The Merriman Baptist Church in the town of Ranger, which already has acquired an income of \$200,000 a year, through oil wells sunk in its church yard, has refused \$1,000,000 for the right to develop wells in the graveyard, which adjoins the church church.

### **Our Holdings in This Rich Field Offer Choice Locations for Many Wells**

Our leases are fully paid for and ample funds now in Texas banks for work in hand, and our leases offer choice locations for upward of 60 wells. Our chances of striking a gusher are equal to any and better than most. The Company's land shows all the surface indications of oil that these other fields ever had. Producing wells are being brought in nearer to our properties every day—wells are now drilling to north, east and south of us. Many new locations are being made near our leases—drilling rigs are being rapidly moved in and constructed to begin operations at once. The activity in this section is increasing daily, and development is being rushed on a large scale. Any day word may reach us of the bringing in of these wells—a gusher would mean thousands or perhaps millions of dollars in increased values of our leases and the stock of this company. These are some of the reasons—without going into geological or technical details—why the officers and directors of the Company have such faith in this property.

### The Men Behind This Company

You are invited to "look up" this Company through any channel you may choose. The officers and directors are all men of integrity and reliability. They are putting their own money, their time and faith in this enterprise with a determination to make it a big success. Harry C.
