Going Backward

Just suppose we had to go back to harvesting by hand. Think of the number of men it would take, the time it would require, and the great loss that would result.

Then suppose you had to go back to the old days before the coming of the telephone. You would have to reorganize your whole business, change all your methods of buying and selling. You would have to reorganize your home, too.

Today the telephone is a part of the daily life of more than half the people of this country. It influences the ways of living of every worker and every employer, because it influences their

You know what the telephone means to you, in your business and in your home. Do you realize the telephone company needs money to give you this service?

Wages and telephone material have all gone up. The Company must meet these increased costs. Its only income, like any other business, comes from the goods it sells. Telephone service costs money to produce and a fair price must be charged for it.
