# The Hudson Super-Six Motor

It Adds 72% to Power, Without More Weight and Increases Efficiency to 80%. It is Exclusive to Hudson

Almost Doubles Efficiency

The Hudson Super-Six has proved master of all stock cars in speed, power, endurance.

Disregard mere claims. What are the

Will you accept a lesser car?

The Hudson made the fastest stock car mile at the rate of 102 miles per hour. One car in various official tests ran 3,800 miles, averaging 80 miles an hour. It won the Pike's Peak contest, the world's classic hillclimb test. In a continuous journey it crossed and recrossed the continent, a distance of 7,000 miles, in 10 days, 21 hours, a feat never performed by another car.

By sheer endurance it time after time defeated the world's fastest racing cars, in championship speedway races. It holds all the important acceleration records.

#### Belongs Exclusively to Hudson

We could expect no less than complete performance supremacy for the Hudson per-Six. Its type gives it every advantage. The Super-Six motor, through its exclusive patented principle, delivers 76 horsepower from the same size motor that in standard types delivers 42 horsepower at the utmost

Thus it is the most powerful for its size in the world. It is the swiftest, the most enduring, quickest in acceleration, the most dependable hill-climber.

Its proofs are in official tests where all may verify them. If any disputes Hudson supremacy, it is not in official tests.

True you do not need such great speed as Hudson's. You may never meet an obstacle to test its power limits.

But they mean in ordinary driving you run the Super-Six at half load. In performance at which lesser cars strain, with permanent bad results to the mechanism, the Hudson is easily within its reserve of speed and power.

> For Five Years It Has Led Them 'All

It is one of the reasons that 80,000 owners know the Hudson above all as an endur-

Because of what it has shown, not only in official tests, but in the service of all these owners, the Hudson Super-Six has for nearly five years been the largest selling fine car in the world.

The supply has never been sufficient for the demand. That often means waiting for certain wanted models. You will avoid disappointment, by placing your Hudson order, well ahead of the desired delivery date.
