

4,040 ARRESTED IN NATION-WIDE DRIVE ON REDS

Federal Authorities in 40 Cities Move to Break Up Communist Party in U. S.

(Continued From Page One.)
the raids. Officials declared they believed that several hundred members of the communist and communist labor parties would be behind the bars before morning.

New York's Big "Bag."
New York, Jan. 2.—Between 700 and 800 radicals were arrested tonight in Greater New York as the city's share in the nationwide round up of sedition mongers and anarchists carried out by the federal government on a gigantic scale. From 9 until long after midnight an army of federal agents, reinforced by hundreds of city policemen and soldiers, raided the gathering places of men who have returned the hospitality of their adopted country by plotting to destroy its government and institutions with violence.

At the very hour that the raids were ordered the men against whom they were directed were gathering in scores of meeting places throughout the greater city.
No less than 17 such places were raided, each yielding a grist of from 20 to 50 fomenters of revolution and anarchy, in one the number running as high as 150. There was no talk or show of violence when the agents of the government entered the various halls and rooms.

Few Americans Caught.
Few native Americans were among those taken into custody, the most notable exception being a New York city official who gave his name as Julius Codkind, a Brooklyn tax collector and who, according to the federal agents, boasted of his revolutionary opinions and predicted that a commune would be established in the United States within five years. The great majority of those arrested were Russians or persons of Russian birth and almost all were working men of scanty education and less knowledge of the English language. Codkind and such other of the prisoners who were American born were turned over to the police to be dealt with by the laws of their own country.

Virtually all of the places raided were headquarters of the communist society, an organization which boasts of the leadership of Nicholas Lemine and Leon Trotsky and openly proclaims its aim as the establishment of a reign of terror and the annihilation of all existing authority. The most active spirits in this sinister organization are now on their way back to soviet Russia on the transport Buford, with the notorious anarchists, Emma Goldman and Alexander Berkman. By a coincidence a wireless message was received from the Buford, contingent today, which read:

Many Women Taken.
"Good wishes to our comrades in America from the exiled comrades on the high seas."

Almost a hundred women were included in tonight's prisoners, ranging in age from girls of 17 to grandmothers. The majority of the women were released after a brief examination, but about a dozen were detained for further examination.

Scores of barges were moored along the New Jersey shores opposite the city tonight to transport to Ellis Island the radicals rounded up by federal agents in the northern New Jersey districts. The prisoners will be placed aboard the barges in the morning and transported to the island.

Haywood Not Found.
Chicago, Jan. 2.—Raids tonight, directed by the United States Department of Justice, in which approximately 200 radicals were taken in addition to the 250 arrested yesterday and today by local authorities, brought the total number of agitators up to 450.

At the Russian soviet school, raided yesterday by a county prosecutor, 55 arrests were made tonight. One hundred policemen, 65 federal agents and 30 United States deputy marshals participated in the raids.
The government's activities were directed against specific persons rather than places. Hundreds of warrants for individuals had been issued and each bore a number. The raiders in numerous squads sought the individuals wanted, usually at their homes.

A special grand jury to hear the cases of radicals arrested yesterday was ordered impaneled Monday. Less than a dozen were arraigned in court on charges of conspiracy to violate the Illinois law against criminal syndicalism.

Several of the men were held in \$10,000 bonds, which they protested was too high. A prosecutor suggested that their defense committee would go to their aid. "The defense

committees are all in jail," one defendant answered.
William D. Haywood, former head of the I. W. W., has not been found.

"Bag" 16 in Des Moines.
Des Moines, Jan. 2.—Twelve men and four women, members of the Russian communist party, were arrested here. Half a dozen gunny sacks filled with radical literature were taken.

All of the prisoners are Lithuanians. They have been meeting once a month at the homes of members of the communist party.

Denver Women Arrested.
Denver, Jan. 2.—Six alleged radical leaders, all aliens, were arrested here. Three of those arrested are women, two of whom are employed in one of Denver's largest department stores. Several cartloads of radical literature were confiscated.

All persons arrested held communists labor party cards.

Warrants had been issued for 11 communists. Some of them had fled the city, agents of the Department of Justice said. None of the six taken into custody had been able to furnish the \$10,000 bond required. The persons arrested included a Greek, three Austrians, one Russian and one Hungarian.

Soldier Shot and Killed
By Constable in El Paso
El Paso, Tex., Jan. 2.—Pvt. R. H. Crie of the 19th United States infantry is dead and Constable Sam Stepp is momentarily expected to die as a result of a pistol fight last night when Stepp attempted to arrest two soldiers. Stepp said the soldiers had been pointed out to him as participants in a holdup of the night before.

Attorney General of Michigan Is Probing Stanley Brown Murder

Mount Clemens, Mich., Jan. 2.—Alex J. Groesbeck, attorney general of Michigan, took a hard Friday in the investigation in the killing more than a week ago of J. Stanley Brown on a country road near here.
He planned to bring proceedings before a Macomb county justice of the peace in the nature of a grand jury inquiry. His first act was to order that Mrs. Ruth Brown, the slain man's widow, be again taken into custody and held as a witness. Attorneys for Leo Prevost, Mrs. Brown's cousin, who was taken into custody again yesterday and held as a witness, announced that they would make no further attempt at

present to obtain his release through habeas corpus proceedings.
Examination of Mrs. Cecil Vester, held on a warrant charging murder, and who has implicated two persons previously questioned by the authorities, is set for Saturday.

Two Workmen Killed In Terrific Explosion At Big Powder Plant

Wilmington, Del., Jan. 2.—One of the grinding mills of the Hagley plant of the DuPont Powder company blew up this morning. Two workmen were killed and one was injured.
The building was of flimsy construction. The plant is on Brandywine creek, three miles from here. Wilmington and the surrounding country for 30 miles was violently

State Beet Growers Organize to Force Terms From Factory

Hershey, Neb., Jan. 2.—Special.—The Platte Valley Beet Growers' association of Lincoln county has appointed a committee to confer with the Great Western Sugar Co. in regard to its intentions concerning the building of a sugar beet factory at Hershey, the committee

also to confer with the Valley Sugar Co., of Denver, Col.
No growers will sign a 1920 contract before January 17. The committee will communicate with beet growers, association of Scottsbluff and other beet grower associations, for the purpose of joining with them to secure better beet growing conditions and prices. All beet growers will demand in their contracts for the year of 1920, at least 500 pounds of sugar at factory prices.

Radicals on "Soviet Ark" Meditate New Year's Day

New York, Jan. 2.—Emma Goldman, Alexander Berkman and the other departed radicals who make up the passenger list of the "soviet ark," Buford, now on its way to Russia, observed the passing of 1919 and the event of 1920 on the high seas. A wireless message from the

ship, filed New Year's position, as a promise of a slow passage has been filed.
