## TIA JUANA, MEX., Dates for Decision of TO BE SCENE OF BIG TITLE BOUT

Dempsey's Manager Declares Championship Battle Will Be Held in Coffroth's Big Arena.

Sen Diego, Jan. 7.—James W. Cof-froth, whose offer of \$400,000 for a match between Jack Dempsey, world's heavyweight champion, and Georges Carpentier, European champion, has been accepted, according to press dispatches by Carpentier's manager, Deschamps, cabled to Charles J. Harvey, his agent in London, to get in communication with Carpentier and Deschamps at once and learn their plans.

Los Angeles, Cal., Ján. 7.-Tia Juana, Mex., will get the Dempsey-Carpentier fight," said Jack Kearns, manager for the world's champion, when advised today by The Associated Press of Georges Carpentier's conditional acceptance of Promoter Coffroth's offer. Kearns said he would prepare a further statement

Kearns, Dempsey and Coffroth said they favored July 4 as the fight date and all expressed satisfaction with Georges Carpentier's acceptance of Coffroth's offer. They said they would agree to Carpentier's suggestion for limiting the fight to

Favor Fifteen Rounds.

The 15-round limit set by Deschamps is O. K. with me," Kearns Personally, I do not believe the fight will last much longer than one round. Six would suit Dempsey and me just as well as 15.

"I feel that there should be a winner's and loser's end of the purse, and believe \$300,000 to the winner and \$100,000 to the loser is fair. Descamps wants the purse split 50-50, maintaining that Carpentier is as good a drawing card as

"That may be, but whether or not he is as good a fighter is the question. The French people are good sports. Now let Carpentier and Deschamps take a sportsman's chance; but the splitting of the purse will not hold up the fight. Tia Juana is across the internationa boundary below San Diego in Lower California, Mexico. The town itself is a village supported largely by lourists in search of curios and games of chance. Coffroth has a and an automobile road lead into Tia Juana from the United States. Coffroth has announced he probably will build an arena for the fight. Persons familiar with Mexican ustoms and law believe Governor Esteban Cantu of Lower California will not interfere with the fight.

Deschamps Accepts. Paris, Jan. 7 .- Georges Carpentier and Jack Dempsey will probably meet in America for the championship of the world as a result of the acceptance, Tuesday night, by Deschamps, manager for Carpentier, of an offer of a \$400,000 purse for the bout by James Coffroth. Dempsey has already accepted Coffroth's terms, and all that remains to ensure the meeting of the two pug-Hists is the settlement of the number of rounds the men will fight and the division of the purse.

Coffroth's offer was for a bout going 45 rounds, but objection to a light of this length is expressed in the Carpentier camp. Carpentier would rather have the fight limited to 15 rounds or even 10. Deschamps declared last night that if the issue s not settled in fess than 15 rounds eneither Dempsey nor Carpentier is worthy to be champion of the

# WHY CATARRH ALWAYS COMES WITH WINDY WINTER

Nature Gives a Cry for Help she needs. She changes the chemis That Will Make This Winter a Season of Good Health

for You.

Winter and Catarrh are companons in evil. Catarrh is sweeping civilization from one continent to another, because civilization does not follow Nature's laws. Nature tells us what to do and we pay no heed.

Down deep in the body of man lie streams of blood, going everywhere and making a complete circuit of the body every few seconds. In these rivers, brooks and streamets of blood flow millions of little soldiers called corpuscles, whose duty it is to heal hurts, expel the enemies of man-germs-from the body and carry away impurities.

Nature, with the blood, builds bone and hair and teeth and flesh. She does this so quickly and with such absolute perfection that if we out into our mouths and stomachs the things the body needs, nature will distill her own chemicals and etable ingredients that nature herbuild up any torn-down portions.

Catarrh is a tearing down of mu cous membranes. A mucous membrane is one of the wonders of science. It does the important work of the body in some lines. When it becomes diseased you quickly have the alarm from nature. Catarrh, in most cases, first warns us from a are sold. condition of the nose and throat. These membranes cannot do their work.
