RESIGNS OFFICE

Alexander Millerand, Governor of Alsace, Asked to Form

New Body.

Paris, Jan. 18 .- The cabinet of Premier Clemenceau has resigned.

President Poincare has asked Alexandre Millerand, governor of Alsace,

to form a new cabinet. M. Millerand will give his answer at noon Monday. The outgoing ministry has

been in office since November 16,

M. Millerand said that he had

held a long and cordial conversation

with M. Deschanel, who gave him

AFTER ELECTION

### **INSURANCE MEN URGE THRIFT IN OWNING POLICY**

Week's Saving Campaign Starts With Explanation Of Benefits of Insuring Life.

Life insurance men take charge of National Thrift week today. This is peculiarly and particularly "Life Insurance" day of the National Thrift week. The life insurance men are emphasizing the value of a life insurance policy to the living just as much as they are to the remainder of the family when the bread-winner is no more.

Full page advertisements in all the newspapers is one method being used by the life insurance men to tell of the value of that form of thrift. Fifty thousand circulars telling of life insurance in general are being distributed through the school children of the city. Life insurance ing movie houses. Life insurance agents are talking general life in surance instead of extolling the merits of the particular company represented by them. Tomorrow they will talk their own companies today they are talking "insurance." "Inside" of Business.

Very few people outside of those engaged in finance are familiar with the "inside" of life insurance. Few know the disposition of the money paid in as premiums or realize that the larger portion of the premium money is returned to the policy holders in some form or other.

Pending the return of the premiums to the policy holders as death benefits, or as dividends, the money must be invested in some manner which will yield interest and yet be entirely safe. To wisely invest \$10,-000 so that the maximum amount of be secured would be a question to vested-and safe.

The insurance men are telling vested in various methods. Nearly \$75,000.000 of these premiums are invested in Nebraska farm loans the best security in the world. Millions of these dollars are invested in the municipal bonds of Nebraska cities and towns. More millions are invested in the railroads which crisscross Nebraska. Additional millions are in the rails, the locomotives, the cars, the terminals. Back of those still more millions of the money belonging to the policy holders are in the coal mines, the iron mines, the forests. Iron is necessary for the rails, wood is necessary for the cars. coal is necessary for the heat and

ers in the insurance companies have Goldman and their comrades would large sums invested. Street car lines, electric lights, gas works, water works, municipal buildings, asphalt paving and other concerns which issue bonds, are owned, in large meas- tions. ure, by the policy holders in the insurance companies. Sums with which to pay policies as they fall due comes from the interest on these and were placed in box cars fitted investments, the insurance agents are explaining. Even the school houses are built

by money borrowed from the big life insurance companies, in many instances. And, in turn, this money came from the policy-holder and will be returned to the policy-holder in one way or another.

#### Own Your Own Home.

These are just a few points which the life insurance agents in Ne braska are today telling the people. The national thrift committee, at the same time, is trying to tell all the people in the United States that insurance is one of the very thriftiest forms of thrift. Tomorrow is "Own Your Own

Home" day, another particularly thrifty form of thrift. Tomorrow the building and loan companies, the real estate men, the economists, will tell something about the pleasure and profit in owning a home.

But today is given over to the life insurance men, and while these advance agents of thrift are not attempting to write insurance policies today, they want to induce people to think of insurance as one form of thrift and of preparing for a rainy

These bonds are a direct closed first mortgage on the southeast corner of 16th and Howard, 66x132, and known as lot 4, block 169, City of Omaha. The south half of this lot is now improved with a five-story, steel frame hotel building, containing 48 rooms. On the north half of the lot, which is the corner of 16th and Howard, the new 13-story, steel frame, fireproof Hill

Hotel is now being constructed. This new hotel will rank with the best hotels in the west and will contain 140 rooms, every room with a private bath. The building is of handsome design and will contain the latest ideas in modern hotel con-

VALUATION

The land is appraised at \$250,000.00 and the buildings are valued, upon completion of present construction, at \$600,000, making an appraised valuation of \$850,000. It is estimated that upon completion of these improvements, the property can readily be leased for a sum equal to 6 per cent on the appraised valuation of \$850,000.00, with the lessee paying all insurance, taxes, repairs and expenses of all kinds whatsoever. This would produce a net income of \$51,000.00 or nearly twice the maximum interest requirements.

The hotel will be operated by the owners, Mr. John W. Hill and Mr. Lem Hill, who have had many years experience in Omaha hotel operation. They estimate the net income from the operation of the hotel at \$90,000.00 a year, which is nearly three and onehalf times the maximum interest requirements of this

TRUST AGREEMENT

The trust agreement, under which these bonds are issued, establishes strong safeguards around these bonds. The owners agree to make quarterly payments each year to a sinking fund to be held by the trustee, to retire bonds when due; each payment to equal onefourth of the total bonds coming due in that year. The bonds mature serially, beginning August 1, 1921, increasing the security behind this issue each year until maturity.
