

KEARNS INSISTS BRONSON CEASE HIS PROPAGANDA

Dempsey's Manager Clashes With Bob Martin Over Dempsey's War Record.

Los Angeles, Jan. 20.—Jack Kearns, manager of Jack Dempsey, heavyweight champion of the world, today announced he had sent the following telegram to Jimmy Bronson, manager of Bob Martin, heavyweight champion of the A. E. F. in France:

"In justice to Jack Dempsey, world's champion, I must demand that you cease immediately your propaganda that you are now starting throughout the country in your efforts to boost Bob Martin and to promote a fight between him and Dempsey by sending out literature which is false and misleading, in which you are attempting to convey an impression that Jack Dempsey was a draft dodger and unfit to represent America in titular battle."

Kearns Has Letter.

"I have in my possession now a letter which you are sending broadcast quoting warranted resolutions to show Dempsey was a draft dodger and which you are using in an effort to discredit Dempsey and urging the American Legion in an effort to boost your fighter."

"Your action is the most outrageous injustice ever attempted by a manager of a rival fighter. Real sportsmen do not have to adopt those methods and if there are any more moves like that on your part, I will be forced to take the proper legal action."

Must Stop at Once.

"Dempsey followed the dictation of his government and acted according to the instruction of his draft board and the chairman of said draft board, John S. Hogan, states over his own signature that Dempsey was more valuable to the field in which he was placed than if he were carrying a gun. I must insist upon immediate assurance from you that you will stop at once the propaganda which you have instituted as an individual member of the American Legion to bring nationwide condemnation upon Jack Dempsey and to use the American Legion merely and solely for your own personal profit and gain and to capitalize for your own selfish interest the American Legion."

GENERAL AGENT GAINED 25 LBS. IN FEW WEEKS

Six Years' Trouble Overcome by Tanlac and He Feels Fine Now.

"It was nearly a year ago that Tanlac overcame my troubles and today I am still in perfect health," was the statement made recently by A. H. Chapman, who resides at 615 E. 14th street, Kansas City, Mo. Mr. Chapman is general agent for the Fidelity Health and Accident Company of Benton Harbor, Mich., and has offices at 1115 Gloyd Bldg., Kansas City, Mo.

"I had been in poor health for the past six years and at times my condition was so bad I could not do satisfactory work," he continued. "My kidneys were so badly disordered that I had a constant pain across my back. I had little or no appetite and my digestion was so poor I had to be very careful about what I ate, and I had a heavy distressing feeling after nearly every meal, and often had dizzy spells and headaches, too. My liver seemed to always be sluggish and my whole system just seemed to be all run down. I lost twenty-five pounds in weight and was so weak that I could walk two blocks I would give out completely and have to sit down for awhile and rest. Although I took many different medicines and treatments I kept growing worse and worse all the time."

"I had heard a great deal about the good Tanlac was doing and finally decided to give it a trial. And by the time I had finished the first bottle my appetite began to come back and my digestion improved. I continued to take it and when I had finished six bottles all my troubles had completely disappeared. It has been ten months now since I have been bothered with my kidneys or liver and what's more I have regained every pound of my lost weight and am in better general health than I've been for years. Everything I eat agrees with me and I don't know what it is to ever have a headache or dizzy spell. I sleep like a log at night and get up in the mornings feeling just fine. Tanlac is responsible for my good health and I give it my unqualified endorsement."

Tanlac is sold in Omaha at all Sherman & McConnell Drug Company's stores, Harvard Pharmacy and West End Pharmacy. Also Forest and Meany Drug Company in South Omaha and the leading druggists in each city and town throughout the state of Nebraska.—Adv.

CREIGHTON WILL HAVE REAL GAME ON HANDS FRIDAY

Cy Lynch Says Dakota Aggies Have Fast Team; Mills Prepares His Men.

Creighton basketball ball five is going up against a Tartar when it meets South Dakota Aggies, Friday and Saturday night in Creighton gymnasium, according to Cy Lynch, South Dakota boy, now playing on the Creighton squad.

Lynch points out Carey and Lippert as dangerous men on the Aggie squad.

"Carey is one of those fellows who can shoot from the middle of the floor as well as he can from within a few feet of the basket," said Lynch. "Carey formerly starred with Salem, S. D. High school, five weeks ago. 'Chuck' Kearney, now center for Creighton, played with Elkton, S. D. High school. At that time, too, Lynch was playing with Aberdeen High school."

The three former opponents will again face one another Friday and Saturday night, but Kearney and Lynch will be allied under the Blue and White.

Tommy Mills sent his second team through a fast workout last night with Coach Harold Mulligan's Central High school team.

Creighton and the Dakota Aggies played foot ball on Creighton field Thanksgiving day. The Dakotans lost, 7 to 0. The game was played in deep snow. Friday and Saturday night Creighton will feel the sting of defeat surely, prophesy the Dakotans in revenge for the Turkey day defeat.

South Dakota university will play Nebraska in Lincoln Friday and Saturday nights. The same nights next week the Coyote five will play Creighton in Omaha. Creighton followers are anxious to watch the outcome of the Cornhusker-Coyote clashes in order to gauge the strength of their opponents from the north.

Gym Gems

Thirty-five Knights of Columbus enjoyed K. of C. night at Creighton gym Monday.

Johnnie Long took the honors for high bowling score of the evening when he toppled over 541 pins.

Both high and low game scores went to Ed McDonald. McDonald captured high game when he rolled 203 and low game score when he tallied 103.

Monday night's bowling brought the team captained by Ralph Roche and the team, captained by Johnnie Long into a tie for first place in the K. of C. tournament. Each team has won 23 games out of 30.

John Radford still holds the individual average for the season, 175 pins.

"Big Frank" McCabe, blue-coat, still retains the title of champion fanny bowler. Frank can swing his 311 pounds of avoirdupois into action with the grace of a flyweight boxer. It's the reaction, however, that really gives Frank the title beyond all question. As the ball leaves his hand "Big Frank's" body shimmies. He wiggles all over like an electrocuted steer. Then the exertion is all over—nothing to do till it's his turn to bowl again.

AMERICAN BASEMENTS.

THE works are downsize up. Fashion states that we will wear shoestrings around our necks and lace our shoes with neckties. Conan Doyle has bought himself a pearl-handled Weegee board and is wearing out his elbows inhaling messages from the worlds beyond. Weegee boarding is a dangerous habit, as a star Weegee boarder completes the triangle that has busted up many a sailor's boarding house. A widow in Flatbush experimented with a high-powered Weegee board in an attempt to carry on the usual one-sided conversation with her hubby. The experiment was successful. The spiritual piece of lumber got red hot and burned both her mitts, showing that hubby wasn't in heaven, but down in the basement of the next world.

Every hubby is down in the basement now since prohibition has made drinking a crime above the earth's surface. But dig a hole into the universe, call it a cellar, and you are safe. Nobody ever got so boiled that he ever fell out of a sub-basement. The probers can't probe you there. The law means that a man's house is his castle, his cellar is the throne room and the coal scuttle is his crown.

We have often wondered what real estate ads meant when they chirped about three-story houses with American basements. The American basement originally started as living rooms for the janitor when he would have a place to sit when a three-alarm gong informed him that he was wanted in every place but where he was. It has now evolved into the domicile of the great American husband, where he can perch by the buffet-side of his dying stock and mourn as the last rattle in the throat of a nonrefillable bottle informs him that everything must finally reach an end, including serial stories in a popular monthly magazine.

The American basement is peculiarly constructed. The buffet is the furnace, which must always be kept in a damp, cool place, as any heat may crack the bottles. The parquet dirt flooring is inlaid with cinders and be-jammed with vacant tomato cans and the spiral columns of sugar-cured hams. A set of wicker furniture is slowly unwickering and an ash barrel loaded with Christmas presents sprouts green with verdigris, giving the basement a veral appearance.

As a cabinet it is a fine annex to a municipal dumping grounds. But the cellar half of the family can perch there in safety, and swig the wood alcohol without waiting for the firemen to string the life net. There is no chance of him falling out of the cellar onto his back veranda. We are still speaking of architecture, and not of physiology.

It makes work for the census takers, who must not only tabulate the personnel of the house, but also secure a plebeian of cell inhabitants. While its narrow confines limit the cruising radius of a real, bevel-edged cowpath jag, you find the comforting knowledge that any pickled guy can find his way home if he starts with the cellar as a clue.

This basement stuff is going to have a drastic effect on American architecture. What's the use of building a 30-story hotel that will be useless above the ground floor and not much use on the ground floor? All heat-plant systems will have to be installed by the Whoozis Still Manufacturing company. Electric lighting will be superfluous, as long years of cellaring will give a guy eyes like a coal mine owl. Subterranean living will bleach out complexion, and a white ribbon will be known by his freckles. No officer can interfere with a subcellarite steaming up on wood alcohol and other health drinks.

The law is on your side if you are on the inside. And no revenue agent can tag you, provided that you bivouac in the American basement, lock the cellar door and use the key for a corkscrew.

The Unkind Razor

A razor that "chews" instead of shaves is not likely to make a good impression on the victim. You simply can not get a good shave with a dull blade.

Neither can you get satisfactory telephone service from a poorly equipped and operated telephone company. But what can the telephone company do if it lacks funds to meet expenses?

You can't expect men and girls to work for any concern which is unable to pay them fair wages. And you know by experience that what stood for fair wages two or three years ago will not meet expenses today.

Telephone wages and upkeep must be taken care of by the people who use the telephone. That is certainly reasonable. So it is plain that the service you get can be no better than that for which you pay.

In other words the rate you give the telephone also decides what the telephone can give you.

BASEBALL ON THE INSIDE

BEING A SERIES OF STORIES ABOUT PLAYS AND PLAYERS

George Moriarty was a mighty fine ball player. He is developing into a great umpire. Incidentally George is clever with his mitts.

During his career as a player, Moriarty was called upon a number of times to demonstrate his proficiency as a boxer and he never failed to get the decision. Naturally most of the players have a wholesome respect for George's classification of men subject to the selective service act, or to review the claims of any individual who finds it necessary to justify his exemption from military service.

Catcher Walters is about 40 pounds lighter than Moriarty. Of course, he was much troubled over the accident, regretting very much that the throw had hit Moriarty, as George came back to life. The first thing Moriarty said, and according to Walters, there was a dark scowl on his face at the time, was: "Who hit me?"

"I did, George," answered Walters, "but it was with the ball."
