hampton and send the police back. Harry Underwood saw my hesi-tation, and interpreted it in his own Nav. "There won't be any murder done

while you're gone little girl," he said. "But if you don't get the police here before this article at my right feels impelled to shoot off his mouth again there may be considerable damage accomplished."

"I think you'll find," Mr. "Bridgeham" put in more suavely than I had thought it possible for him to speak, "that the last people Mrs. Graham wishes to have interview me are police officials of any kind." He stepped adroitly to one side as he spoke, well out of reach of Mr. Underwood's long, powerful arms. It was well that he did, for the man who had constituted himself my protector sprang at him as he uttered the sneering words, then stopped short at my terror-wrung

"He's right, Mr. Underwood! Please don't let the police interfere in this."

I have never seen such absolute amazement on the face of any human being as overspread his countenance when he caught my meaning. To my consternation I saw, the first surprise of my statement over, he evidently interpreted my cry as proof that I must have been guilty of some offense which had put me in this man's power. The sudden, keen glance he shot

at me made me shudder, for there was blended in it a modicum of regret for having found my feet of clay, and a much greater proportion of sinister inbilation at finding, as he supposed, that my conscience and ideals were no higher than his own.

Harry Underwood's offer.

But overshadowing everything else there was in his look a protective quality that gave me a queer kind of comfort in spite of my dis-trust and disapproval of him. With a menacing gesture he turned to Mr. "Bridgeham." "Beat it down the road a bit." he said icily. "I'll talk to you later."

There was something so deadly in his tones that even the other man's audacity asn't equal to a retort. He contered himself with a glare and a shrug of the shoulders, as it he must perforce humor a madman, but he obeyed instructions implicit-

ly, stopping well out of ear shot. "See here, little pal!" Harry Underwood's voice was filled with protective tenderness, but there was something else less pleasiels asking that he transmit 'a detailed statement showing the loca-

which I had guarded so carefully I was sure, and that he meant to frighten me into revealing it to him I was equally certain. But how Har-ry Underwood could help me I had no idea no idea. "What's that fellow got on you?" e asked significantly. "It can't be he asked significantly. "It can't be you've been up to something the police can touch you for. It must be he's trying to blackmail you. You'd better just tell your Uncle Dudley all about it. I'm the boy that can straighten things out for you. And

I looked up at him a bit dazedly I am afraid. Indeed, I didn't know what to say or do. That Mr. "Bridgeham" had discovered the se-cret of the Stockbridge murder case

tion of American warships two months and one month prior to the declaratiton of war and their locaing in it, an indefinable cheapening of me and his association with me that I had never heard before in his wildest moods.
