TAXATION LAWS CALL FOR EXTRA DIET SESSIONS

Full Suffrage Will Be Given Women if Peterson Proposal Carries—Revenue Plans Start Oratory.

Lincoln, Feb. 11.—(Special.)—Taxation was the theme of much oratory in the constitutional convention and for the first time for a long time the convention held an afternoon session.

The Pollard amendment providing that "the necessary revenue of the state and its government subdivisions shall be raised by taxation in such a manner as the legislature shall direct, but taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, and taxes uniform as to class may be levied by valuation upon all other property. Taxes other than property taxes may be authorized by law. Existing revenue laws shall continue in effect until changed by legislation." The matter of exemptions is still to be arranged.

Women will be granted every constitutional right as voters if the present almost unanimous sentiment of the legislature is carried out as embodied in proposal No. 228. Peterson of Lancaster offered an amendment to the effect that wherever the constitution mentions "he" or "him" or "his" it shall be held to also apply to the feminine gender.

Bank Cashier Brought Back to Nebraska to Await Trial at Wahoo

Lincoln, Neb., Feb. 11.—(Special.)—Gus A. Hyers, chief of the state law enforcement department, arrived here at noon today from Denver with R. B. Lower, former assistant cashier of the Valparaiso State bank, charged with embezzlement of \$17,500 of the bank's funds. Lower had been released on bail, following the failure of the bank, and when notified to appear for trial, could not be found. He was detained in Denver when about to board a train leaving the city. He will be taken to Wahoo to await trial.

Receiver E. E. Fike, now in charge of the bank's affairs, has filed an application with Judge E. E. Good of Sanders county district court that the depositors' guarantee fund be drawn on to the extent of \$238,840.02, which he declares will meet all present demands of the bank, up to April 1. He declares that he believes that many of the paper securities of the bank will prove of sufficient worth to pay this amount back in the near future.

Eligibility of T. L. Hall

For Governor Questioned

Lincoln, Neb., Feb. 11.—(Special.)—The filing of Railway Commissioner Thomas L. Hall has again raised the question of the eligibility of any state officer to become a candidate for governor.

The constitution reads that any other officer of the executive department cannot become a candidate for governor during the term for which they were elected. The constitution enumerates the executive officers as governor, lieutenant governor, treasurer, secretary of state, auditor, land commissioner, state superintendent and attorney general. But since the adoption of the constitution under which the state is now working a constitutional amendment has been adopted electing three members of the state railway commission and defining their duties. Their duties are defined in the article of the constitution pertaining to executive officers, and this has raised the point in the minds of many as to whether they were not executive officers as well as the other state officers which the present constitution designates as officers of the executive department.
