

HOW WOULD YOU WIN GOOD WILL OF OMAHA BIRDS?

One of the Questions for School Children in Audubon Prize Essay Contest.

The second group of questions to be studied by Omaha school children, preparatory to the Nebraska Audubon society essay contest, comprise 20 interrogations concerning nature study in the vicinity of Omaha.

All school children who signify their intention of entering the contest, in which many valuable prizes are offered from kodaks to hiking boots, automatically become Junior Audubons with the payment of a fee of 10 cents.

The date and rules of the contest will be announced in the near future. The questions which follow are a section of a list of 200, prepared by leaders of the Nebraska Audubon society, which prospective contestants should study. The second group follows:

1. How many and what species of birds may be seen about Omaha in the winter?
2. Which of these birds visit us only in the winter?
3. Which ones are to be seen at all seasons of the year?
4. Group the birds above mentioned into three classes: seed eaters, insect eaters and bird of prey.
5. Would our winter seed-eating birds be beneficial or harmful, and why?
6. When do the first spring birds begin to arrive in Nebraska on their journey northward?
7. Name five of these and tell when they come.
8. When is the height of the migration season?
9. What are the names of the last arrivals?
10. About how many species could you find in one day in early summer after the migration is over?
11. Name five kinds of birds that live all the year in or near Omaha.
12. The Timberland Birds.
13. Which of these birds build their nests in trees and which in underbrush or on the ground?
14. Name three kinds of birds arriving in March.
15. In what month does the wren leave us for the south?
16. What is the purpose of the Fontenelle Forest Reservation?
17. Tell one ultimate experience you have had with a wild bird.
18. Name two species of birds that change from summer to winter plumage.
19. If a friend told you he had seen a downy woodpecker hopping about his lawn in spring, digging for worms, why would you know that he was mistaken?
20. Name three ways of attracting birds to your home grounds.

Harley G. Moorhead And H. B. Thayer Named Telephone Directors

Stockholders of the Nebraska Telephone company at their annual meeting yesterday elected Harley G. Moorhead, election commissioner, as director to succeed L. H. Korty, and chose H. B. Thayer of New York, president of the American Telephone and Telegraph company, to fill the vacancy on the board resulting from the recent death of Nathan C. Kingsbury.

Mr. Korty, who is retiring because of ill health, is a pioneer of telephone operations in Nebraska, having been associated with C. E. Yost and others in the organization of the Nebraska Telephone company in 1883. He had been a company director for more than 30 years.

The following company officers were re-elected yesterday for 1920: Board chairman, C. E. Yost; president, W. B. T. Belt; vice president, Guy H. Pratt; secretary and general manager, A. A. Lowman.

Church Enjoins Grading Work In Dodge Street

Alleging that the grading of Dodge street is endangering the stability of St. Mary Magdalene church, Nineteenth and Dodge streets, the church yesterday filed suit in district court against the city of Omaha asking an injunction to stop the excavation until the edifice can be underpinned.

The suit is accompanied by an affidavit from John Latenser, Jr., architect, stating that the work of excavating is endangering the edifice and may cause it to collapse, unless the underpinning work is done before the excavation proceeds farther.

One Man Fined After Police Roundup of Alleged Vagrants

John Medina, Mexican, 117 North Eleventh street, was the only one of 27 persons fined in Central police court yesterday when they were arraigned for vagrancy. Medina was fined \$50 and costs when he failed to explain where he obtained 40 yards of silk goods found on him when arrested by police in a raid on his home.

Several of the prisoners assigned the "flu" as their reason for not working. Detectives found them loitering about pool halls and cheap lodging houses, they testified.

SWEET BREEZES TO MAKE OMAHA "ODORLESS CITY"

Perfume-Laden Zephyrs Are Planned for Stock Yards District.

Perfume-laden zephyrs wafted lazily from islands set like jewels in topaz tropic seas will have nothing on Omaha's sun-drenched ozone if City Commissioner Towl is able to put in effect his plans for purifying and perfuming the city's atmosphere.

Like sweet breezes off clover fields in full bloom will become the air currents from South Omaha packing plants, he declares, if he succeeds in inducing packing house owners to install certain devices, whose exact nature he does not yet venture to disclose.

When he has accomplished what he has set out to do, the South Side and other sections may no longer seem like home to residents accustomed to long years of odoriferous inhalations, but the stranger within the gates will appreciate the improvement and marvel at the miracle of a city without smells, he claims.

Not only packing house odors will be suppressed but the gases that at times rise from sewer manholes to assail the nostrils of the passer-by and take the joy out of a promenade of city streets are likewise doomed to extinction it is claimed. Not a lair that houses a noxious smell, it is planned, will be left to taint the sweet purity of the "Odorless City."

What Do You Know On Stingy People?

Who is the stingiest person you ever knew? What is the stingiest thing he or she ever did? Write your own experience very briefly and mail it to the "Stingy Letter" Editor, The Bee. He will pay you \$1 if the story is printed.

BRANDEIS STORES

BARGAIN BASEMENT

Clearance of Women's Ready-to-Wear

Practical Coats

We have grouped, in this lot, about 200 women's and misses' winter coats, in a large variety of styles and colors. They are not all this season's styles, but every one is a good practical garment that will give real service. All sizes in the lot. Worth from 7.50 to 12.50, special for this sale.

Serviceable Suits

In these days of high prices you will find it impossible to buy the material in these garments at this low price. There are 250 suits in good styles, a variety of colors, a full line of regular sizes and a number in extra sizes, 43 to 51. All will give good wear, and are worth 10.00 to 15.00. Your choice.

Seasonable Dresses

More than 700 dresses in the lot—of serge, Panama cloth, Satin, Radium and crepe de chine—and all in this season's models. Dark colors predominate—Navy, Black, Brown and Green—in sizes 16 to 42. Every one is a good, practical dress—worth from 7.50 to 12.50, special for this sale.

Brandeis Stores—Basement—Arcade.
