LIKE BOLT FROM HEAVEN'S BLUE A happy discovery of Cincinnati chemist interests women here

Your high heels have put corns on your toes and calluses on your feet, but why care now? A genius in Cincinnati discovered a magic ether compound and named it freezone. A quarter ounce of this freezone can now be had at any drug store for a few cents. Apply a few drops on your tender, aching corn or callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you lift it off with your fingers. Just think! You get rid of a hard corn, soft corn or a corn between the toes, as well as hardened calluses for a few cents and without suffering one particle, without the slightest irritation of the surrounding skin. Just a touch of this marvelous freezone on a sore, troublesome corn gives instant relief.

Producers of Milk We Want GUERNSEY MILK

The demand for Alamito Guernsey Milk has been increasing so rapidly that we are in the market for a larger supply. The Alamito Guernsey Milk is from tuberculin tested herds, produced under the most sanitary conditions and then pasteurized in the bottle and sealed with a sanitary cap.

We would like to get in touch with milk producers who have Guernsey Herds, or who would be interested in purchasing them. The cows must be tuberculin tested, the farm must be equipped to cool milk very cold, either with cold well water or ice, a milk-house, separate from the barn, is essential and other sanitary requirements are necessary.

We will pay a good premium over the regular market price for Guernsey Milk that will meet these requirements. If you are at all interested, we advise that you get in touch with us at an early date.

How to Make Up The Dolly Sisters

For the home, the street and social affairs. Sane, sensible suggestions by The Dolly Sisters

The Abuse of Lip Rouge. The last thing to be done before applying face powder is to attend to the lips. There is much to learn about this work of art. In the first place do not use liquid rouge. The lips become chapped.

Before using any rouge, massage the lips well with cream. Remove this with a soft cloth. Take a grease rouge, and be certain that it isn't an all red mixture. Insist upon getting rouge with orange color in it.

If the mouth is large do not put the rouge too near the corners, put powder there instead. If the lips are narrow use the tips of your finger to make the cupid bow at the center of the lips, to increase their width.

Be careful if the lips are thick, and do not put the rouge too far out on the upper lip. Never rouge beyond the corners of the mouth, no matter how small it may be.

Do not let the lip rouge go one bit beyond the pink of the lip line. It can be a lesser depth, but never beyond the natural line. If you get the correct grease rouge you can powder over it and get a beautiful and natural color.

Be certain before applying powder that the rouge has been thoroughly rubbed into the lips, or it will settle in the tiny crevices and make the lips look streaked or veined with red.

One of the worst faults of those who make up is the way they use lip rouge. They take a lip stick from their purses in cafes and theaters, and apply the rouge as carelessly as they would eat candy, and the result is hideous to behold.

Things to Remember. After the summer light colored window shades are usually soiled. Clean by rubbing gently with a soft cloth wrung out of a mixture of one pint of hot water and three table-spoonfuls of benzine, keeping the benzine away from the fire. Dry by wiping with soft towel.

Silver and Glass. For windows and other glass, ammonia will evaporate, thus saving much hard work of wiping; ammonia may also be used for cleaning paint. The dirtiest places may be easily cleaned with a mixture of soap-suds, ammonia and kerosene.

Lovelorn

By BEATRICE FAIRFAX. An Unkind Father.

Dear Miss Fairfax, Omaha Bee: I am only 17 years old and I am sick and nervous all the time. Now, Miss Fairfax, if you had a man (father) like the following, what would you do? He never wants my mother, sister and myself to leave the place, but wants us to stay and work all the time. He is continually "nagging" at us about this and that. He won't buy any furniture or anything for our house or won't even buy us any clothes, but buys it for his parents and brother. He crows about what we cook. My mother is the best cake baker in our town, but still he grows and he won't buy anything to cook. I am 17 years old and he never would let me go with a boy and it makes him mad if he hears me speak to them. If you were in mother's and my place would you leave him? He even strikes my mother and myself. I am in the 11th grade and I am sick all the time, but still he makes me go to school. I can hardly see, but he won't get me any glasses. We have stood it about as long as we can. My mother is an excellent housekeeper and is very good natured. They have been married 25 years and she has went through all this all these years. Now what would you do? Leave him? Mama has threatened him several times and has prepared to leave several times, but he's just as bad as ever. Please don't print the town or my name. Yours truly, S. B.

Your mother is the one who should decide whether or not to leave your father. If conditions are as bad as you describe, it is very regrettable and the one thing for you to do is to finish high school and try to make a living for yourself. Get your high school education if possible. Then you can work your way through college if you wish. Gain your own financial independence as soon as you can. You don't say how old your sister is, but your mother, with only herself to support, would not have to worry. Then if your father's conduct should be intolerable she could leave him. If your eyes are weak and you need glasses, have your mother take you to a doctor and get the necessary treatment. Your father will be obliged to pay the bill. Treat your father with as much kindness and respect as you can, but do not allow him to jeopardize your health, or rob you of an education. In other words, be considerate, but not a fool.

The Mound Builders. Dear Miss Fairfax, Omaha Bee: While visiting Denver last summer I became very much interested in the exhibit in the state museum of relics from the mound builders. In my own city, Denver, and Lincoln I have been unable to find any history of the mound builders. Can you tell me where I can find a history of the mound builders? Write Addison E. Sheldon, secretary of the State Historical Society, Lincoln. He is thoroughly familiar with Indian history and will advise you.

Heart Beats

By A. K. All Rights Reserved

When life runs on so smoothly that there seems to be no hitch and our wants are nearly satisfied— We all attack the weather in caustic terms Or grumbles— And join the moaning chorus. Like a group of saxophones. If the sun is shining brightly From the Heavens— It's sure to be too glaring Or too hot— If soft clouds float between They're labeled "gloom"— And not a mark of beauty Do we see. If spickets in the sky Turn on a shower— To give the parching earth A wholesome drink We never think To welcome rain As one grand kind Of weather— But fret because There's mud Upon the street. So when God Sorts out the atmosphere For birds and beasts And flowers— And breaks the strain Of sameness Through the seasons— I hope He'll never listen To our senseless complaint— But keep on Sending sustenance And blessings— Through the sun And clouds And rains— That we may reap the harvest Even though We must complain. —SELAH.

Girls! Draw a Moist Cloth Through Hair

Let "Danderine" save your hair and double its beauty.

Oh, girls, such an abundance of thick, heavy invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage. Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair. "Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on bottle.
