# READMSSION IN CONFERENCE

poned, Regardless of Conference Officials' Attitude.

Lincoln. Feb. 17 .- (Special Telegram.)-The board of regents of the state university at a meeting today voted to take action toward getting back in the Missouri Valley conference. Application for admission will be made immediately and the valley board of control will probably take action on the matter late in the

One obstacle in the way of Nebraska's readmission to the conference is the game scheduled to be played with Rutgers' college on the polo grounds in New York City, November 2. The same reason for which Nebraska was forced to withdraw from the conference last year is again met here as the conference lows: rules forbid teams playing games on any but the college gridirons.

Chancellor Avery announced emphatically that the Rutgers game would not be canceled. He said that in case conference officials refused to readmit Nebraska on this score, it is probable that a game will be scheduled for in Omaha next

Chancellor Avery and Regent Brown in giving their report to the regents today stated that the feeling in schools in the conference toward Nebraska was extremely friendly, The chancellor said that he was of the opinion that officials would be and 3. more inclined to leniency towards Nebraska now than they had ever Husker Base Ball Team

In case the Husker school is taken back into the conference soon. t is probable that some track and base ball meets will be staged with valley schools.

### KANSAS CITY MAN AND WIFE NOW CONVINCED

"I Have Never Seen Anything each week. Like Tanlac," Declares O. J. Wheeler-Works Every Day Now.

The reader will doubtless remember, in a recent issue of this paper, the statement of Mrs. O. J. Wheeler, a prominent woman, 1431 Harrison street, Kansas City, in which she told, so interestingly, of the won-derful benefits she has derived from the use of Tanlac following a period of ill health covering several

The results of Tanlac in Mrs. Wheeler's case were so pro-nounced and convincing that her husband, O. J. Wheeler, who states he has been suffering for a year or more from stomach trouble and a run-down condition, is now taking the medicine and following is his own story regarding the fesults:

to be by far the best medicine we ever ran across. As for my own case, I have been suffering from stomach trouble and nerwous indigestion ever since I returned from France a year ago. In fact, while over there' I was troubled with frequent spells of indigestion. My appetite was very poor and what I did eat would sour and cause such a bloated, stuffed-up feeling that I could scarcely breathe, with pains in my stomach at times that I could hardly stand. I was habitually constipated, had fearful headaches and dizzy spells, and often felt so bad that I couldn't work. Finally I got so weak that it was difficult for me

to get around at all.
"My wife had been taking Tanlac with such fine results that I concluded to try it myself, and now am just like a different man. have never seen nor heard of any-thing like it. Why, I had not fin-ished the first bottle before I had a good appetite and could feel my strength coming back. I have taken three bottles now and never feel a sign of indigestion, no matter what I eat. I am now able to work hard every day and my appetite is so big hat mealtime comes too slow for me. I used to be continually losing time from my work, but I have not missed a day since I finished my first bottle of Tanlac. My wife and I are recommending Tanlac to all our friends and I will gladly tell anyone, either personally or by letter, what I have found out by experience about Tanlac."

Base ball is to be revived at the University of Nebraska, according to present indications. Two meetings of base ball aspirants have been held in the last few days and have been largely attended.

Athletic authorities announced that 15 suits had been purchased and arrangements were being made

nia some time this spring. The only reason that base ball was abandoned three years ago was that it did not pay financially. This seems to be the only obstacle in the way of a full schedule for this spring. Several promising players are among those who have expressed their intentions of getting into the sport here.
