Terms cash. James L. Dowd, Auctioneer. For particulars of sale inquire of W. T. Bourke, Sec. 603 City Hall.

FINANCIAL

New York, Feb. 17.—Stocks were heavy weak in the early stages of today's session, but gave an unexpected demonstra-tion of strength later, the market clos-lng with numerous gains of from 2 to 6

ints.
Rails came forward during the active final hour, secondary as well as I grade issues participating in an adva which overshadowed the trading in which overshadowed the trading in the usual favorites.

Azide from an increasing conviction that the market has been very thoroughly liquidated by the heavy selling of the last fortnight, the only tangible explanation for today's recovery was the lowering of money rates.

Apropos of the railroad situation, however, it is generally assumed that the approaching return of the various systems will be followed by important mergers and consolidations, making for greater economy of operations and efficiency of management.

consolidations, making for gratter consonny of operations and efficiency of management.

Call loans opened at 6 per cent, the first initial offering at that low figure in sweral weeks. Time funds manifested easier tondencies, though sit! in scant supply and a better inquiry for commercial paper was reported.

This bulk of the first hour's seiling was coincident with disculeting rumors from Washington and again emanated from professional interests. That faction continued to exert further pressure against high priced industrials and specialities, some of which registered lowest prices for the current movement.

When call loans continued to hold at the minimum quotation, however, extensive short covering ensued, the list moving steadily upward from the intermediate period to the strong finish. Sales were \$25,800 shares.

Railroad bonds strongthened with stocks, but other issues, including liberty bonds were again irregular. Sales (par value) were \$12,250,000. Old United States bonds were unchanged on call.

Number of sales and range of prices of the leading stocks.

Oil, Formerly a Lubricant, Today Is the Great Force **Propelling the Industrial** Wheels of the World

Without analyzing the situation, the average man is astounded t the enormous rise in the price of Oil.

Henry Ford, one of the men to blame, this year is turning out one million new cars. One million new cars to use 1,000,000 gallons of gasoline every day, an amount equal to about one-tenth of the crude oil production of the whole North Louisiana Fields. On top of that, he is placing on the market a gasoline-driven street ear, which can be operated at a cost of ten cents per mile. Henry Ford is only one; think of the thousands of companies manufacturing gasoline and oil-propelled machinery.

Ten years ago it was the exception for any person to own any kind of gasoline-propelled machinery; today it's the exception the other way.

Crude oil has been steadily rising in price.

John D. Rockefeller made his millions when users of oil were few and oil was cheap. The operator of today will make his milions much faster than even John D. thought of.

Think what twenty-five cents a barrel increase means to North Louisians. The pipe lines today are only taking out about 110,000 barrels, or a small part of the available product, yet that last increase means \$27,500.00 a day without any additional handling cost. The end is not yet, nor in sight. Pennsylvania crude, where they have plenty of pipe line facilities, is worth today \$5.25 per barrel. Louisiana crude should reach that price and we hope will reach it by the time we have production on our famous 20 acres of Sec. 24-21-8, Homer.

Every person in the field calls our twenty "The Famous Sure-Shot-Stuff." We believe it is, or our company would not have acquired it at an enormous cost. Only one well on one acre producing 500 barrels per day, with oil at only the present price \$3.00 per barrel, would mean an income of \$1,500.00 per day, or almost \$550,000 a year. JUST THINK OF THE POSSIBILITIES OF THIS COMPANY. One well less than one-twentieth of the size of the best of 27 wells already producing in this section would produce enough oil to pay off the total capitalization of the company in one year. What will twenty 500-barrel wells, one in each acre, do for us? Or be more conservative if you wish-what will 20 two hundred-barrel wells do for us? There is only one well in the whole section producing that small amount; the average of the 27 wells is almost 2,000 barrels daily settled production.

We not only have this valuable 20 acres, but have already

let a contract to drill our first well; contractor already busy. This is not by any means our only holdings; we have 40-acres in 23-20-8, Homer, where our own complete and new drilling outfit already has a hole about 200 feet, ready for ten-inch casing. This casing will be set as soon as we can get it on the ground.

Mr. Bowers, our supt. and fieldman, is confident of finding oil on this Homer extension. This is where the name of the com-Bull Bayou-Look at the structural map and examine our valuable holding in this field; 520 acres in sections 1-11-12, Township

11. Range 9. Right on the Sabine Uplift, only a short distance from the big Bull Bayou production. We are also drilling this and have our ten-inch casing set. When this well is down to the oil sands and producing our Bull Bayou \$20 acres will be worthwell, you can guess yourself how much.

Our other holdings are as follows: **GIBSLAND**

80 acres in section 19-18-7, right close to Gibsland. The Early Oil Company is drilling three wells close to this tract, which makes BIENVILLE

is right on the structure. Looks like a sure producer.

40 acres in "Sabine," being in 22-8-11. This field is attracting a lot of attention right now. Big things are looked for soon in this locality.

200 acres in section 26-16-9. Oil men and geologists say this

TEXAS

2,640 acres in Texas. This is well selected "Wild Cat;" the wild cats of today are often the big producers of tomorrow.

OFFICERS The well known officers behind this proposition are as follows: President, L. W. Foster, Sec-Treas. Lou-Tex. Oil Company. Vice President, E. J. Price, O. B. Price & Co., Stock Brokers, Pittsburgh, Pa Secretary, C. R. Hemenway, Shreveport, La.

Treasurer, B. R. Farmer, Vice Pres. Continental Bank and Trust Company, reveport, La. TRUSTEES P. H. Drew, Pres. Lou-Tex. Oil Company, Shreveport, La. D. W. Brown, Shreveport, La., Manufacturer. Council, Clem V. Ratcliff, Shreveport, La.

Field Manager, J. Thomas Bowers, Shreveport, La.

The Homer 23 Oil Company are only offering for sale 100,000 shares fully paid and non-assessable at par of \$1.00 per share. Local people appreciate the line-up in acreage and men that we have and are investing substantial amounts with us. We think that this is the strongest recommendation any oil company can have and in offering you a chance to own some Homer 23 at par we feel that we are presenting a proposition that will stand the scrutiny of the keenest financiers. In regard to matters concerning finances, integrity, etc., we refer you to the Continental Bank and Trust Company of Shreveport, La. As to our holding, we refer you to any accurate oil field map or individual knowing the field. Quick action is necessary if you want to get in on this 100,000 shares. Wire reservation and mail check today.
