Of the night for the morrow,
The devotion to something afar
From the sphere of our sorrow.

Bright
With the morning sun—
Our hopes—
And plans—
And schemes—
Run high.
The builders
Of the world
Work with colossal faith—
Faith—
The foundation
Of achievement.
And as the sun
Smiles far above us—
Filling the heavens
With wondrous
Dazzling light—
Completion
Of our tasks—
Realization
Of our dreams—
Brings satisfaction
For the moment.
Then the sun
Descends slowly—
Takes with him
Behind the western hills
Our keen ambition—
The tension slackens—
A weariness consumes us—
Sadness fills our hearts—
And ashes
Of gray dying day
Take the last hope
To rest—
In the west—
With the fading light
Night's blackness soothes—
And then—
A great round crystal moon—
With silver light
Permeates the world
With romance—
And love's fine dreams
Assuage all pain.
New stimulation—
New faith—
In God
And man
And things
Comes with each
Rising sun and moon.
'Tis through
These all compelling lights
That God sends hope eternal
To the human breast.

For Women Voters

Nebraska women are to vote this year. The voters may be decisive. Quite naturally, they are confronted with many new questions, both as to the procedure of voting and the issues involved. The issue, under this heading, will answer such questions as they may arise. The questions need not be exclusively by women, although special attention will be given to the women's problems. Address "The Woman Voter," The Bee.

LIFT OFF CORNS, MAGIC! NO PAIN

Drop Freezone on a touchy corn then lift corn off with fingers.

Drop a little Freezone on an itching corn, instantly that corn stops hurting, then you lift it right out. It doesn't pain one bit. Yes, magic!

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness or irritation. Freezone is the much talked of ether discovery of a Cincinnati genius.

Why Don't You Wear Shoes the Shape of Your Feet?

Your toes would never be all cramped out of shape, nor would you be doctoring corns and bunions if you had always worn shoes the shape of your feet. The fact that a narrow toe may not "hurt" when you try it on is no sign that you can wear it without injury. You are simply fortunate that your foot is not as sensitive to pressure as some other parts of the body. But look at the result—toes you are ashamed to let anybody see because you've abused them all these years. And if you could only see the more serious and far-reaching physical results you would be willing to bury your pride and listen to common sense. Ground Gripper shoes are the shape of the foot, never any other shape. The heel is always broad and low, the shank very flexible. They assist you to walk correctly and efficiently.
