

# NOTED PHYSICAL CULTURIST WILL LECTURE IN CITY

Will Give Series of Addresses During Stay Here—Talks to Rotary Club Today.

Dr. Charles E. Barker, noted lecturer and physical culturist, will talk on "How to Live 100 Years" at a meeting of the Rotary club in the Hotel Fontenelle this noon. Dr. Barker, who is a Rotarian, was one of the principal speakers at the International Rotary club meeting in Salt Lake City last June.

His services have been secured by the club and he is to speak to a number of clubs in the 16th district of Rotary, Nebraska, Iowa and South Dakota. He will speak here at the First Congregational church Sunday night on the "Joy of Living."

Next Wednesday he will talk to the pupils of South and Commercial high schools on "Getting the Most Out of Life." Later in the afternoon he will address a meeting of women at the Hotel Fontenelle on the "Mother's Responsibility to Her Children."

On Wednesday night he will be the principal speaker at a dinner in the Masonic temple, which will be participated in by members of several clubs of the city.

## Omaha Florist Made State Representative National Association

Announcement has been received in Omaha from Detroit that the Omaha florist, John H. Bath, has been chosen district representative of the National Florists' Telegraph Delivery association, this action having been taken at a meeting of the board of directors.

The association is the outgrowth of the modern idea of service and efficiency, its plan of operation enabling a person in any city to send flowers within an hour's notice to any person in any other city, the member of one city transmitting the purchaser's order by telegraph to a reliable member in the other place. The plan is not only a great convenience to the public in cases of deaths, weddings, etc., but has enormously increased the kindly practice of "telling it with flowers" throughout the country.

## Patriotic Songs at Final Jubilee for National Song Week

A program of music with a strong element of patriotism was presented at the Orpheum theater Friday night as a feature of National Song week.

Beulah Dale of New York, better known in Omaha as Mrs. George Turner, sang two numbers, accompanied by Mrs. Harvey Milliken. Mrs. J. Stanley Hill gave a solo number and a song recitation. Members of the M. C. A. quartet, Messrs. Hugh Wallace, George Campbell, Dean T. Smith and Ed F. Williams entertained with several numbers. Community singing at the meeting was in charge of Burton W. Twichell. The audience, numbering several hundred, expressed enthusiastic approval of the special attractions and joined heartily and melodiously in the community selections.

## Omaha Man Notified of Oil Struck in Texas Field

H. R. Ellwood, president of the Gulf Coast Developing & Refining company, yesterday received a telegram from the Burkburnett oil field in Texas, stating that a new oil sand was found at 1,270 feet, which while drilled into the sand at only 10 feet, is estimated good for at least 200 barrels of oil a day.

Mr. Ellwood says that about three months ago he purchased 88 acres for his company off-setting this well and paid \$25,000 for the lease. There are several hundred prominent Omaha people, as well as others throughout the state of Nebraska, directly interested in this new oil strike.

## Omaha Society Organizes For Relief of the Disabled

Mrs. Frank Judson was elected president of the Society for Relief of the Disabled yesterday at a meeting in the Athletic club. Mrs. Louis Clarke was chosen to take up the work of Miss Margaret McShane. A constitution was presented for discussion and corrections, and was referred over to the next meeting for adoption.

The efforts of the society will be turned toward assistance for the Visiting Nurses' association, in securing funds and equipment for the proper functioning of that branch of relief work.

## British Labor Threat.

London, Feb. 27.—The parliamentary committee of the labor party has adopted a resolution that the trades union congress be held March 11 take action to compel the government to nationalize the mines. This may take the form of a general strike.
