AT EACH successive automobile show in the past the Oldsmobile has set the pace. It has set a standard of excellence many manufacturers find difficult to follow.

True, there is a reason why. From the factory to the dealers one big thought predominates: **An honest product can only be made and marketed with the honest co-operation of the entire organization.**

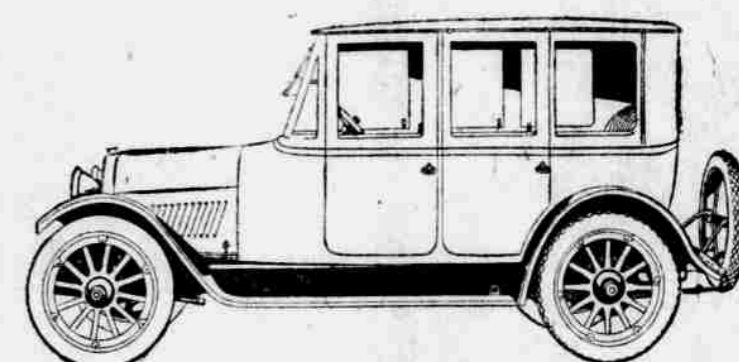

The factory builds the best product that can be built for the money. The Nebraska Oldsmobile Company in carrying out its work does and must bend every effort to building up an organization housed in quarters of sufficient size to render proper, prompt and efficient service at all times.

Our building, shown above, which is now

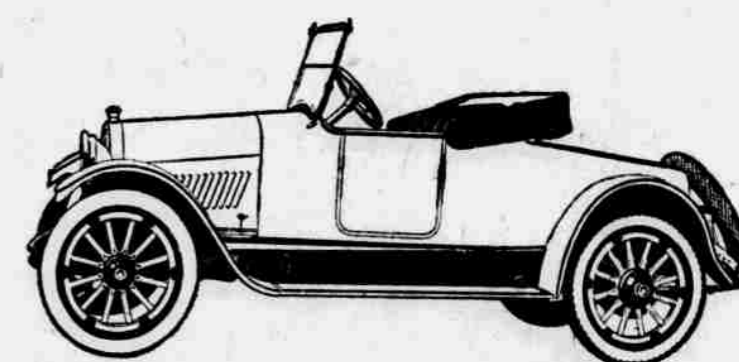

being erected, is just another step in carrying out our end of the co-operation.

Again, at the present automobile show the Oldsmobile exhibit **sets the pace.** The wide varieties of styles in both the "six" and "eight" models, the quality that has established an international reputation during twenty-two years of superior automobile manufacturing and the attractive prices will convince anyone who makes searching comparisons that **Again Oldsmobile Sets the Pace.**

One of the outstanding features of the 1920 Automobile Show will be the individual truck show which will be held at our Farnam Street salesroom during the week of March 1st. You will be amazed at the variety of truck bodies which can be put on the Oldsmobile Economy Truck Chassis.
