A masterpiece—an evening view of Lake Biwa, Japan, with two kimonoed girls and a small boy silhouetted in the foreground.

Singhalese besching a catamaran on the coast of Ceylon at sunset. Ceylon is a paradise for the lover of the picturesque.

Niagara Falls by moonlight—one of the most striking night pictures ever caught by a camera; only it isn't you know. It was made in mid-day.

Here you see a sunset view of the American Rapids, above Niagara, with the trees in the distance silhouetted under silver-lined clouds.
