Fatness Kills 31,000 Yearly

Rat is fatal to health and personality, it is estimated that over \$1,000 persons have died each year in the past decade long before their allotted span of life, through the effects of excessive fatness. Any overstont man or woman is carrying unhealthy adiposity that is pressing against and injuring vital organs of the body. The heart, that delicate human apparatus, becomes congested. In numerous cases there are dangerous gatherings of packed-in fat around the throat, stomach, liver and other delicate parts. Through overstoutness the afflicted person while apparently well is liable to nervousness, neurasthenia, physical or mental collapse and other disorders, four failure, apoplaxy, sunstroke, etc., are frequent causes of premature death. Fattpersons are particularly victims of accidents and are more liable than healthy, slender persons to death from influenza, pneumonia and other severe aliments.

If yet are overstout you should know it is truly a case of slow suicide for you-to kill yourself a good many years before natural old age, simply because you do not emancipate yourself from the burden of unhealthy, unsightly fat. Moreover, your efficiency should be improved by becoming slender; also your appearance should become general so your appearance should become general system. It consists of some almple directions with the use of old of korein. This method is so pleasant because it contains no termuous arercises, no starvation; indeed, you may eat all you need. The korein system is guaranteed; it is perfectly harmless, recommended by physicians. A reliable self-treament.

By reducing now you may expect greater contentment, happiness, increased mental may eat all you need. The korein system is rusranteed; it is refrectly harmings; recommended by physicians. A reliable self-treatment.

By reducing now you may expect greater contentment, happiness, increased mental and physical efficiency, better health and a longer life. Be fair to yourself and those who are dear to you! Surprise everybody with your renewed vigor, vivacity and surpassingly superior personality. Get oil of korein (the easy kerein system is in each pkgc.) at the drug store without delay; or if more convenient, and \$1.00 cash, stamps or money order to Korein Co., NM-69, Station F, New York, N. Y.

Paris, Feb. 15 .- Big French wine manufacturers and wine growers are son, for more than 30 years a resig their interests against a prohibition movement in England and rumors that some of the "Pussyfooters" already have reached France from America have stirred the wine men to action A committee appointed by the National Syndicate and International Wine committee has held several meetings to determine

what course shall be pursued. The wine men have not vet de ermined whether they shall cu liquors and fight their own camprohibition campaign in France becomes hot. Many of the big men in the wine business favor brewers of the United States probably could have saved themselves if they had deserted the distillers a few years ago and had made no attempt to save whisky from de

The American dry leaders are not likely to get any support whatever from the officers of the French league against alcohol. Jean Finot, spokesman for the French dry organization, has contributed an ac-ticle to La Revue Mondiale in which he assails the American prohibitionists for suppressing wines and beer and expresses the belief that the lighter beverages will

later be allowed to return.
At the same time Finot warns the French wine interests that they must join in the fight against hard liquors if they are to convince the

French people of their sincerity.
"Wine offers without doubt some dangers from the alcoholic point of says Finot, "But when it is placed as an adversary against the spirituous liquors, it renders inestimable services which compensate from it consumption to excess. Wine

All-on-One-Floor Heating \$126

Reduces living costs for the small home!

New IDEAL-Arcola Radiator-Boiler

Puts IDEAL Hot Water Heating comfort at low cost in "deckers" or flats, bungalows, stores and shops, with or without cellars

Even the \$15 a month tenant would be glad to pay \$1.50 a month extra for this IDEAL Hot Water Heating, as it would save the tenant investing six times that amount in a short-lived stove with its one-room "spotty" heating. Does away with the annual blacking, taking down and storing of stoves. And the \$1.50 a month increased rental is good interest to the building owner and secures him a better satisfied, longer-staying tenant. The IDEAL-Arcola is therefore an investment, not an expense—as it will outwear the building itself.

Investigate at once this IDEAL Heating bargain!

Each tenant controls the exact degree of warmth his family prefers or needs-makes his own indoor climate! The IDEAL-Arcola requires no cellar. Same water is circulated over and over for many years! There is no danger to children or fire risk to building, as the iron surfaces do not get red-hot like a stove, nor can the Arcola be over-

ing heating costs down to lowest notch. Greatest comfort, cleanliest heating, saves work and worry; protects family health, saves doctor bills and repair bills. The coal-saving soon sepays original cost. Put quickly into OLD or new buildings. Phone

turned or a leg kicked out. Stope all coal-waste-thus bring-

Catalog showing open views of houses, individual flats, stores, offices, etc., with the IDEAL-Arcola Boiler in position will be mailed (free). Write today
