

FAMOUS MEXICAN BANDIT TAKEN BY SECRET POLICE

Cirilo Arenas and Caravo, Ringleaders of Disturbers, Are Captured by Troops Under Carranza.

Mexico City, March 1.—Cirilo Arenas, a rebel leader, has been captured by secret military police at Puebla, according to a telegram from Gov. Alfonso Cabrera of the state of Puebla made public here last night. Arenas was taken into custody when he attempted to enter the city of Puebla after leaving the Gulf coast region. About a year ago a brigade of soldiers under command of Arenas and protecting the Inter-Ocean railway revolted after Arenas received a large sum for the payment of the troops. Since that time this force has been operating with constantly decreasing success in outlying portions of Puebla and Tlaxcala.

Semi-official reports announce the capture of Marcelo Caravo, in the state of Tlaxcala. This bandit has attained considerable notoriety and Gen. Francisco Murguía came to this city for a conference with President Carranza recently relative to plans for the apprehension of Caravo.

Newspapers here in commenting upon the capture of Arenas and Caravo point out the progress made by the present administration toward "complete pacification of the country" before the July elections and the change in the government. Among outlaws who have been put to death or slain in battle during the last year were Felipe Angeles, Aureliano Blanquet, Francisco Alvarez, Jose Inez Chavez Garcia and Emiliano Blanquet, Francisco Alvarez, Jose Inez Chavez Garcia and Emiliano Zapata. Among those captured were Gaudencio de la Llave and Luis Caballero, while Guillermo Meixueiro is said to be negotiating with federal officials preparatory to surrendering.

SAY THREAT OF MEXICO PREVENTS EVIDENCE FOR U. S.

Fall Alleges Americans Refuse Testimony Because Administration Offers No Protection.

Washington, March 1.—Orders issued by the Mexican government that Americans who testify before congressional committees investigating the Mexican situation shall not enter Mexico, have prevented business men in towns on the border from giving valuable information, according to Senator Fall, republican, New Mexico, chairman of the subcommittee now holding hearings on the border.

In a letter to F. J. Kearful, counsel for the subcommittee, Senator Fall declared witnesses desired at Douglas, Nogales and other American cities would not appear because they "had business in Mexico, and were afraid to testify."

New York Income Tax Is Unconstitutional, Says Supreme Court

Washington, March 1.—The New York state income tax law was held unconstitutional today by the supreme court insofar as it denies exemptions to citizens of other states who are granted to its own citizens.

Federal court decrees declaring the law discriminatory and permanently enjoining state officials from enforcing it against nonresidents were sustained. In declaring the act invalid the lower court held that it conflicted with Article 4 and the 14th amendment to the federal constitution.

MYSTERY ABOUT GREY'S RETURN TO LONDON DEEPENS

Refuses to Discuss Story He Quit Because Wilson Refused Him an Audience During Dispute.

By JOHN STEELE.

London, March 1.—(New York Times-Chicago Tribune Cable, Copyright, 1920.)—There is considerable mystery about the reason for Lord Grey's return from Washington to London, and the reported appointment of Sir Auckland Geddes to the embassy.

Lord Grey today refused to discuss the report that he was denied an audience with President Wilson because of the title matter over Maj. Crawford Stuart, and Major Stuart is not in London.

Lord Grey, it is said, pointed out that Major Stuart was not a member of the diplomatic staff, but a personal aid. Bajor Stuart, it is said, denied the whole story, and the woman to whom he is alleged to have spoken, made a written denial that he had done so.

Lord Grey consulted Ambassador Jusserand, dean of the diplomatic corps, who advised him not to act. The incident closed, according to the London version, on Lord Grey's report to Secretary Lansing that there was no evidence to support the charge against Major Stuart.

German War Criminals Demanded by the Allies, Asked to Be Tried in U.S.

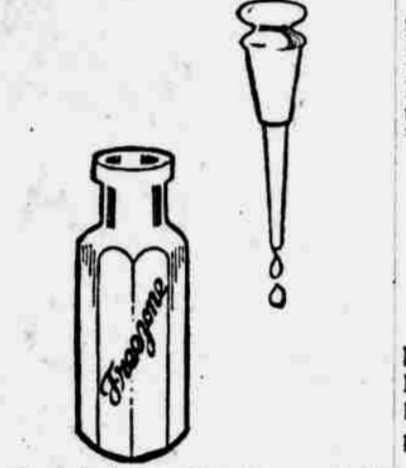

Paris, March 1.—(Copyright by Chicago Tribune, 1920.)—The German war criminals demanded by the allies were willing to submit themselves for trial in America by Americans as a last resort.

This proposition was presented to the supreme council and turned down by Lloyd George.

Among those reported as willing to throw themselves on the clemency of an American court were General Ludendorff, General von Hindenburg, Prince Rupprecht, Admiral von Tirpitz and ex-Chancellor von Bethmann-Hollweg.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Freezone on the aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Steps Are Taken to Prevent Shortage Of Oil for Vessels

Washington, March 1.—Steps to prevent a shortage of fuel oil for government vessels were considered today at a conference called by Secretary Daniels and which was attended by Chairman Payne of the shipping board, Acting Secretary Vogelsang of the Interior department, who is directing affairs of that body following the resignation of Franklin K. Lane, Director Manning of the bureau of mines and representatives of the War department. While the situation is not now acute, Mr. Daniels said, oil consuming agencies of the government must study their needs in the light of the relation of the supply to the demand if a future shortage of fuel oil was to be avoided.

Berlin Socialists Oppose Compensation for Kaiser

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips. By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

VANDERLIP SAYS HIGH TAXES HAVE BECOME ONEROUS

Americans Seek Investments Free From Income Levies and Divert Money From Commercial Channels.

New York, March 1.—"High taxation has become so serious to American women and men of wealth," says Frank A. Vanderlip, "that they are seeking investments which are free from income levies. This diverts money from its regular commercial and industrial channels."

"The employment situation is at its best, but the production is far below normal. No man able to do useful work needs to go unemployed at high wages. But while the working man is finding his pay envelope fatter than ever before in history, he finds also that the purchasing power of his dollars, because of unrest, of under production, is lower than it was when he was paid smaller wages."

"Present day prosperity is superficial. Profits have been forced upon all who own stocks of goods. All of the purchasing of luxuries by persons suddenly endowed with wealth, however, is the extreme of extravagance."

"The economic situation in central Europe is directly related to our own, and need to it should be given by wholly domestic minded persons."

"Acuteness of the poor and unemployed situation in Europe is responsible for revolution; for bolshevism and disorganization in Europe are calculated to upset the entire social and economic situation."

England Resolves to Eat Less Sugar to Beat Price

London, March 1.—Great Britain is resolved to eat less sugar in order to beat down the world price of that commodity. Buick Valve-in-Head Serviceability

As a result of their experience as Buick owners, several hundred thousand people, in all parts of the world, have come to two conclusions with reference to Buick cars:

First, that Buick Valve-in-Head motor cars are so designed and manufactured as to render them capable of great serviceability under a wide range of motoring conditions, and second, that they are backed by a service organization so thoroughly organized as to make that serviceability continuous.

No ridiculous claims have ever been made for Buick cars. They are purchased, rather than sold, on the strength of the record they have made during nearly twenty years.

The mechanical principles of the various chassis units—motor, clutch, transmission and other working parts—have been proven and developed by time and use. And the different body types have been similarly developed to suit the needs of six broad classes of motorists.

The difference between these six models is one of body type or wheelbase, only. Otherwise they are equal—in performance, in power, in well-proportioned strength. These are the qualities that combine to make up Buick in-built serviceability, which makes the need for Buick service facilities the exception, rather than the rule.
