## A Powerful Car

## Meeting every demand of the road

CTEEL masters who for years have built the rolling stock of O the leading railroads of the world have produced in the Standard Eight a car of supreme power.

So perfect it is in engineering balance and construction that it meets every demand without the penalties which superiority in power has heretofore exacted.

Absolute reliability and perfect flexibility combine to give full driving pleasure.

Complete balance throughout the Standard Eight's construction offers faultless riding ease.

Naturally every appointment for comfort is supplied in good taste. Its refinement of line immediately places it in the mind of the casual observer.

The Standard Eight is built and tested in the hills of Pennsylvania by the Standard Steel Car Company of Pittsburgh, Pa.
