Bread and Fancy Cakes Cost More in Manhattan

New York, March 3.—A two cent loaf increase in bread prices is announced by the Master Bakers of Manhattan, an organization controlling about 400 shops. Doughnuts and fancy cake prices will be increased accordingly.

The price increase is due to the demand of bakers and their helpers for a raise in pay of \$1 a day, it was stated. This will bring the bakers' pay to \$8 a day and give the helpers a minimum of \$32 weekly.

Sickness Treated Here

Physicians have diagnosed the cases of Dr. W. H. Wightman at St. Josephs hospital and P. A. Pen-dergast at Lord Lister hospital as "sleeping sickness," otherwise known as lethargica encephalitis.

Dr. Wightman, who is a resident of Scotts Bluff, Neb., has been ill since February 8, and during most of the time has been in a stupor. He is in a serious condition. Mr. Pendergast of Fort Dodge, Ia., was brought to Omaha last Sunday for treatment. He was en route to his home from Los Angeles and was stricken on a train.

The medical histories of both cases show that the patients recently were affected by influenza.

PAIGE Sie Most Beautiful Car in America

Feature of the Shows

It is no exaggeration to say that our new "Glenbrook" model has been a sensational feature of both the national and local automobile shows.

Its fame has traveled from state to state, city to city, and it now occupies an unchallenged position of leadership in the field of five passenger cars.

In our long experience as manufacturers, we have never produced a model that has so quickly won its way to public favor.

Everyone, apparently, recognizes in the "Glenbrook" an engineering and designing achievement of the utmost importance.

Designed and built in the Paige

shops—and powered with our new six-cylinder motor-it surpasses every standard heretofore accepted as the best in five-passenger motor cars.

The "Glenbrook" is now one of the fastest selling cars on the American market and the demand is increasing with each succeeding day.

Already our production schedule has been sorely taxed and orders for spring delivery will undoubtedly result in an oversold condition.

Compare it with any five passenger car that the market affords and determine whether it is not, indeed, the greatest dollar-for-dollar value in the light six field.

Maibohm Six

An Overhead Cut to The Bone---

is one reason for the unprecedented value of the Maibohm car. A factory, just built, with every modern means of efficiency, a location away from discontented labor, a personal and financial co-operation with the workmen, and a lack of showy, expensive pretense cuts deep into the cost figures of the car .-- so much so that this lightest good six made, represents the maximum of value to the buyer.
