Marriage and the Pay Envelope Related

By BEATRICE FAIRFAX. A brilliant young professional man recently informed me that he'd never consider marrying until he had an income of \$12,000 a year.

Fortunately his view of things isn't prevalent or we'd have about one man in a thousand marrying. Nevertheless an extravagant viewpoint acent the amount of income on which it's safe to marry is part of today's mental reaction from yesterday.

Twenty years ago a rich man's daughter was cheerful and ready to marry a man who was earning \$100 a month and to do her own work in a \$20 a month cottage on the outskirts of her home town. Today the factory hand whose home horizon is the tenement district earns as much and may have to pay more rent.

The girl of today demands luxury as an integral part of her life. Men have accustomed themselves to think of women as non-toiling lilies of the field whose glorious array suggests the earning capacity of their menfolk. Men of today are afraid to marry until they have some assurance of buying their wives the trappings and furbelows which they seem to confuse with the woman herself.

And when they can buy her everything, they can't give her nothing!

By the time the young lawyer has reached the \$12,000 standard he sets himself—when the business man acquires the \$6,000 a year which is his minimum—and the clerk has risen to the \$2,000 a year he feels obliged to have before founding a home, one or two things has happened. Either the heart, denied its natural heritage of love, marriage and a home, has satisfied itself unworthily in a relationship without "obligations," or else emotion long denied has atrophied. Then the "middle-aged man" whose income warrants him marrying, is likely to find that his circumstances or his feelings—or both—deny him the goal he has at last reached and the prize he thought would be awaiting him there.

What happens to the man who waits until his "income justifies his marriage" is that his once warm and loving nature settles into a mold of cool calculation while his habits become as iron and adamant and he isn't capable of tenderness and gentleness and the give and take needed for happy marriage.

How about the girl who waits for wealth?

The woman who doesn't love a man enough to live with him in a small flat and do her own work doesn't know the meaning of "for better, for worse." A woman who isn't sufficiently interested in her husband's life work to help him accomplish it by sharing the upward climb and its dangers is a parasite, not a helpmate. A woman whose wealth may vanish overnight. Poverty may be lurking around the most luxurious corner. Then what's to become of the woman whose idea of marriage doesn't include working to earn love and happiness?

Not all the dollars in the world will buy deep feeling and warm emotion. Not all the success ever achieved will insure sympathy and comradeship. And the things money won't buy are the very foundations of love and marriage.

Luxury and show seem to be taking the place of heart, home and happiness. The poor young man who could win love with his fresh emotions and vivid enthusiasms is afraid to ask for what he can meet and create in a woman's heart. So he waits to marry until he must.

What once he could have won by his love, warm youth turns out to be a poor bargain when his outward and cynical years purchase it.

Out of the immorality of the loveless "bargain" marriage comes the greatest evil of the modern age. The man who is disappointed in his loveless marriage turns around and buys himself more shame—the imitation affection of the woman whose business it is to pretend what she is beyond feeling. There follow almost inevitably more disappointment, bitterness, shame.

The best of life ought to come through love and marriage. And the best of life is far more likely to reside in a happy active partnership than in an affair where everyone retires from business and seeks someone to keep the day and the weary self going.

No man has a right to set a mark and say he won't marry until it reaches it. No man has a right to deny the girl he loves the privilege of working by his side and sharing his struggles. There's only one benefit that does more to make wedlock happy as well as holy, and the postponed late-life, large-income marriage has to get along without that bond too.

People who don't share their youth and its uphill climb, don't share the blessed nursery and its glorious partnership either. Twelve thousand dollars—or love and children, which, Mr. Lawyer, which?

Superfluous Hair Now Removed Roots and All! (New and Instantaneous Home Method)

A boon to women troubled with superfluous hair is the new electrolytic process. It is totally unlike the depilatory, electrical and other methods heretofore employed for the removal of hairy growth. It is the only thing that enables one to remove the hair completely—roots and all—in one's own home, without the assistance of an expert. The result cannot be seen at any drugstore. It is entirely harmless (a child could safely use it), odorless and non-irritating. It is an instantaneous method, and so thorough that the skin is left perfectly smooth and bearing not the least evidence of its former disfigurement.

Among those who attended the servants' ball, held at Sandringham, the home of Queen Alexandra, in England, were three queens—Dowager Queen Alexandra, Queen Mary of England and Queen Maud of Norway. In addition to these notable beauties there were also present several princesses of the two royal houses.

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force In Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL

Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate is the advice of these physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficiency of this preparation to warrant the recommendation. Moreover if we judge from the countless testimonials and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, necks and bust, and replacing ugly hollows and angles, by the soft, curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness. Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance of the thin, nervous, and delicate, being astonishing. Clinical tests, made in St. Catherine's Hospital, N. Y. City, showed that two patients gained in weight 29 and 27 pounds, respectively, through the administration of organic phosphate; both patients claim they have not felt as strong and well for the past twelve years. Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten and pale cheeks glow with the bloom of perfect health. Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Kelle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

TELLS ABOUT A CHRONIC TROUBLE

Mr. John O'Brien, 659 N. 15th St., Philadelphia, writes: "I have been troubled for years with chronic constipation, until my whole system seemed poisoned, and I suffered with headache, languor, depression and general impaired health. I began taking Sulpher Tablets and got immediate relief. I am, after many months, still regular in habits, and thank you and hope they will become known to thousands, etc." If your blood is bad, tongue coated and you are constipated, with stomach and bowel irregularity, get a tube of Sulpher Tablets of your druggist right away. They are made of sulphur, cream of tartar and herbs—so don't accept ordinary "sulphur" tablets.

No Dolls in Turkey. The only way you can get a doll in Turkey is to make it yourself. The "Big Sisters Club" of Armenian girls in Harpoot decided that the little girls in the Cripples Home of that city must have dolls. To be sure, these "Big Sisters" aren't much past the doll age themselves—perhaps that's why they realized the importance of this need. They talked the matter over with Miss Helen Jones, a Y. W. C. A. secretary, who is the leader of their club, and decided that since there was no better way to get the dolls, they'd have to make them.

Made of cloth and stuffed with anything soft that presents itself, these dolls may not be much like the haughty beauties of our American toy shops, but the devotion of their little crippled mothers is nevertheless assured. They will have the distinction, too, of being the only ones of their kind in Turkey.

TO DARKEN HAIR APPLY SAGE TEA Look Young! Bring Back Its Natural Color, Gloss and Attractiveness. Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While, Wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hair has disappeared, and after another application or two your hair becomes beautifully dark, glossy, soft and luxuriant.

CAUTION—While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.

STOP CATARRH! OPEN NOSTRILS AND HEAL! Says Cream Applied in Nostrils Relieves Colds and Cures. If your nostrils are clogged and your head stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.

GLASS OF SALTS CLEANS KIDNEYS If your Back hurts or Bladder bothers you, drink lots of water. When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate your entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they excrete from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Ely's Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

To Withstand the Furies of Winter The season of coughs, colds, grip and influenza, with their possible development, is one of danger for all. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success. An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that the one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale in all drug stores in bottles of two sizes, medium and large. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Omaha Sunday Bee.

ADVERTISEMENT BEST WAY TO WASH THE HAIR We find you can bring out the beauty of your hair to its very best advantage by washing it with catarrh. It makes a very simple, inexpensive shampoo, which cleanses the hair and scalp thoroughly of all the dandruff, dirt and excess oil, leaving a wonderfully clean, healthy feeling. After its use you will find that the hair dries quickly and evenly, is never streaked in appearance and is always bright, soft and fluffy; so fluffy, in fact, that it locks more abundant than it is, and so soft that arranging it becomes a pleasure. Just use a teaspoonful of catarrh, which you can get from any good druggist, dissolve it in a cup of hot water; this makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head.
