

DIKE PROJECT IN 3 STATES TO RECLAIM LAND

Rich Missouri River Bottom Land to Be Made to Yield Crops Again.

Auburn, Neb., March 6.—(Special)—A project to reclaim rich Missouri river bottom lands is now being organized in the county courts of Atchison county, Mo., and in the district courts of Fremont county, Iowa, and Nemaha county, Nebraska, which in continuity, will pass through the territory of three states.

The Nebraska portion of the dike will be in Island precinct, Nemaha county, which is located on the eastern shore of the Missouri river, joining Iowa and Missouri. This territory, which consists of five sections of land, was previous to July 5, 1867, located on the Nebraska side of the river. On that day a big flood occurred and by evolution the island was made a part of the main eastern shore of the river, the channel flowing on the west side.

The new drainage and reclamation project will be two miles in length in the Nebraska territory, two miles in Iowa and five miles in Missouri. It will hold back the waters of the Nishnabotna river in flood times and will reclaim thousands of acres of rich bottom lands.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

Are You Old At Fifty?

How it stings and hurts when the young folks call you "the old man" or "the old lady" for the first time! What a shock to your pride, and self-conceit. Perhaps you did not realize that you are growing old and slowing down!

Nature intended that men and women should be in their prime at fifty, but the nervous strain of modern life, the overwork, worry and fear of the future lower the vitality, undermine the health and make us old before our time.

But age is not a matter of years. There is no necessity for premature age. The body normally renews itself every few years. The only difference between youth and age is that in youth there is an abundance of cell-salts in the blood, and it is vitimized with life-giving oxygen. The abundant cell-salt solution builds new cells and destroys worn-out cells rapidly. The oxygen vitalizes and electrifies the blood. Youth is rich. The hot red blood urges to activity and pulses rapidly through the arteries, making the whole body glow with warmth, vigor and vitality.

The importance of supplying these cell-salts to the blood has only recently been understood and appreciated. REOLO combines these cell-salts so perfectly that they are easily assimilated by the blood.

REOLO supplies to the blood the vitalizing oxygen, the reconstructive cell-salts and the invigorating organic iron that nature must have to make rich red blood. It builds new cells, destroys and eliminates useless, worn-out cells, strengthens the walls of the arteries, veins and capillaries, quickens the circulation of the blood and sends through the entire body a stream of rich red blood, which gives strength, energy and endurance.

Start the REOLO treatment today and you will be delighted with the steady, gratifying improvement in your health. The large package of one hundred tasteless, pleasant tablets only costs one dollar; and it is guaranteed to give satisfactory results or your money will be returned immediately.

New Home of Omaha Grocery Firm

Simon Bros. company is now moving into its new home on the northeast corner of Eleventh and Dodge streets. The building is six stories high and cost approximately \$250,000.

A Cottage of English Style

Clyde Smith Adams, Architect.

Of English half-timber and stucco, with a shingled roof, the exterior of this cottage is of charming appearance. There is an entrance hall with broad, open stairs and coat closet. A wide doorway to the living room which has an open fireplace. The dining room with bay window, pantry and kitchen are arranged to give greatest convenience. Four bedrooms containing an unusually large number of closets, hall with linen closet and bath room on the second floor.

"Lovers' Loft" and Pastor's Study Aid To Cupid In His Work

Chicago, March 6.—A "lovers' loft" has been added to the Emmanuel Baptist church in this city. The pastor of the church, Dr. Johnston Myers, acted on a suggestion recently made by the Rev. John Thompson that all churches should be equipped with "cozy corners" for the accommodation of the young people of the community.

All the conventional comforts of home are guaranteed to the hostages of Cupid who cannot find refuge in other quarters.

A library, a piano, floor lamps, stationery, writing desks and other "non-essentials" in little Daney's lexicon of success are there, together with such absolute requisites as downy davenport, a myriad of sofa pillows and adjustments on the lights that permit of a graduated shading of illumination. There are no chaperones or traffic cops to prevent crowding. And the little church mouse will never squeal.

The "lovers' loft" is open to the matrimonially ambitious swains of the community all day and every night of the week. In real desperado cases the janitor has been advised not to invade the closing hour.

There is a beaten path of soft carpets leading from the "social rooms" to the pastor's study, where, for a nominal fee, the "sunshine in your soul" and "joybells in your hearts" may be perpetuated by a few appropriate remarks from Dr. Myers.

Body of Artist Goya to Be Exhumed for Third Time

Madrid, March 6.—The remains of Goya, the great eighteenth century painter, seems destined to make a record in reinterments. For the third time the body of the artist has been exhumed and reinterred.

The first exhumation took place at Bordeaux in 1828. Then in 1890 the artist's body was transported to Madrid and reinterred in the San Isidro cemetery.

Now, with much pomp and ceremony the remains were exhumed and reburied in the church of San Antonio de la Florida, which is adorned with many of his beautiful frescoes.

Railway Cars as Houses

Berlin, March 6.—The newspapers report that in consequence of the shortage of houses and the fact that the large hotels are occupied by alien missions, the government has decided that all available sleeping cars on the railway shall be utilized to provide sleeping accommodations for travelers at Berlin.

Wood Alcohol Scares Enemies From Party

Waukegan, Ill., March 6.—Only two men who were absolutely sure of the friendship of H. E. Harrington, Waukegan banker, attended a recent party he gave.

Mr. Harrington issued invitations to his "friends and enemies."

In the invitation he stated that he would serve two kinds of drinks—good stuff for his friends and wood alcohol for his enemies.

OLD LANDMARK BOUGHT BY HORN OF CANDY FAME

Candy Man Has Purchased \$100,000 Worth of City Property in Last Few Months.

A. P. Tukey & Son made an interesting sale last week when they sold the old Rosenberg planing mill at Fifteenth and Marcy to Nathan Horn. This property consists of two stories and basement building. The ground is 132 feet square. It was built by Abraham Rosenberg in 1885, the first mill built downtown in Omaha. Mr. Rosenberg ran the business until a few years ago when he retired and the building is now occupied by the Imperial Sash and Door company, who are planning to move to their new building in a very short time, near the Belt Line and Florence boulevard. It is said the price was around \$40,000.

Horn Buys Buyer.

With this sale Tukey & Son have sold Nathan Horn in the last few months \$100,000 worth of city real estate. One of the properties sold him is now occupied by the Horn Candy company at 1209 Howard street.

Tukey Reorganizes Force.

A. P. Tukey & Son have been reorganizing their office lately, having taken in more space, and Owen T. Hamer, who has been in the real estate business for about 10 years in Omaha, has joined the company. In their reorganization plans T. R. Huston has been placed at the head of the salesmen and he will devote most of his time to the listing, investigating and appraising property for the firm's customers.

Shuler & Cary Sell Many Residences in February

Thirty-eight real estate sales were made by Shuler & Cary during February. The total consideration was \$214,885.

Thirty-one of these sales were residence deals. Five were of residence lots, and two were flats. The flats: Thirty-fifth and Jones and 132-34 South Thirty-fifth street.

Two of the houses sold include Lockwood residences to Morey V. Porter at 516 Jackson and George Engler at 5173 Jackson.

Colorado Governor Throws Hat In Ring For Another Term

Denver, Colo., March 6.—Gov. Oliver H. Shoup's hat is in the ring for another term as chief executive of Colorado, but he wants no part of national politics for the present, according to a statement announcing his candidacy for renomination by the republicans, "if the people want me."

In an interview in which the governor made definite announcement of his candidacy for re-election he was asked about rumors that he might be a candidate for the United States senate.

The senatorial toga is too long for me and not big enough in the girth," the governor said.

"There has been some talk about me being a candidate for vice president on the republican ticket also," continued Governor Shoup, whose name was mentioned prominently in that connection during the recent visit of National Republican Chairman Will H. Hays to this city.

"None of that senatorial or vice presidential talk has emanated from me," said the governor. "I understand they use the vice presidency as a burial plot for the politically ambitious. I am not writing epigrams for myself or anyone else, and I am not writing my political last will and testament."

REPORT FARMERS PLAN TO RAISE LESS FOOD NO DREAM

"The story that the farmers plan to raise less food this year than last is no false alarm," says T. O. Warfield of the Warfield Advertising company.

"I have just returned from a trip on which I interviewed the bankers of Wichita, Topeka and Kansas City and talked with the editors of the leading farm papers of Kansas and Missouri," said Mr. Warfield.

"Many farmers are disgruntled over the fact that the union labor is working eight hours, while they are working 10 to 14, and they propose to show the union men, they say, that the less they work, the more they must pay for what they eat; that if the unions can raise wages by doing less work, the farmer can raise less food and get more money for it."

"The main reason for the condition lies in the growing scarcity of farm labor; the boys and the 'hired men' are leaving the farm for the city, where they can work a shorter ray and make considerably more money."
