SPOKANE LUMBER CO. WILL REDUCE PRICES AT ONCE

General Manager's Statement Says Move Is Initial Step to Beat Down High Living Cost.

Chicago Tribune-Omaha Bee Leased Wire. Spokane, Wash., March 9.—A reduction of 10 to 30 per cent in prices of all Weyerhaeuser lumber products is announced. The reduction is guaranteed until June 1 and will be participated in by the 14 great subsidiary companies of the Weyerhaeuser interests.

Condition Is Injurious. "The interests comprising the so-called Weyerhaeuser group have come to recognize that this condition of the market is injurious to the public and to industry generally; that the uncertainty, even more than the price of lumber, is the result of an enhanced cost of building and discourages construction and that unless something is done to check the present tendency toward further and frequent and irregular advances which have no relation to costs of production, the situation will become still more deplorable."

"They feel that the level of lumber prices reached early in January is sufficiently high to compensate the industry; that further advances will be unduly burdensome to the public and are not warranted by existing conditions; and that the time has come to call a halt. Lumber is selling freely today at prices ranging from \$5 to \$25 per thousand above the early January prices."
