

South Side NEAR RIOT AT PINEAPPLE SALE IN ARMY STORE

Police Called to Restore Order At South Side City Hall; Lives of Women Endangered.

The announcement of the sale, below cost, of 100 cases of canned pineapples at the United States Army Retail store at the South Side city hall, Tuesday, nearly precipitated a riot when the store opened at 10 a. m.

Men, women and children were jammed 10 deep in the corridors two hours before the opening and when the small door was opened for business, women's and children's lives were endangered. Manager Weede promptly closed the door again and called upon the South Side police to maintain order. Captain Briggs and four patrolmen were sent to the scene and the crowd was com-

H. W. BORING, a well-to-do Kansas farmer, says he has gained twenty pounds in weight and is in better general health than he has been in years since taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kan.

"During the two years I suffered from everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing agreed with me; in fact, I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around.

"My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night and finally became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head.

"This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the very first. My digestion now is perfect and regardless of what I eat I never suffer any bad after effects.

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well every night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times."

Tanlac is sold in Omaha at all Sherman & McConnell Drug Company's stores, Harvard Pharmacy and West End Pharmacy. Also Forest and Meany Drug Company in South Omaha and the leading druggists in each city and town throughout the state of Nebraska.—Adv.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell. The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite as sensible as we are living in an age when a youthful appearance is of the greatest advantage.

Boy War Veteran, in Jail for 'Pal,' Freed on Woman's Plea

William Henry Bone, 24 years old, orphan world war veteran, was released from county jail Tuesday, following an impassioned plea made to United States Commissioner R. D. Neely by Mrs. Birdie Wharton, 4312 Seward street, at whose home young Bone has been living during the last two months.

Despite weakened physical condition, the boy was accepting the burden of guilt for recent Omaha thefts from the American Railway Express Co., and endangering his life in jail in order to shield a "pal," Mrs. Wharton told Commissioner Neely. "The boy is innocent," she said. "He has been sacrificing himself in order to keep a pal out of trouble, and I won't let him do it any longer. He told me he had no one in the world to worry about what became of him, and his 'pal' had an aged mother, so he thought it was better for him to accept the guilt."

Could Not Furnish Bond. At a recent hearing before Commissioner Neely, young Bone admitted stealing a number of express packages, containing clothing. He was held to the federal grand jury

pelled to line up in turn before the door would be opened. Just as things were working in good order, a well-dressed woman with a woman companion drove up to the building and attempted to bluff their way past the line and gain entrance to the store, one of the women remarking she was going to get three cases of the pineapples. She was compelled to get in the line and when she finally reached the counter was politely told she could get three, and no more. That was the limit to a customer, which was strictly adhered to. The pineapples were exhausted in two hours.

Thermos Bottle In Meat Car Is Shown In the Stock Yards

A meat car built on the principle of a thermos bottle arrived on the South Side this week and has been placed on a sidetrack at the stock yards.

The car is an innovation in refrigeration of meats and other perishables in transit and is expected to revolutionize the system of cooling of freight cars. The car is fitted up with two tanks connected by a series of pipes, running along the top of the car, the pipes only being exposed. In each tank, which is filled with a mixture of ice and salt to form brine, is a partition running lengthwise of the car. On either side of the partition are four check valves opening to the right, while in the other tank are four similar valves opening to the left.

When the car sways or jolts in transit brine is in constant circulation as long as the car is in motion. The circulation absorbs the heat from both the car and contents. In the winter the cars can be used for products requiring heat for protection from frost, when instead of brine the tanks can be filled with hot water from the engine and the heat distributed throughout the car.

Clear Man for Alleged Theft Honeymoon Roll

Lawrence Mallen, charged with the theft of \$285 from Andrew Tolley, number 14, 1918, who was later killed in an automobile wreck pursuing his assailant, was discharged yesterday in South Side police court by Judge Foster because of lack of evidence.

Mallen vehemently denied the allegations made against him, and numerous witnesses, for whom subpoenas had been issued, failed to appear in court.

Mallen was arrested after a hunt of 17 months, on complaint of Mrs. Anna Foley, 3620 South Twenty-third street, to whom Tolley was engaged to be married at the time of his sudden death.

Mr. Dunn is active in forming a local committee whose work will be to further the interests of the Bryan delegates to the national convention. A meeting for this purpose was held in his office last night. Mr. Dunn gave this statement during a conversation: "This committee will organize as a campaign committee for the purpose of supporting W. J. Bryan and his associates for delegates to the democratic national convention, and will oppose any candidates for delegates or president who are in favor of injecting the liquor question into the presidential campaign. Here is the situation so far as I know it: Governor Edwards has declared that he is going to urge the national convention to adopt a wet plank. Senator Hitchcock will be a candidate for the presidential vote at the primaries for democratic nomination for president. The Hitchcock and Edwards forces have joined in the support of the same candidates for delegates to the national convention. This would indicate that they are in harmony on the liquor question and that both expect the so-called wet vote to pull them through. As a matter of fact, the chief object, desire and purpose of the supporters of Governor Edwards and Senator Hitchcock, not only in Nebraska, but in the nation, is to accomplish the defeat of W. J. Bryan as a delegate. No matter what they may say about it, all other matters are merely incidental. So the issue ought to be clearly understood by the men and women of Nebraska who will vote at the democratic primary.

W. A. Rumel, who was one of the petition circulators for General Pershing last week, on Thursday signed a new list of names to certify Baldwin at Pershing headquarters. And the best part of Mr. Rumel's work was the fact that the names on the petition were all substantial Omahans, whose names attached to a check would be of no small value.

Rheumatism A HOME CURE GIVEN BY ONE WHO HAD IT

In the spring of 1893 I was attacked by muscular and inflammatory rheumatism. I suffered as only those who have it know, for over three years. I tried remedies after remedies and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted, and every bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. Mark H. Jackson, No. 569 F. Guyon Bldg., Syracuse, N. Y. Mr. Jackson is responsible. How to Save Money On Your Long Distance Calls. This advertisement is intended to explain the different classes of long distance telephone service and how they may be used to the best advantage. When you make a long distance call, if you are willing to talk to anyone at the telephone called, you will be using what is known as station-to-station service. This is considerably cheaper than other classes of service. Station-to-station rates are based on a charge of about 5 cents for each six miles up to 24 miles and 5 cents for each 8 miles beyond that distance, with a minimum charge of 10 cents. HOW TO PLACE A STATION-TO-STATION CALL. When using station-to-station service you should give the long distance operator the name and address of the business or the individual with whose telephone you desire connection. In addition you should give the telephone number if you are sure it is correct. On this class of service the charge begins when the telephone call is answered. The charge on a station-to-station call cannot be reversed; that is, it cannot be charged to the telephons called. This is how you would place a call with the long distance operator on a station-to-station message: After giving your own telephone number and name, say, for example, "I want to talk to John Brown's residence at Blue Springs, Nebraska," or "I want to talk to George Anderson's store at Burckard, Nebraska." Care should be taken to make it clear to the long distance operator that you do not want to talk to a particular person or persons at the telephone called, as in that case it would be a person-to-person call and you would be charged a higher rate. By the very nature of your requirements for long distance telephoning, no doubt a great many of your business and social calls permit the use of station-to-station service. And in addition you can more often use this cheaper class of service if you make special arrangements with those with whom you desire to talk, either frequently or occasionally, to be ready for your call at a given time. HOW TO MAKE A PERSON-TO-PERSON CALL. If you ask to talk to a particular person or persons over long distance you will be using person-to-person service. The charge for this service is about one-fourth greater than for station-to-station service because the operators may have to spend considerably more time and hold the wires ready while they make an effort to locate the particular party. This class of service is not only more expensive, but naturally slower than station-to-station service. If you desire person-to-person service at a particular hour, and wish to make an appointment to talk at a given time, the appointment rate will apply. If you wish to talk to a person who does not have a telephone and for whom a messenger must be sent, the messenger call rate will apply. HOW THE RATES ARE APPLIED. The following is an example showing the station-to-station and person-to-person rates for distances up to sixty-four miles: Miles. Station-to-station. Person-to-station. Person. 0-12. \$0.10 \$0.15 12-18. 15 .20 18-24. 20 .25 24-32. 25 .30 32-40. 30 .40 40-48. 35 .45 48-56. 40 .50 56-64. 45 .55 While the messenger call rate and the appointment rates are not shown in the above table, they are each about 50 per cent higher than the station-to-station rate. The report charge, which also is not shown, is about one-fourth of the station-to-station rate. THE REPORT CHARGE. When you place a call for a particular person and for any reason not within the telephone company's control the call is not completed, or if you make a call and are not ready to talk when the other person is ready within one hour, a report charge is made. This is to cover a part of the expense of the operator's time and the use of the wires while we are trying to find your party. SPECIAL NIGHT RATES. The special evening rate between 8:30 p. m. and 12 o'clock midnight on station-to-station calls is about one-half the day rate and the expense of the night operator and 4:30 a. m. about one-fourth the day rate. The minimum evening or night charge is 25 cents, the day rate applying where the charge is less than that amount. The evening and night rates for person-to-person calls are the same as the day rates. The rate for any class of service may be obtained by calling "Long Distance." Further information in connection with our long distance service will be gladly furnished on request.
