

### OMAHA PASTOR MAY CHOOSE TO STAY IN YARDS

Relief From Annoyances of Church, Declares Rev. John Poucher After Vindication in Court.

San Francisco, Cal., March 12.—(Special.)—The board of directors of the Central Methodist church will meet Monday night to vote on the question of inviting Rev. John E. Poucher to return to his position as pastor.

But Dr. Poucher is not at all settled in his mind as to just what he will do. He may retain his job as a shipyard worker at the Schaw-Batcher company's plant in South San Francisco.

The former pastor was kept busy today receiving congratulations from members of the church and scores of others on his vindication by a jury in Judge Bernard J. Flood's court late yesterday in the \$50,000 alienation suit of William G. Smeltzer, who charged the minister with having stolen the love and affections of his wife, Irma Smeltzer, Dr. Poucher's private secretary.

**Finds New Contentment.**  
The minister found something while working in the shipyards. For one thing, he found contentment, and for another thing, he gained a wider knowledge of humanity and human nature. "My work in the shipyard has given me better understanding of man than I ever had," said Dr. Poucher today, just before he left his wife and two growing boys at the family home, to keep an appointment with Bishop Leonard, and later proceed to the Schaw-Batcher plant.

"As to my returning to the church, that matter is unsettled. Nothing has been done about it and I have not decided just what I shall do. I may take a rest for a while in some other line of work, and I may keep my job at the shipyard. I found joy in my work, and a relief from the annoyances I was subjected to during the last year of my church work."

**Will Be Offered Post.**  
There is little doubt that Dr. Poucher will be offered his old position with the church, according to a prominent member of the board of directors, but Dr. Poucher is hesitating. Overall, the sweat of manual labor, the heartfelt but innocent cursing of men straining over some task requiring all their muscular strength and concentration of mind has touched a chord in the makeup of the minister that has set his soul vibrating.

### Revenue Agent Hurt When Struck by Auto; Injury May Be Fatal

John J. Gillin, internal revenue agent, suffered a compound fracture of the skull at 11 Thursday night, when he was struck by an automobile driven by J. H. Kulokofsky, 811 South Thirtieth street. It is regained consciousness yesterday morning.

The accident occurred in front of the Hotel Fontenelle following the "Hitchcock-for-President" banquet which Mr. Gillin had attended. In company with Dr. J. W. McCrann, John Flynn and George Parks, South Side, Mr. Gillin attempted to cross Douglas street, witnesses say, when the fender of Kulokofsky's car struck him.

Mr. Kulokofsky helped carry the injured man into the hotel. Mrs. Gillin requested police not to arrest the driver.

**Says Wife's Love for Another Makes Him Tremble**  
Ray McCaulley is a railroad engineer. But when his wife, Laura, became infatuated with another man he was so worried that he couldn't drive his engine at high speed over his division, he alleges in a petition for divorce filed in district court yesterday.

His wife frequently told him she no longer loved him, but that she loved another man, he says. Two weeks ago she left for Texas, saying she would visit her parents. But a letter came from her telling him that she would never return because she no longer loved him. She is in El Paso, Tex. He asks for custody of their two children.

### GUMBO GUMS UP OMAHA TRAFFIC OUT IN SUBURBS

Live Stock Receipts Affected—Milk Deliveries Delayed—Street Cars Grow Popular.

Douglas county mud, better known as gumbo, softened by temporary high temperatures Friday, caused the delay of scores of trucks bringing live stock and other farm produce to the Omaha market, and stalled hundreds of Omaha motorists in the suburban districts, according to the reports of suburban garages.

E. G. Maxwell, county agriculture agent, whose trusty Ford was stalled for the first time in its four years of constant usage, declared that never in his experience were the roads so sticky. Their condition is caused by the short warm period and a light rain, he said.

"There were dozens of trucks and touring cars stalled on the side roads leading into Omaha," he said, "but the Lincoln highway seemed to be in good condition. I know that delivery of milk was greatly retarded by the mud, and much milk was never delivered to the city."

Carl Smith, traffic manager of the Union stock yards, asserted that receipts of live stock shipped by truck had dropped noticeably. He attributes this drop to the inability of trucks to cope with the sticky gumbo.

Edward Williams, of the Williams-Bros. garage at Benson, said that all his service machines were kept busy Thursday hauling cars out of the mud on side roads and in the Benson suburban district.

Among the suburban residents who were stalled during their drive home Thursday are George W. Hamilton of the Union Pacific railroad; Benjamin Smith of the Smith-Gwynne Advertising Co., and Arthur Thomas of the Chamber of Commerce.

Scores of other Benson residents were stalled Thursday, according to Mr. Thomas, and surface cars have grown popular in that section of the city, he says.

Conditions of the roads were reported somewhat improved yesterday as a result of lower temperatures.

### ASTHMA WOULDN'T LET HIM LIE DOWN

Hasn't had a sign of trouble now for over 9 months.

"A year ago I had the asthma so bad my friends thought I would never get over it. I had doctored for a long time without results. I had not been in bed for 2 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could go to bed and sleep soundly. After taking eight bottles (\$4 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion, and I haven't had a symptom of asthma since."—Geo. W. Baker, R. F. ### Miracle Man Shakes Dust of Omaha From His Feet, by Request

B. C. Gooley, boilermaker and "miracle man" has shaken the dust

of Omaha from his feet and gone "fer away." Forcible language from County Attorney Shottwell to Mr. Gooley in the presence of Mrs. Gooley and the three little Gooleys last Tuesday, brought from the "miracle man" a promise that they would "beat it."

Gooleys. Mr. Gooley claimed that she followed him around from place to place and "jimmied his miracles." The county attorney said there was one thing he was interested in as an official, namely that Mr. Gooley support his family; and another thing that he desired warmly, namely that if Gooley must perform miracles instead of following the

honest occupation of boilermaker, he perform the miracles outside of Douglas county. Mr. Gooley is gone. So is Mrs. Gooley. And the three little Gooleys.

Hiawatha city commissioners to serve as chief of police here, in all probability is the oldest active police officer in Kansas. Despite his advanced age Fraser is said to have offered to lay a wager that he can get any man he starts out to arrest. Fraser served as sheriff of Brown county some 25 years ago.
