## Inter-Ocean Oil & Refining Co. Refinery at Burkburnett

A Year Ago--

In March and April of 1919 we advertised in the local papers that we were building a refinery at Burkburnett,—Texas, and that we would sell a limited number of shares in our company. We promised to earn dividends for you. A great number of Nebraska and Iowa investors purchased shares in this company.

Did We Make Good--

Our plant was completed and started refining May 27, 1919, within less than 90 days after we had offered our stock to the public. We made money from the first day we started, and on July 10th, just six weeks after we started, we paid our first monthly dividend, and have paid to our stockholders each and every month since that date. In fact, we have paid to our stockholders a total of 27 per cent. In fact, we have returned to them more than one-fourth their original investment as well as improved the plant, which has enhanced the price of their

Capitalization--

We have an authorized capital of \$500,000, of which there is at present outstanding \$250,000. At a meeting of the officers in January they decided to place on the market 10,000 shares to be sold at \$15

A most important thing for the investor to consider is the capitalization of a company. The smaller the capital naturally the greater percentage of returns to the share holders. We are not a stock jobbing proposition, but are selling only as much stock as is absolutely necessary to pay for the improvements now being made. Any stock offered by the company after this 10,000 share allotment is placed will be sold for not less than \$20

Capacity and Improvements--

The original capacity of our plant was 800 barrels per day. Our plant was so constructed that we could add additional units. This we are now doing, which will increase our daily capacity to around 1,800 barrels a day. We have also built a loading rack that will accommodate 20 tank cars, purchased additional land and a pipe line of several miles for use in gathering crude oil from different parts of the field.

Facts, Not Promises--

We do not promise you returns of 50 or 100 for one-we do not ask you to take a chance in a "Wild Cat" gamble. We offer you a solid, conservative investment in a company that is thriving and going and paying to its stock-The big, safe end of the oil business is the refining—converting crude oil into gasoline, kerosene and other products in less than twenty-four hours—selling for cash and supplying a necessity to the markets of the world.

**Management--**

This company was organized by Major H. S. Hurst as president, and is still being managed by him. Every department is managed by experienced and capable heads, and the most modern methods are employed.

Remember--

The Inter-Ocean Oil & Defining Company is not a company just built on paper, but a going concern, and has been going night and day since May 27, 1919. Construction work is going on right now, and will continue to be rushed just as fast as speed, material, labor and the elements will allow, on our new additiona totil we have doubled our present capacity. There is no limit to which this company can logically grow. It is founded upon solid aringiples. upon solid principles.

Permanent Income--

Invest in the big end of the oil game—the safe and sure end. The refinery controls and governs the profit and dividends of all oil companies. It takes its big profits first—the oil company gets the balance, which is also large. It strikes no gushers. It gets no dry holes—but it gets the big end of all the wells that are

Far-sighted investors will own some Refinery Stock. Today is a good time to commence. Buy it now, when it can be bought right. Buy it at the present price. Do n't delay until this issue gets into the hands of speculators who know its value and will keep the price going higher and higher. We assure you an honest application of your money in the future as in the past.
