Explosion Shuts Down Power Line

Dependence, between nations whether members of the league or not, under the provisions of article 10, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the congress, which, under the constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall in the exercise of full

liberty of action, by act or joint resolution so provide.

A steam roller, well oiled and running smoothly, flattened out every effort to weaken or modify the new Lodge reservation. Among the various substitutes which were tossed into the limbo of scrapped compromises were those framed by ex-President Taft and the bipartisan conciliation conference. The Taft resolution offered by Senator Kirby, of Arkansas, democrat, went down to defeat 30 to 46, the republicans voting solidly against it. The bipartisan compromise, also offered by Senator Kirby, was rejected, 31 to 45.

Both were supported by democrats only, but some democrats who found

Use Home Talent.

Harry Watts, manager of the Strand theater, promoted home talent features, in the way of singing, monologues and dancing. He offered a season pass to the first person in the house who would sing for the entertainment of the crowd.

Many Buy Candles.

The sudden failure of lighting power in the downtown section resulted in a general rush to retail stores for supplies of candles. The savings department of the First National bank was in total darkness until a dozen candles were procured.

Government Crisis In Germany Is Ended

(Continued From First Page.) awaited to foist soviet doctrines on Germany.

This state of affairs was recognized in all its seriousness, also by the Ebert government. Therefore hope is entertained an agreement will be reached and that Berlin streets will soon be cleared of wire entanglements, machine guns and armed troops.

Although this counter revolution has been orderly, it has not passed without the clashing of arms and bloodshed. In various cities fighting has occurred, participated in by mobs and troops and today several persons were killed and others wounded in the suburbs of Berlin, when rifles and machine guns were turned on the crowds.

Hand grenades also were exploded in front of the headquarters of General Von Luetwitz, reactionary minister of defense, but did no great damage.

Much interest should attach to the meeting of the national assembly which has been called for Tuesday at Stuttgart.

The underground railway service and rail traffic generally in Berlin was at a standstill today. The water supply had been restored, but gas and electric supplies were still cut off.

No Newspapers Appear.

No newspapers appeared except special sheets of the Lokai Anzeiger, which, in accordance with government decree, contains only news pleasing to the government.

The public is extremely skeptical of the reports thus published, one man remarked: "They are throwing bait at us," as he retires the promise of the government to obtain a food supply. Another remarked: "We are not so stupid as to believe that three quarters of Germany supports the new government."

The Lokai Anzeiger, asserts that the Reichwehr garrisons and other military units are declaring for the new government and adds that resistance is being offered only at a few places.

The German national party and the German people's party in Berlin have declared against the Ebert government and have demanded of the new government that all parties willing to co-operate in reconstruction of Germany, shall be invited to collaborate. A meeting of the committee of senior members of the Prussian national assembly has resolved not to recognize dissolution of the national assembly, but refrains from declaring for or against the new administration.
