Auptured in Right Side. At an early age, Eugene Pullen was an express driver. He handled railroad baggage. One day after delivering a heavy trunk on ay up-per floor he feit a pain in the right groin. The suffering increased and it was not long before the young man noticed the swelling. The doctor told young Pullen that he was ruptured and that he must either wear a truss through-out life or submit to a drastic operation. All surgeons know that hernia operations, with anase-thetics, etc. are dangerous; they may end fatally. Moreover, it is 1 well established fact that many rupture operations are not success. rupture operations are not success-ful; the bowel soon breaks through the sewed-up opening and pro-trudes worse than ever.
