

MISSOURI VALLEY NET ENTHUSIASTS IN ASSOCIATION

Ralph Rainey of Omaha Member of Executive Committee—Tournament Awarded to Kansas City A. C.

St. Louis, March 19.—The Missouri Valley Tennis association, embracing clubs in Missouri, Iowa, Kansas and Nebraska, which are members of the United States Lawn Tennis association, was formed here. The new organization is intended to be the district representative of the national body in the Missouri valley, this depending on the endorsement of the national association.

James H. Cravens, Rockhill, A. C., Kansas City, was elected president; Carter H. Hull, Des Moines Golf and Country club, vice president; Dix Teacher, Kansas City A. C., secretary, and C. Drummond Jones, St. Louis Country club, treasurer. The executive committee will be composed of one representative from each of the larger cities in the association. Ralph Rainey, Omaha, president of the Omaha club, and Edward Isaacson,

Sioux City Tennis club, are the only members who have so far been chosen.

Lincoln Basket Ball Quintet Winner of Title in Colorado

Colorado Springs, March 19.—(Special Telegram.)—The Lincoln High school basket ball team won the interstate championship here when they defeated the Colorado Springs High school team by the score of 31 to 19. The victory was the second win for Lincoln here, the first game resulting in a score of 35 to 25. The playing was featured by the teamwork of the Lincoln quintet. Patterson of Colorado Springs scored 13 of the 19 points his team made. Following the game Lincoln was presented with the ball and a silver loving cup donated by Colorado Springs, which sponsored the tournament.

Griffith Signs Cuban. Tampa, Fla., March 19.—Torres, catcher of the Cuban Stars, the Havana team playing an exhibition series with the Washington Americans, has been signed by President Griffith of the Washington club.

What Do You Know?

(Here's a chance to make your wit worth money. Each day The Bee will publish a series of questions, prepared by Superintendent J. H. Beveridge of the public schools. They cover things which you should know. The first correct answer received from an Omaha reader of The Bee will be rewarded by \$1. The first from outside of Omaha will win the same. The answers and the names of the winners will be published on the day indicated below. Be sure to give your name and address in full. Address: Question Editor, Omaha Bee.)

By J. H. BEVERIDGE. 1. Who invented the lightning rod? 2. How did Astoria, Oregon, receive its name? 3. When was Philadelphia founded? 4. Who wrote The Star Spangled Banner? 5. Name the first signer of the Declaration of Independence. Answers Wednesday.

SCOTT TENTS IN 15TH PLACE AT A. B. C. TOURNEY

Peoria, Ill., March 19.—(Special Telegram.)—Scott Tents, Omaha, rolling second high on the initial squad with 2,805 landed in 15th place in the five-man team standing of the A. B. C. Tourney. The Horlicks of Racine went into third place with 2,923. The Scotts got away to a bad start. Splits and errors handicapped them considerably in the initial contest. But they came back strong in the second with a 1,032 total.

Omaha Bowlers Get Away To Bad Start—Rogers Rollers Fail to Get In Money.

The Rogers, rolling on the same shift, dropped 2,680 pins. William Rusch, Chicago, rolled into fourth place in the singles with a 676 total. His scores were 210, 219, 247. On the same squad E. Krescher, Chicago, drew seventh position in the individuals with a 669 total. He also went into second place in the all events with 1,863. His counts in the singles were 274, 200, 195, while his all-event total included 590 in the two-man, 669 in singles and 604 in the five-man.

E. Jensen, Racine, and J. Kreith, Chicago, with 642 and 641, respectively, failed to land among the high ten. In registering the 274 count Krescher opened with four straight strikes, spared in the fifth and then hung up six in a row. Omaha scores:

Henry F. Schulte Again Chosen as Foot Ball Coach at Nebraska U.

Lincoln, Neb., March 19.—Henry F. Schulte has been re-elected head football and track coach of the University of Nebraska with an increase in his salary of from \$3,500 to \$3,600 per year, while Paul J. Schussler has been re-employed as head basketball and base ball coach with a pay advance from \$2,000 to \$2,500 the university board of regents announced today.

Omaha Amateur Wrestlers Off for Gary Tournament

Two local amateur mat grapplers, Dave Nordstrom and Robert Ferguson, champions of the 175 and 158 pound class respectively, left last night for Gary Ind., where they will represent Omaha in the International wrestling championship tournament at that place Saturday night.

Every Y. M. C. A. in the country is represented in this meet, but nevertheless, Physical Director N. J. Weston of the local "Y" is confident that the two local mat artists will make a good showing and will no doubt bring back laurels.

Fairbury Has Team.

Fairbury, Neb., March 19.—(Special.)—Fairbury will have organized base ball this year. The team will be known as the "Rock Island" team. A fund of \$500 is being subscribed to purchase uniforms and other equipment.

Connie Mack Has Youngest Base Ball Team in Majors

If "Youth Must Be Served," the Phillies Have the Pennant Cinched—But Connie Doesn't Expect to Cop The Honors This Year. By JAMES CRUSINBERRY. Lake Charles, La., March 18.—(Special.)—There's an old-time saying that youth will be served. If that be absolutely true, the Philadelphia Athletics are destined to win the American league pennant this year, because Connie Mack has assembled the youngest ball team in the major leagues.

Connie Mack Has Youngest Base Ball Team in Majors

If "Youth Must Be Served," the Phillies Have the Pennant Cinched—But Connie Doesn't Expect to Cop The Honors This Year.

By JAMES CRUSINBERRY. Lake Charles, La., March 18.—(Special.)—There's an old-time saying that youth will be served. If that be absolutely true, the Philadelphia Athletics are destined to win the American league pennant this year, because Connie Mack has assembled the youngest ball team in the major leagues.

Maybe the old-time maxim doesn't apply to base ball. Evidently Connie Mack himself doesn't believe in it in this case, because Connie doesn't expect to win a pennant. However, the veteran leader of many champions of other days does expect to get out of the cellar position after having occupied it for five successive years.

Stars With Twenty-four Rookies. Down in his Lake Charles training camp, Mack started spring work with 33 players. Only nine of them have earned big league service stripes, the other 24 are kids. The youngest of them is only 18 years old. There are many right around the 20-year mark. They look like freshmen at a college athletic field.

The oldest man in the squad is Tilly Walker, who has turned 32. Amos Strunk is 30, Scott Perry is 28, Rolene Naylor is 27 and Burns is 26. Those fellows are classed as old men in this camp. The 18-year-old lad is Bob McCann, who actually played professional ball last year in the Virginia State league.

Has Tried Host of Lads. Connie Mack has tried out a host of young lads since he broke up his famous champions after the season of 1914 and set about the task of building a new team. No man in base ball has experimented with so many youngsters.

During the closing week of the 1919 season he had 45 players in uniform practicing every day, and 24 of them were pitchers. He had to dig to the bottom of the old trunks to get enough uniforms to equip the squad, and then some of them came forth wearing the old double deck caps of 1910.

In the years following the wrecking of the champions Mack has experienced great distress in handling his club. The few good players that he retained, and some more good ones whom he acquired, were always dissatisfied, because they didn't want to play on a tail-end outfit. They saw no chance to cut into a world's series purse and many

actually played listless ball just with the hope of being traded. Scott Perry Example. One example was Perry, who knew last year that any one of about five clubs in the pennant race would like to purchase him from the Athletics, and when Mack refused to sell him he quit the team and went to play with an independent club. Since then Perry has seen the folly of his ways and returned.

Because of all the trouble and distress he has experienced, Connie Mack has established a new rule in the handling of his club, which he believes will eradicate the evil. He declares to all of his players this spring that under no conditions would he sell or trade one of them. He made it known to them that their only chance to play big league base ball was to be good enough to stick with his team.

If they aren't good enough they will be released at the waiver price only, and if no one claims them they will go back to the minors or be released outright. Intent on Building Champions. Mack has employed this method as a means of self-defense. He wants them to stick. He wants to build up a team. They know now they will have to play ball for him, or perhaps not at all. There will be no more sales like those of Eddie Collins, Frank Baker, Chief Bender, Eddie Plank, Stuffy McInnis, Jack Barry, Joe Bush and Willie Schang.

For pitchers he has only three men of experience—Perry, Naylor and Kinney—the latter a southpaw who made good last year. Among the young fellows is a great prospect in Bryan Harris, six feet six inches high, and thinner than Rube Marquard. All he seemed to need was practice in fielding bunts, and he's had hours and hours of it daily in camp.

Ed Rommel, a corking pitcher for Newark last year, seems ready to equip the big leaguers. He got his early training at Baltimore as bat boy, finally getting a chance with the team on spring training. Before going to camp he met with an accident, burning his pitching arm badly, but he kept still about it, because he wanted a trial. He was sent back after a game effort, and soon the burns healed, and he got a chance with Newark.

Pat Martin, the left-hander purchased from Binghamton, appears to be a smart fellow, with enough stuff to stick. Lyle Bigbee, a right hander from Seattle, looks fine, and probably will make good. Charles Eckert, a semi-pro from Philadelphia, has made a good showing.

Know These Infielders? Mack will have a young infield. Ivy Griffin, 23 years old, from Atlanta, is choice for first base. Joe Dugan, with the Athletics three years and now only 22, is set for second. Clarence Galloway, 22, from Atlanta, is the strong candidate for short, and Frank Brazill, tried by Brooklyn last year and then sent to Hartford, where he hit .369, is the most likely man for third. He is just 20 years old.

Having another speedy kid for first base, Dick Burrus, from Columbia, S. C., Mack decided to send the veteran, George Burns, to right field. Strunk will be in center and "Whitey" Witt, who performed on the infield at one time, will be in left field. Walker will do the pinch hitting and utility work in the outer garden.

May Raise Prices. Chicago, March 19.—Athletic directors of the western conference universities met Friday to consider the advisability of raising prices to foot ball games and all other athletic contests. The advance was necessary, they said, because of the increased cost of athletic equipment and the high salaries paid to heads of athletic departments. Action was deferred.

Zbyszko Flops Linow. Chicago, March 19.—Stanislaus Zbyszko defeated Jack Linow in straight falls here last night. Zbyszko took the first fall in 1:15.47 and the second in 15 minutes 59 seconds.

Records at Los Angeles. Los Angeles, Cal., March 19.—(Special Telegram.)—Johnnie Lee, Omaha soldier boy, was a victim of a right uppercut in the second round of a boxing bout held here with Great Standing Elk (George Lampson) the Indian heavyweight Kid Graves is developing. Lee was floored three times in the second round, twice with right crosses and the third time was an uppercut that called for the count. Lampson had a decided advantage in the first round.

De Palma Shatters Speed Records at Los Angeles. Los Angeles, Cal., March 19.—Ralph De Palma, who Thursday broke all Los Angeles speedway records by traveling around the 1 1/4-mile track in 39 seconds flat, made another record by traversing the circuit in 38.45 seconds, or at a speed of 115.98 miles an hour.

The Shirt With Comfort Points. Small, neat gusset at hips prevents ripping. Another reason why you'll get lasting wear, as well as real comfort, from Beau Brummel Shirts. A REAL COMBINATION OF STYLE AND COMFORT.

Itching, Scratching Skin Diseases That Burn Like Flames of Fire. Here is a Sensible Treatment That Gets Prompt Results. For real downright, harassing discomfort your fewest disorders can approach so-called skin disorders, such as Eczema, Tetter, Boils, eruptions, scaly irritations and similar skin troubles, notwithstanding the lavish use of salves, lotions, washes and other treatments applied externally to the irritated parts.

No one ever heard of a person being afflicted with any form of skin disease whose blood was in good condition. Therefore, it is but logical to conclude that the proper method of treatment for pimples, blotches, sores, boils, rough, red and scaly skin is to purify the blood and remove the tiny germs of pollution that break through and manifest their presence on the surface of the skin.

People in all parts of the country have written us how they were completely rid of every trace of these disorders by the use of S. S. S., the matchless, purely vegetable blood cleanser. S. S. S. goes direct to the center of the blood supply, and strengthens and builds up the circulation, giving a clear and ruddy complexion that indicates a healthy condition of the skin. Write today for free medical advice regarding your case. Address Swift Specific Co., 165 Swift Laboratory, Atlanta, Ga.

Palace CLOTHING COMPANY COR. 14th & DOUGLAS. Our NEWLY REMODELED store affords a spacious, convenient place to make your suit selections.

For Boys and Girls

What Shall I Be? Answered for Boys. What Shall I Be? Answered for Girls.

Why Is a Civil Engineer? Because He's Not in the Army. By R. S. ALEXANDER. "Dad, why do they call a civil engineer a civil engineer? Is it because he is supposed to be polite?" "No, I'd hardly say that, Sonny. You see, originally the only engineers there were in the army. So when men outside the army began to take the same training and do the same work as the army engineers, they had to invent a new name for them. They called them civil engineers—that is civilians who did the same sort of work as the army engineers did."

"What sort of work was that?" "Well, they built bridges, laid out camps, built forts, did surveying, etc. They still do work along the same lines. Now there are several main divisions of civil engineering. Structural engineering takes in all sorts of building with steel, timber, stone and concrete. Railway and highway engineering takes in all sorts of work in keeping up the roadbed of railroads, laying out and building new lines, repairing roads and making new ones.

"Hydraulic engineering takes in all sorts of engineering operations which deal with water, such as city water plants, reservoirs, sewage systems, irrigation systems and canals."

"What sort of a fellow should a civil engineer be?" "He should like mathematics first of all. He should be ingenious and resourceful and he should have lots of good common sense. If you are not clever at working things out for yourself, don't try to become a civil engineer."

"You will need more than these things, however, to get you anywhere. You need some very costly training. You should have your high school course. Then you should have a four-year course in a good technical school. Some of the money for this course you can make for yourself. Most of the big schools have employment bureaus which help students to get part time jobs while they are going to school. Then you can earn some money during vacation."

"If you want to find out more about it, write to the registrar of one of the big technical schools or to the secretary of the American Society of Civil Engineers, 33 West Twenty-ninth street, New York City."

(Monday—Learn how to use tests.) Dr. Secor, Dentist—1st Nat. Bk. Bldg.—Adv.

What Shall I Be? Answered for Boys. Poultry Business Takes Brains—Just Like Others. By CAROLINE M. WEIRICH. "I've learned a lot, mother, from that correspondence course on poultry raising. I'm wondering if you could spare me for a few weeks' study at the university," said Esther thoughtfully.

"Go ahead, daughter. Make your plans. 'I'll tell you what they are. I think the girl who would really be a success as a poultry raiser should start out as assistant on a poultry farm. Next, she should take a course in poultry raising at an agricultural college. After that, she can keep in touch with the latest information by sending for the free reports of the Department of Agriculture, Washington, D. C., and by reading the poultry magazines."

"We have a good sized plot of land, just the thing. This will give free range to the chickens; and we can raise green things to cut down the food bill for feed costs like everything."

"How many chickens will you have?" "I'll start with a few and increase gradually until we have about 200 hens. All the experts say it's a business one must learn slowly."

"Two hundred hens?" "Yes, that many. How would you like to raise 3,000 yearly? That's what the big poultry raisers handle. They say the little plant of 200 to 300 is very simple in comparison to the large one which demands wide experience, considerable capital, and a ready market."
