Average Daily Sales Of Municipal Milk About 400 Quarts

Municipal milk stations in the fire houses at Twenty-first and Lake streets, Fortieth and Hamilton streets and Eleventh and Dorcas streets, are averaging daily sales of 400 quarts of milk, according to John Frasseur, manager of the Midwest Milk Producers' Co-operative association, with which the city officials and Metropolitan water board are co-operating in reducing the high cost of milk and cream.

Arrangements are being made to open several more municipal milk stations in fire houses.

"We are now selling about 4,000 quarts of milk a day, including that which is sold at wholesale at the plant," said Mr. Frasseur. "We wish to discredit reports that our milk is obtained from dairies and farms which certain local dairy companies would not patronize. Our milk is all tested and pasteurized, and our sales are increasing every day."

Municipal milk is being sold at 12 cents a quart.

Alkali in Soap Bad for the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it. The best thing for steady use is Mulsified coconut oil shampoo (which is pure and greaseless) and is better than anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mulsified coconut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

Hairs Quickly Vanish After This Treatment

(Helps to Beauty) Science has aided in simplifying the banishing of hairy growth from the face, and, according to a beauty specialist, the most effective treatment yet devised consists of applying a delicate paste to the hairy surface for 2 or 3 minutes.
