BRYAN TO FIGHT HITCHCOCK AT SAN FRANCISCO

Will Not Vote for Omahan for President Regardless of Preference of People.

Lincoln, Neb., March 26.—(Special Telegram)—In a bitter arraignment of Senator G. M. Hitchcock, W. J. Bryan today launched his campaign for delegate-at-large to the democratic national convention. His opening speech was made at Elmwood in the afternoon and at Lincoln, where he spoke to the women democrats, in the evening.

Referring to the presidential candidacy of Senator Hitchcock he declared that under no circumstances would he vote for Mr. Hitchcock, even if the voters of Nebraska so expressed their preference, if necessary he declared he would step aside and let his alternate do the voting.

He said he regretted he was compelled to withhold his support from any Nebraska democrat, who aspired to the office, "but to support Mr. Hitchcock, I would have to ignore the welfare of the democratic party, as well as repudiate my own course."

Explains Edwards Move. Mr. Bryan said Governor Edwards of New Jersey was at one time an aspirant for the democratic nomination for president, and his name was entered on the Nebraska primary ballot, but it was withdrawn because the New Jersey executive "did not want to endanger Senator Hitchcock's chances by dividing the wet vote of the state."

Mr. Bryan said the program of the liquor element in the party was to adopt a noncommittal platform and nominate a noncommittal candidate at San Francisco.

Mr. Bryan declared that the Nebraska senator was not a democrat and had not supported the platform of a Nebraska senator was not a democrat party.

Tells of Achievements. A large part of his speech was devoted to telling of his own achievements and of the part he played in

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and assist in the work of the liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

If frequent shaving irritates your skin use

Resinol

Perhaps the daily shave makes you sensitive skin burn and smart, or it may cause a rash which is uncomfortable and embarrassing. RESINOL OINTMENT helps greatly to relieve and clear away such ailments, but RESINOL SHAVING STICK tends to prevent them entirely. Its rich, generous, non-drying lather makes shaving a pleasure because no after-shaving lotions are necessary, and the face is left smooth, cool and soft. Resinol products at all druggists.

REGULATION OF PACKERS URGED BY OMAHA MAN

E. L. Burke of American Live Stock Association Testifies Before Congressional Committee.

By E. C. SNYDER.

Washington Correspondent Omaha Bee. Washington, March 26.—(Special Telegram)—E. L. Burke of Omaha, vice president of the American Live Stock association, testifying today before the house committee on agriculture in favor of regulatory legislation of the packing industry, said that his association for more than five years has been constantly endeavoring to obtain remedial legislation of the meat industry.

He laid down the general principle that such legislation should endeavor to obtain the fairest possible prices to the consumer consistent with fair returns to producers, man by monopoly take away from the

Offers Four Tests. In discussing the Anderson and Gronna bills, he said it was his judgment that the committee should see that they measured up to a number of tests of sound legislation among which were the following: First: Are there any agencies left out of the bills that should be included? In answering his own question, Mr. Burke stated that he believed the legislation should include the regulation of traders and speculators and produced figures to show that approximately 50 per cent of all the cattle produced in the country went through the hands of the traders.

Should Remove Conflicts. Second: Are the instrumentalities of monopoly taken away from the five big packers and facilities equally furnished to all competitors? Third: Do the agencies provided in the bills interfere with any existing governmental agencies. In this connection Mr. Burke remarked that he thought some of the duties assigned to the live stock commission conflicted with the existing duties of the federal trade commission, the bureau of markets and the bureau of animal industry, and that such conflicts should be removed from the bills.

Would Encourage Industry. Fourth: Is the established business of the packers unnecessarily interfered with in the proposed legislation? The witness thought it was not, and that the legislation would encourage and stimulate the live stock industry rather than handicap it.

In speaking of the consent decree entered into between the attorney general and the packers, Mr. Burke offered the opinion that the decree, like others of a similar kind, resembled the month of March, which "came in like a lion and would probably go out like a lamb."

The attorney general started out with intentions and ended with intentions only.

Keeps the Straightest, Unruliest Hair in Curl. You've never seen anything work such wonders for straight, lank, unruly hair as plain liquid silmerine. Nothing else will keep the hair in curl for so long a time—nor produce such beautifully lustrous, natural-looking curls and waves. Damp or windy weather has no terrors for the woman who uses it. And no one need hesitate to use it, for it is so easily applied with a brush and is so perfectly harmless. It leaves no greasy, sticky or streaky trace. The curliness can be acquired in three hours, though many prefer to apply the liquid at bedtime. When the hair is combed out it is delightfully soft and fluffy.

Anyone who will get a bottle of liquid silmerine from the druggist and follow the accompanying directions will have a most agreeable surprise. The liquid is also valued as a splendid dressing for the hair.
