ASTHMA WOULDN'T LET HIM LIE DOWN
Haas' had a sign of trouble now for over 9 months.

"A year ago I had asthma so bad my friends thought I would never get over it. I had doctor for a long time without results. I had not been in bed for 3 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could go to bed and sleep soundly. After taking eight bottles (\$4 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion, and I haven't had a symptom of asthma since."—Geo. W. Baker, R. F. D. 1, Latrobe, Pa.

Why shouldn't Milks Emulsion help you? It has worked wonders for others. It costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day. This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee: Take six bottles home with you, use it according to directions and if not satisfied with the results your money will be promptly refunded. Price \$6.00 and \$12.00 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

"STRANGE HOW WOMEN SUFFER"
Says Tennessee Lady, and Will Just Go Suffering, She Says, When Cardui Is Right at Hand.

Caryville, Tenn.—Hoping her experience may benefit others who suffers from disorders common among women, Mrs. Charles Rains, of this (Campbell) county says: "I had womanly troubles till I couldn't rest, couldn't sleep, and was nervous and suffered a great deal of pain in my head, limbs and back. I would get out of the place where I couldn't move without a great effort. For years I had known of Cardui, and it is strange how a woman will just go on suffering when the best remedy in the world is right at hand—but we do! "But finally the pain was worse, my suffering so great I knew I must do something. A friend mentioned Cardui and we sent for it. One bottle helped me. "I took a course of Cardui, regained my strength, built myself up and felt like a new woman. "Can I recommend Cardui? Yes, and gladly, for it is a God-send to suffering women. I hope when they suffer with troubles common to women they don't wait, but get this sure remedy at once." Any druggist can supply Cardui promptly. Call on yours today.

DEMAND FOR IMPLEMENTS ON FARMS GROWING Manufacturers, Jobbers and Farmers Combine Efforts To Prevent Shortage From Becoming Serious.

With an actual shortage of farm implements existing, manufacturers, jobbers and farmers are combining their efforts to make sure that farm production for 1920 does not suffer thereby, and is adequate to meet the demands of the country. Increased demand for farm implements on one hand and a shortage of material and labor on the other are the causes given for the lack of implements at this time. Opening of new lands, replacement of old implements, many of which have served the past two seasons in conditions that warranted their replacement, and an increasing tendency of farmers to motorize their equipment, are the reasons for the growth in the demand. A post-war expansion of all industries which keeps the materials markets bare, is given as the chief cause embarrassing manufacturers. There will be facilities for the planting of extensive acreage this year, factory representatives and farmers agree, the first assuring a large supply of tools as possible, and the farmers promising to make the old implements do when new ones cannot be had. Harvesting implements will also be available, in quantities to replace those absolutely unfit for use this year, dealers believe.

Hope to Meet Needs. By concentrating on "seasonable" production, manufacturers are seeking to keep the supply as near demand as possible. By that is meant a centralization of equipment and effort on implements before the season for their demand arrives, in order that plows may be ready for delivery in the spring, planting machines in the early summer, and harvesting implements later in the year. Through this method manufacturers hope to meet actual needs. According to F. J. Farrington, manager of the John Deere Plow Co. of Omaha, implement distribution houses are taking every step to insure a equitable distribution of machines to local dealers, by dividing the available implements throughout their territory. As he explained the situation, implement men are doing a "hand-to-mouth" business with their lines, and are prorating what they receive from factories, among the local dealers in the country. All orders filled are held down to the actual requirements of the district for which they are intended, he said, and no reserve stocks are allowed to accumulate, either in jobbing houses or with retail dealers. Demand for Tractors. There is no sign of relief from the situation during the year, in Mr. Farrington's belief. The forced machinery, careful distribution and economy on the part of farmers, will remain effective until the material market becomes better and sufficient labor is available. One of the outstanding developments of the implement business this year, he reported, is the demand for tractors and tractor-drawn implements. H. F. McIntosh, manager of the Chamber of Commerce agriculture bureau, a retired farmer, predicted that in spite of a shortage of new implements the season's production will be ample. He pointed out that there may be a decrease in acreage as many farmers intend to restore pasture land put to crops the last two years. Those who cannot secure new machinery will make shift to till their land and harvest their crops with the old, he believes.

Census of American Samoa. Washington, March 26.—The population of American Samoa was 8,196, an increase of 945, or 13 per cent over 1912, the census bureau announce today.

Over The Political Fence

W. J. Bryan will speak tonight in the City Auditorium, under the auspices of the "Independent democratic committee," otherwise known as the "dry democrats." Harland L. Mossman will preside.

Another interesting democratic situation has been created by the entrance of John H. Morehead, former governor, into the gubernatorial race, after his announcement that he would not get into the running. This situation is further complicated by the fact that Ralph Clark, another candidate, is from Richardson county, where Mr. Morehead abides. Democrats hereabouts aver that Clark will receive the support of the democratic machine organization and it also asserted that Morehead is going to cut loose and create a little political thunder of his own.

There is a long distance call for "Hot Shot Murphy," whose literary contributions to political history engendered a recent campaign along this battle-front.

Don't forget to register or to revise your registration, whichever may be necessary. The election commissioner's office in the court house will be open tonight until 9.

An instance of Damon and Pythias in politics occurred in Omaha this week when William I. Kierstead withdrew as republican candidate for county commissioner in the Third district, in favor of T. F. Stroud. Mr. Kierstead issued the following statement to the voters of the Third commissioner district: "In withdrawing as a candidate for county commissioner I do so believing it to be in the best interests of Douglas county. "Mr. T. F. Stroud, who is also a candidate, is a very close friend of mine, and it would be suicidal for both to stay on the ticket as it might elect some other candidate who would not be as competent for the position as Mr. Stroud. "Mr. Stroud has been a manufacturer of road machinery for a number of years, has large property interests in the county and would make an ideal county commissioner, probably having better knowledge

Pioneer Omaha Dentist to Move to Sheridan, Wyo. Dr. S. R. Patton, pioneer Omaha dentist, has sold his home at 1801 Locust street, and with his wife, will move to Sheridan, Wyo., where they will make their home with their daughter, Mrs. W. L. Phillips. Dr. Patton has resided in Omaha since 1887, and in the state of Nebraska since 1883.

Mother! Teach the Children Their Daily Health Duty You can't be too insistent!

FEW children find pleasure in the things most vital to their physical comfort and health, so it rests with the watchful mother to see that they are done. The child will be grateful in after years. Chief among the functions necessary to the upbuilding of the little body, so that it will not be a dyspeptic, constipated body when it matures, is elimination regularly every morning. If the mother will be insistent and allow nothing to interfere with it, it will soon become a habit, a daily routine that will not be forgotten throughout life. There are times, however, when nature will not operate unaided. Then give Dr. Caldwell's Syrup Pepsin, which is a combination of simple laxative herbs with pepsin, and the headaches, the biliousness, the torpor will quickly disappear. It acts gently and without griping, and as it contains no narcotics and is pleasant to the taste, it may be given to infants. Thousands of families have been regulated to healthy maturity with Dr. Caldwell's Syrup Pepsin. A bottle can be bought at any drug store. In a large family there is always someone who would feel better for a dose of a good medicine like Dr. Caldwell's Syrup Pepsin. In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington Street, Monticello, Illinois.

School Shoes

School-boys are hard on their shoes; into every pair of Fry shoes for boys is built honest leather that will stand up under all conditions of weather and usage. They wear—and wear well. We have them in all styles and sizes, like dad's, with real "get-up and go." Bring the boys in today. FRY SHOE CO. 16th and Douglas.

Body Building Tonic Holds Vast Store of Food Value

Scientists Prove Father John's Medicine Is Five Times More Nourishing Than Many Common Foods We Eat. That Father John's Medicine contains a vast store of food value and strength-building, energy-producing elements is established by recent scientific tests. This rich nourishment is in a form which is more easily taken up by the system than the common foods we eat and has many times greater food value. When a scientist states the food value of any product, he does so in terms of "calories," which he defines as the amount of heat used to raise the temperature of one grain of water one degree. A teaspoonful of Father John's Medicine contains 25,715.76 calories. The same quantity of steak contains only 10,714 calories. By these tests also it was proven that Father John's Medicine is five times more nourishing than an equal quantity of oysters and almost six times more nourishing than pure milk. Because it supplies this nourishment which you do not obtain from your food and supplies it in the form which the system most easily takes up and turns into tissue, muscle, flesh and strength, Father John's Medicine has had more than sixty years of success as a food tonic for those who are weak and run down. It is guaranteed that Father John's Medicine positively does not contain any alcohol or any dangerous, habit-forming drugs or opiates. It is a pure and wholesome, nourishing tonic food—a doctor's prescription, not a patent medicine. Begin taking it today.

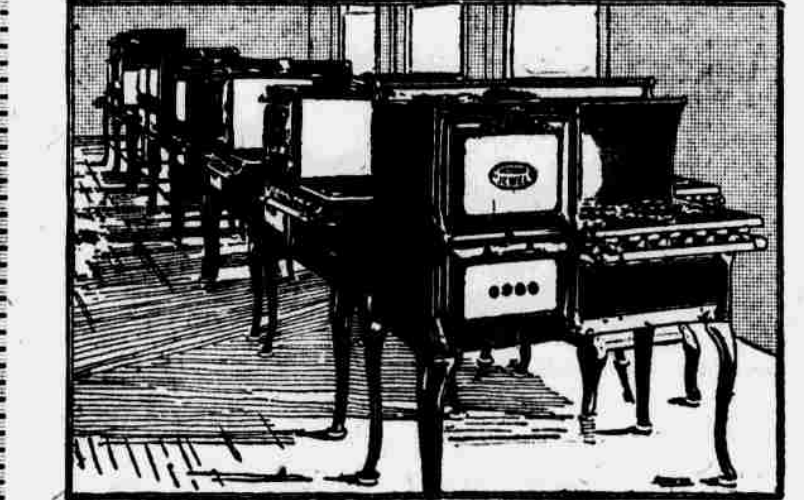

Brief City News

Notice to Auto Owners—The county treasurer's office will remain open this afternoon and Monday night for the accommodation of automobile owners, who are required to purchase their 1920 licenses by April 1. Women Open Headquarters—The Douglas county democratic women's committee has opened headquarters on the mezzanine floor of the Fontenelle with Mrs. W. E. Bolin in charge. This committee announces a political, educational tea and program April 5 at the Fontenelle, to which all women are invited. Babies Given Away—An unusual proceeding for the Volunteers of America will take place Sunday evening when Major F. A. McCormick is expected to give away seven babies. This is the first time that the major has been called to perform such a function. The public is generally invited. Dr. Bunce Funeral—Funeral services for the late Dr. Arthur C. Bunce, who died Thursday after an illness of eight years, will be held at the Masonic temple at 2 p. m. Saturday.
