HARD IN U. S.

Wish to Establish Dictatorship Of the Proletariat in Country. According to Authoritative Information Received.

FINANCIAL PANIC EAGERLY AWAITED

Detroit Principal Center of Radicalism — Cleveland Is Second — Organizations Assume Variety of Aliases.

New York, March 27 .- Efforts of the radicals, working in harmony, but under different names, to pre-cipitate a revolution and establish the dictatorship of the proletariat in the United States are being redoubled this spring, according to information received at headquarters of the National Committee of United Americans. While the reds were disappointed by the steel strike fiasco, advertised as the beginning of the revolution, they nevertheless are so encouraged by the trend of events that they are confident they can effect the revolution not later than 1922.

Next time the start is to be made in New York City instead of in the central west, because the reds figure that the metropolis can be starved into submission by a general strike

in four days.

Meanwhile the reds count on a financial panic within the next few weeks to help their cause along. A panic would cause distress among the working men and thus render them more susceptible to revolutionary doctrines.

Detroit Principal Center.

Detroit has become the principal States, according to the information received by the National Committee of United Americans. There are no fewer than 83 radical organizations in the Michigan metropolis, and they

are all extremely active.

Cleveland ranks second as a radical center, followed by New York and Chicago, though all the larger cities have large and active radical

FOR REVOLT Education Before Attending West Point Largely in CAMPA Farm-Small Town University-Outcome of Primaries in South Dakota and Minnesota Helps His Chances for Nomination.

By E. C. SNYDER.

Washington, March 27.—(Special Telegram.)—Now that South Dakota has indicated that the bugaboo of a military man for president is chimerical and does not exist in ple. South Dakota having shown its preference for General Wood, the only military candidate on the primary ticket, the one big outstanding thought in connection with the primaries in Nebraska is what is that state going to do for General Pershing, its favorite son.

General Pershing is being more seriously considered in the last week than ever before, because of the result in South Dakota and Minnesota. They say, and without in any wise disparaging General Wood's qualifi-cations, that if a military man is go-ing to be selected at Chicago in June, why not a military man who has made an imperishable record for himself and his country, not only on the fields of France and Flanders. Those who have known Pershing well as a splendid soldier have sometimes wondered why he was so different in his general characteristics, in his view of things and in his general line of thought from the ordi-nary West Pointer, the ordinary military man. The answer is easily

Plea Made for Funds to Wage Dry Campaign in Nebraska -Boasts of His Ability to Sway the Political World.

W. J. Bryan, candidate for delegate-at-large to the democratic convention, spoke last night in the Auditorium to an audience which was not comparable to gatherings which have greeted him on former occasions in this building.

The meeting, which had been well advertised in the press, in the schools and also by the distribution of 25,000 circulars throughout the city, was attended by less than 1,600 people. Several estimated the crowd at 1,500.

Mr. Bryan vented his displeasure impassionately upon Senator Hitch-cock, Arthur F. Mullen, democratic national committeeman; Harvey Newbranch, Maj. Gen. Leonard Wood, Senator Borah, republican party, profiteers, private monopolies, liquor interests, Wall street and the middlemen.
