LIQUOR AUTOS ARE SUBJECT TO CONFISCATION

Judge Holds Cars Used for Illegal Transportation to Be Just as Guilty as Owners.

Lincoln, March 27.—(Special.)—Any automobile carrying contraband liquor is just as guilty under the law as the man who is arrested while the car and contents are in his possession, and is subject to confiscation and sale under the law.

This, in effect, is the judgment of the supreme court in an opinion handed down affirming the judgment of the Richardson county court in a case in which the Robinson Cadillac Motor Car company sued to recover an automobile seized April 29, 1919, by the sheriff of Richardson county while F. L. Wilson, its owner, was unlawfully transporting liquor into Richardson county.

Injunction Against Sale. Wilson was convicted and when the sheriff attempted to sell the car under the prohibitory act, the Cadillac company obtained an injunction to restrain the sale of the car. The contention of the plaintiff was that they had a first mortgage on the car for \$1,100, that the mortgage was recorded in Buchanan county, Mo., and that at the time the car was confiscated the company had no knowledge of the illegal acts of the owner and that the car was removed to Nebraska without the knowledge of the plaintiff.

The main contention of the plaintiff was that the car was being taken "without compensation and without due process of law" and that the act was therefore unconstitutional.

Divorce Overruled By Supreme Court as Given Wrong Party

Lincoln, March 27.—(Special.)—The supreme court reversed the action of the Cass county district court, which gave William H. Betts of Plattsmouth a divorce from his wife, Lena Betts.

The high court holds that the divorce should not have been granted to the husband, but instead holds that the wife on her cross petition was entitled to the decree. Before proceedings were started the two agreed upon a settlement, but when the wife went into court she asked that this be set aside and the court make the distribution of property.

The trouble came from the allegation during the war that Mrs. Betts was disloyal. She was the daughter of a criminal. Their house was painted yellow, the parties committing the act stating that the painting did not show an ill feeling against the husband, but was intended for his wife. The wife charged immoral conduct on the part of Mr. Betts and he had admitted it.

Fremont, Neb., March 27.—(Special.)—Fifteen five-reel feature movies, approved by Superintendent of Schools Waterhouse, will be offered patrons of the public schools here for 60 cents, if plans of the board of education are approved at a parents' referendum.

The high school has been using motion pictures as a part of its educational program since last fall. The movies have proved so popular with the pupils that a chance is to be given the parents to see them. The school board proposes to add weekly news films and screen dramas showing the principal stars—and guarantee there will be no sex problems, saloon scenes or other objectionable features shown.

The purpose simply is to furnish entertainment good for school folks to see," says Superintendent Waterhouse.

Hats of Temperament and Originality

"—for this year, hats must shine"

Hats that have distinction of line and the rare color sense that make for success.

One's eye catches among the season's hats the glitter of cellophane, the dull sheen of satin cre and the gleam of patent leather, for this year's hats must shine, whatever else they accomplish.

Tailored hats mimic the swathed turban of the east, or draped Renaissance beret.

The woman who wears one of these newly created hats typically French in inspiration may gaze serenely out at the world through the most diminutive of lace curtains. This alluring curtain effect is obtained by beautiful black lace extending around the entire creation and falling provocatively over the brim.

New Children's Hats. The bashful, demure little miss should wear a tiny drooping mushroom shaped hat, while the saucy tot invariably looks best in the sailor with upturned brim.
