

MRS. MARY E. ROACH of Lynchburg, Va

"At the time I began taking Tanlac," explained Mrs. Roach, "I had rheumatism and other troubles for nine years and could find nothing to help me. If I ventured to eat theater that Hall has played anything the least bit heavy I would bloat up with sour gas and almost smother. My heart would palpitate most popular presidential candidate frightfully and when these spells in the field. came on me I was so dizzy and weak housework. I was badly constipated and hardly ever free of headache. I fingers and especially in cloudy, rainy or snowy weather my pain was almost unbearable. My kidneys and liver were out of order and I had the worst kind of pains in my back, legs and shoulders. I had no appetite and what little I did eat seemed to do me more harm than good, as I always suffered afterwards and had become so run-down, weak and miserable that I sometimes felt like life was hardly worth

"One day I read a testimonial for Tanlac that seemed so sincere that decided to see if the medicine Congress Is Weeding would help me. Well, the first bottle did me so much good that I got another, then another and so on until my troubles all disappeared. As I said, that was three years ago, and I have been able to keep myself in good health ever since by taking a few doses of Tanlac now and then as I feel the need of it. Tanlac has built me up and given me strength and energy so that my housework is easy for me. It makes kets. life worth living, for it keeps me digest my food properly, and, by relieving me of all suffering and praise Tanlac.

#### Rupture Kills 7,000 Annually

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been increly taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing wall—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited to make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.

His project, the most startlin ver conceived and publicly advo cated by an eminent scientist, in cludes the creation of a "voluntar maternity corps" to be composed of girls willing to bear the pangs of notherhood in order to present chi Iren to the state.

Make Own Choice. With a view to obtaining a "per fect race," Professor Carnot pro poses that girl volunteers be per nitted to choose the men they desir s fathers of their children, and that o man be allowed to reject such of ers, but must accept all.

The plan provides for state sup port for the girls for a specified eriod before and after confinemen while the children are to be brough ip at the expense of the state. The project, while meeting wit
