Justice sometimes goes wrong. Men are often punished for crimes they do not commit. And when we thoughtlessly take purgatives and cathartics to relieve stagnant bowels, we are committing a similar injustice.

When the system is unable to remove food waste at regular intervals, it is the food waste, and not the system, that needs correction.

Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system. By this entirely new principle Nujol will keep the poisonous waste moving out of the body.
