

Zeal in Athletics and Display Of Individuality Won Respect of People for Don Alfonso.

Madrid, Spain. - Alfonso of Spain is a human king. This is contrary to precedent, for the kings of Spain are expected to be mere soulless automats. The secret pride of English woman, tor she has that, every Spaniard is that his country at least that is to say, 7,000,000 of is at least 200 years behind the times in everything outside the world of business. When Alfonso came to the throne he found a conservative court that was so far behind the age that it was almost perified.

It is hard to enjoy life in the middle of a perpetual funeral. Alfonso dustrial world, and not to be intiset to work and revolutionized the midated by the many radical forces court. He declared firmly that he directed against industry today. was capable of putting on his own lothes and abolished the office of Worse followed. He smoked cigar- gle the English women have had ets at breakfast, and the Grandee of the Table retired a broken man to collect majolica in Minorca. People were scandalized, but Al-

fonso made his point. He could be dignified and regal whenever it was needed, but he had a right to a ceroff duty he was going to enjoy him-

Rather a Good Sort.

new and powerful understanding of The news spread through Spain, each other. Class distinctions and They also discovered that the king lves. heir way he would have had to play is afternoon game of tennis in his

ield marshal's uniform. Alfonso being an excellent tennis laver, a fine swordsman and an exraordinarily keen shot, he appealed o the people. The Spaniards are a sport-loving nation, and the cer ainty that the young king could mock spots off most of their young randees gave them sheer delight. They foresaw a return of the days of chivalry, when the kings were puissant knights.

An Automobile Racer.

The practical side of the king's ature next made a deep impression. spain is not essentially an industrial country, but her engineering work is very fine. Alfonso is keenly interested in what may be called the engineering side of sport-motoring aviation. His exploits as a high speed motorist are famous. He was once told by the Hispano-Sulza Motor company that any time he liked to give up being a king they had a job for him as a racing driver. The real charm of the man lies

The picture prople for the most part had a singular author. Time after time an author parted with the picture rights in all good humor, only to learn that an autocratic director differed with him as to the manner in which the story should be treated. All directors believe firmly in the virtues of a happy ending. It is thought to

Another fine is an historic instance of one au- specimen, an eight-prong buck, also thor who wound up \$40,000 out of was brought in, the combined weight pocket. He does not know precisely being over 500 pounds. how.

But the combination of big stars was followed by a combination of little stars, and so producers were set a-thinking. It was obvious that authors could not combine of themselves, first because authors could never agree, and secondly because there is no form of organization copious enough to take in all who write for the pictures. But pro-

ducers might combine groups of authors. That has been done.

that the story is important, almost, as the star. In this they are following the example of the legitimate stage. Not many years ago emphasis was placed upon the name of the in theatrical advertising. Tostar day far more is placed upon the excellence of the story. One of the most successful of the picture magnates holds that the star is becom-
