

FIRST SHIPLOAD OF AMERICANS IN POLE ARMY SAILS

Many Chicagoans and Other Middle Western Men Who Have Been On Duty Return Home.

By THOMAS STEWART RYAN. New York Times-Chicago Tribune Cable. Copyright, 1920.

Warsaw, March 28.—(Via Berlin, April 3.)—The first ship repatriating Americans in the Polish army has sailed with longings, eye-watching for its return.

General Haller's recruits from America seem to have cause for "grouching." They enlisted in 1917. They were caught up by that wave of enthusiasm for France and subject races in the east.

But on arriving in France, these Americans met their first disillusionment, they say when pay became irregular or uncertain.

This wish ran through every regiment. But Poland called them to fight on its soil.

Now the franc at present is worth 11.40 Polish marks, but the men were paid at all at the rate of 2.50 marks to the franc.

One man, 41 years old, who came from Chicago, arrived in Warsaw in a pitiable state of starvation. He was so weak from hunger he walked with a cane.

RUSSIAN SOVIET IS INEVITABLE, SAYS BRITISHER

Sir John Fraser, in Omaha, Believes Government Should Be Recognized.

"The great powers of the world will eventually have to recognize the soviet government in Russia, regardless of their likes or dislikes. This is the statement of Sir John Fraser, noted English lecturer and author, who arrived in Omaha yesterday to address members of the Omaha Society of Fine Arts at its afternoon meeting in the Hotel Fontenelle on 'A Diplomat at Large.'

Mr. Fraser is somewhat rotund, and of ruddy complexion—a typical Britisher of the much cartooned type. He reclined in his chair at the Hotel Fontenelle this morning and related experiences of his trips to 30 different countries, and of his bicycle trip around the world.

"The establishment of a soviet government in Russia is inevitable, in my opinion," he said, "and such a government should be recognized, although it should not be approved. Recognition should be made on the condition that civil war in Russia cease at once, and this would give the Russian people a chance to formulate some better form of government."

"Sovietism is the cruelest form of autocratic rule in the world, and the Russian people, who are naturally democratic, will soon put an end to it after they have had a chance to see things from the proper perspective."

Demands the "Sir."

Mr. Fraser scoffed at rumors that England might take steps to repudiate debts to the United States. No such thing has ever been mentioned by a British statesman, he said, and if Great Britain should take such action it would naturally expect nations indebted to her to take the same action.

Europe is rapidly regaining its industrial life, he said, and all war debts will be paid.

During the war, Mr. Fraser was chairman of the National War Lectures committee of England, and for his services in this capacity he was knighted by King George V. He insists on being addressed with the prefix "sir."

Among his books are: "The Real Siberia," "Red Russia," and "Russia of Today."

TO SUCCEED you must have good teeth. Make it a rule to see Dr. Todd twice a year to inspect your teeth; so they will receive every care and attention. This will lead you to success.

DESTRUCTION OF OLD SURFACE CARS IN NEW YORK CAUSES PROTEST

The destruction of hundreds of unfit surface cars by the New York City Railways company has aroused a storm of protest by civic societies in the city. The societies maintain that the cars would have done much to relieve the housing situation in the city. With the approach of summer they could have served as bench bungalows for the city's homeless. It is probable that hundreds of the old cars which were not destroyed will be put to the use suggested by the civic societies.

Abandoned Street cars make bonfire.

HOOVER NOT TO MAKE ACTIVE DRIVE FOR JOB

Deprecates Suggestions of Independents That His Name Be Placed Before Any Other Than Republicans.

New York, April 3.—Herbert Hoover, who has announced he is ready to accept the republican presidential nomination if it is demanded of him, issued a statement today in which he requested he be not further embarrassed by suggestions of some independents that his name be placed before any other party, as "a primary sense of team work in any party organization would preclude such a possibility."

Mr. Hoover said in his statement he had no great record of partisan activity and "admitted" that his political activity was confined to membership in a prominent republican club and allegiance to the party over a period of years. He added that, because of his profession of a mining engineer, continual shift of residence had prevented him from exercising as much as he desired the privilege of every citizen at the polls.

Asserting that his administrative duties in various relief organizations would prevent him from making a personal canvass for the nomination, Mr. Hoover said he expected Hoover organizations throughout the country would have to expend certain amounts for printing and other expenses, but that he hoped they would confine themselves to minor subscriptions and expenditures and would be prepared to open their books to public inspection.
