COMMITTEE MAJORITY REPORTS RESOLUTION

Resolution Will Be Taken Un For Debate Thursday, Under Special Rule Providing for Nine Hours' Discussion.

Washington, April 6.-The mac tee on foreign relations, recome mending adoption of the resolution declaring the state of war with Geramany at an end was introduced today by Chairman Porter, accompanied by a special rule providing for nine hours debate, under which it will be taken up in the house on Thursday. The minority report prepared by Representative Flood of Virginia, ranking democratic member of the committee will be introduced tomorrow.

There was some debate in the house today on the peace matter during which it was indicated that the democrats would vote almost solidly against the resolution.

Representative Venable, democrat of Mississippi, attacked the constitutional power of congress to take each action, characterizing it as an attempted usurpation of the treaty making functions, while, Representative Mondell, republican eader, asserted that as congress had the power to create a condition of war, it had the power to end it.

Cite Several Authorities.

The majority report cited a number of authorities on international law to support the committee's con-tention that there were three methods of determination belligerent status-by treaty; by conquest and subjugation of one combatant, or "by the mere cessation of hos-tilities so long continued that it is evident that there is no intention

of resuming them." "It has become the plain duty of congress to declare, the admitted fact, that the war with Germany

was ended." the report said. "There has been," it continued, "a complete suspension of hostilities on both sides without any intention of resuming them.
