

NEEDY DAYS WILL FOLLOW PRESENT TIME OF PLENTY

President, in Opening Address to Conference of Latter Day Saints, Inveighs Against Present Conditions.

Independence, Mo., April 8.—(Special.)—President Frederick Madison Smith in his opening address to the conference of the Reorganized Latter Day Saints church here today, reviewed with considerable analysis the unrest of this "war-weary" and "toil-weary" world.

"Living without labor is a false idea, whose prevalence in the world is a large factor in the deplorable conditions which are extant," said President Smith. "Every man who retires from the laboring classes, adds to the burden of those who remain in it. Ceaseless toil for the mere privilege of existence is bringing not only weariness to the world but desperation. Class distinction is bringing about class hatred, and into that hatred is being distilled the poison of revenge. And thus are we moving on to the inevitable clash between labor and capital!"

Needy Days on Horizon.

President Smith believes that reckless extravagance upon the part of those who are finding their pockets well supplied with money during these days of high wages will but pave the way to an inevitable day of want and desperate need. High prices, small production due to short hours and unreasonable demands on the part of organized labor, with smoldering hatred in the hearts of the oppressed, point to a general upheaval in the near future, he said.

"We are going it blind," cried the president, "blind—socially, economically, politically, and—I might also infer—ecclesiastically. To the alert eye, there are, in almost every organization, not only the seeds but the well-sprouted propaganda of disloyalty. It permeates the ranks of almost every organized body today and the only answer which will stand the test of time and experience of the future must be one that is fundamental—one that shall be a veritable rock upon which some social superstructure shall be built which shall withstand the coming shock."

Teachings of Jesus.

"This answer must be made by the church. Jesus did not say, 'Come unto me, all ye that are heavy laden, and I will teach you to live without labor.' His message should be interpreted to mean, 'If ye come unto Me, and will do the things I say, your burdens will be removed.'"

President Smith summed up by declaring that it is the duty of the church to lift these burdens of the laboring masses, so that the time shall eventually come when every one shall find his chief delight and joy in the service he is rendering, not for the wages he receives, but because he recognizes he is a valuable unit in co-operative production, a factor in the general welfare of society and the organization to which he belongs.

Special Purchase Sale William Rogers Silverware Saturday Union Outfitting Co.

The Reductions Make It Well Worth While Selecting Wedding and Birthday Gifts.

Wm. A. Rogers' Silverware Is Guaranteed to Stand the Test of Time and Wear.

It is a common thing to find sales of silverware, but it is doubtful in such a sale as the Union Outfitting Company announces for next Saturday will be equaled again in months.

The Special Purchase of Rogers' (William A.) Silverware was made months ago before the recent advances in the price of metals and the company is placing it on sale at prices so low that every housewife and prospective bride, with a silverware need, will find it profitable to attend the sale.

In addition to beautiful sets, consisting of twenty-six pieces, there are many dozens of knives, forks, spoons and teaspoons, which can be purchased separately or by the dozen.

The purchase is further evidence of the ever-increasing Buying Power of the Union Outfitting Company and its ability to lower prices on home needs, because it is located out of the High Rent District. As always, you make your own terms.

LIVE STOCK AND MEAT INDUSTRY

Fighting Hunger

Hunger is never more than a few days away from the American people.

The coal strike showed us what a narrow margin the country goes on, even in a non-perishable necessity which can be stored.

Swift & Company is engaged in the business of fighting hunger.

From coast to coast, from the Great Lakes to the Gulf, the lines of defense are drawn—packing plants at strategic points; branch houses in four hundred towns and cities; hundreds of car routes; thousands of refrigerator cars; tens of thousands of loyal men and women expert in their work.

Day by day, hour by hour ceaselessly, this fight, your fight, goes on. Yet so smoothly, surely and victoriously that you, unaware how close hunger always is, are as certain each night of tomorrow's meat as you are of tomorrow's sun.

And so economically is this done that the cost to you for this service is less than three cents a pound of meat sold. The profit shared in by more than 30,000 shareholders whose money makes the victory possible is only a fraction of a cent a pound on all products.

If hunger did not make it necessary for us to fight this fight in the best possible way for all concerned, the competition of hundreds of other packers, large and small, would compel us.
