

WARSAW PLANS TO ERECT FIRST HIGH BUILDING

Ancient Polish City Will Attempt to Have Sky Line Rivalry That of New York.

By CAPT. CHARLES PHELPS. Written for International News Service. Warsaw, Poland, April 9.—The foundations of the first skyscraper ever built in Europe will shortly be laid in Poland's ancient capital. It will be a seventeen-story structure, conceived and built entirely along American ideas, which have captivated the local imagination.

An American Red Cross chauffeur was the unwitting source of inspiration which set on foot the biggest business scheme Poland has ever seen. His billet was in the third-floor back of a hospitable Warsaw merchant who, on occasion, was wont to invite his guest to take a cup of tea with the family on cold evenings and share a place at the hearth where a tiny wood fire was all the heat his home could boast.

"Oh, we run as high as forty to fifty stories," said the guest, "but seventeen is a good average." "We might start at 17, then," mused the merchant. "I'm going to see what can be done. This country plans to model its future, in business as well as politics, along American lines."

A month later the merchant had organized the "Liberty Union" corporation and the plans for Poland's first 17-story skyscraper were in the architect's hands.

Erected in Main Street. The new building will be erected on Warsaw's principal business street. The land has been furnished the corporation by the municipality on a 99-year lease, at the expiration of which the building will become the property of the city. The lower floors of the edifice will house an up-to-date American-plan department store. The upper stories will be leased as business offices, and on the roof a government wireless station will be installed. All Poland is watching with keen interest the maturing of the plan which will give the people their first opportunity to obtain the necessities of life at the low prices permitted by American large-scale buying for retail distribution.

Ex-Nebraska Soldier Living in Minnesota Works for Pershing

John N. Baldwin, secretary of the Pershing Soldiers' and Sailors' club, room 108 Paxton hotel, has received the following encouraging letter from one of the loyal ex-service men:

"Fergus Falls, Minn., April 4, 1920.—Dear Sir: I have a letter from you asking me to vote for Pershing. I am now in Minnesota instead of Nebraska. But I will vote for Pershing. Will I receive the service button anyway if I vote for him in this country. Please save me a button. I am a Pershing man and also a Nebraska boy."

"Also I will get all the boys I can to vote for Pershing, for I do think Pershing is the right man for president. Will send my vote again for Pershing and hope he gets over the top. Please answer this letter and let me know how things are in Nebraska. Yours truly, 'ARTHUR A. OLSON.'"

"From the tenor of the second paragraph in this letter it would appear that some one is circulating the canard in Minnesota that ex-service men voting for Pershing would not be entitled to receive a button," said Mr. Baldwin.

Farmers in Cass County Report Seed Corn Shortage

According to information received at the stock yards from western Cass county, there is a shortage in that neighborhood of good seed corn, which may greatly affect the raising of live stock. It is said that last year's corn crop around Greenwood and other points was poor and that farmers are having a hard time to get good seed.

Farmers in the eastern section of Nebraska are being depended upon to a great extent to furnish a large quantity of seed corn and there has been a spirit shown to help unfortunate farmers all that is possible. With a good supply of seed corn in Cass county large crops are expected this fall in that section.
