

## KAPP'S BALTIC FORCES START TERROR REIGN

Estimated 200 Persons Killed at Essen—Wreak Vengeance On Members of Former Reds.

By GEORGE SELDES.  
New York Times-Chicago Tribune Cable, Copyright, 1920.

Dusseldorf, April 9.—Kapp Baltic troops, a contingent of the government army, has begun a reign of terror in Essen, killing men and women as it did in Berlin, assaulting with a knife and slashing all suspected of being workingmen or members of the former reds. Machine gun rattle and rifle fire all day and night has terrorized the inhabitants, who are keeping within doors. It is estimated 200 citizens were killed by the troops.

The reichswehr was welcomed formally by the Krupp directors and mine owners, Burgomaster Luther and other officials, but workingmen who had fought the Kappists recognized the troops and answered their sneers with hand grenades and personal assaults.

Mrs. Etan Harding of the London Daily News, and F. A. Voigt of the Manchester Guardian, British war correspondents, were arrested by Lieutenant Lindemeyer because he was displeased with their telegrams which were found in the post-office. Mr. Voigt's hands were in his pockets throughout the interrogation.

"I'll teach you damned Englishmen to behave in the presence of a Prussian officer," said Lindemeyer, and he ordered two soldiers to assault Mr. Voigt, who was badly beaten up.

Mrs. Harding recognized the troops as part of the Iron division, part bearing the swastika insignia of the marine brigade which supported Kapp. Lieutenant Lindemeyer ordered the insignia removed, then freed Mrs. Harding.

Experienced traders on the street have openly expressed themselves that there is not the slightest doubt but that a corner in the corn market exists. They point to the low price of hogs to prove that the high price of corn is not based upon a shortage of the grain, but upon manipulation.

### Spanish Capitalists Seek

#### South American Company

Madrid, April 9.—Spanish capitalists are engaged in negotiations for the acquisition of the German Transatlantic Electric company, which operates in South America.

## Over The Political Fence

Thorne A. Browne of Lincoln, candidate for the republican nomination to fill the vacancy in the state railway commission caused by the resignation of Victor Wilson, is making political hay in Omaha. Mr. Browne was appointed to succeed Mr. Wilson, but the appointment holds only until after the election next fall. Prior to that time he was secretary of the commission. He is a graduate of the state university and was for years the political correspondent of the Nebraska State Journal.

Nebraska's primary day looms in the political offing, with one solid week ahead for the candidates to present their cases before the electorate. The chief business in hand in Omaha this week was that of impressing upon men and women their duty of registering.

It was the busiest week ever experienced by H. G. Moorhead, election commissioner. He estimated that on Thursday and Friday his office registered 5,500 men and women. The advent of women into the field of politics has brought new problems and additional work to Mr. Moorhead's office. Approximately 15,000 women have registered.

The registrations were closed last night and the election commissioner will now face the task of preparing the poll books for election boards, who will serve in 168 voting precincts on primary day, April 20.

The primary ballots are being printed. Each precinct will vote within itself for delegates to the county conventions and for candidates to serve on the county central committees and to that extent the ballots for each precinct will differ. Candidates for county commissioner will be voted for only in the precincts which comprises the commissioner districts affected. Next Thursday the election commissioner will publish sample ballots in the Omaha newspapers. This will enable voters to become familiar with the arrangement of the ballots in advance of primary day.

The initials of T. F. Sturgess and T. F. Stroud are the same, but that is another story. Mr. Stroud is republican for county commissioner in the Third Commissioner district. When Mr. Sturgess heard that Mr. Stroud's name had been filed for this important public position, he said: "There is a man for the job. He is just the man we want in the county board to represent the Third district. He should and will be nominated and then elected."

Galbraith Miller, jr., of Milwaukee, treasurer of the Leonard Wood campaign committee in Wisconsin, was the guest of Roy T. Byrne yesterday.

Governor S. R. McKelvie states that he expects to be accompanied by several speakers for his open air

meeting at Fifteenth and Farnam streets next Saturday evening. He says he is superstitious enough to believe that there is some lucky association for him in this particular street corner.

Voters are requested to remember the public library bonds which will be submitted April 20. The library board members say they have given this matter careful consideration and are convinced that library improvements are needed.

A man who writes that he has his potatoes planted and has time to read and talk politics, suggests that some of the eminent speakers who are to regale Nebraskans next week should be induced to appear in a series of public debates. He believes that a forensic free-for-all between W. J. Bryan and Senator Hitchcock would be worth the money. He also suggests that if the senator will not agree to meet Mr. Bryan, a match might be arranged between Hiram Johnson and Mr. Bryan in the Omaha Auditorium.

One of the interesting and entertaining features of the local campaign is the "One-Minute Store Talk."

## FREED FROM THE PHYSIC HABIT

Says her constipation ended and stomach trouble left. Tells how.

"I had stomach trouble and constipation very bad for a long time. Tried everything, but kept getting worse. I could hardly eat anything and my bowels wouldn't move unless I took a physic every day. I have to support myself and two children, yet I couldn't work. The first bottle of Milk's Emulsion did wonders for me, and I have continued its use until now I feel fine and can work every day. I have a good appetite, my stomach trouble has left me, and my bowels are as regular as clock work." Mrs. Mary Widner, 108 S. Court St., Sioux City, Iowa.

Mrs. Widner found out what all sufferers should know—that pills, salts and physics do not end constipation, but usually make it worse. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children. No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles and if you are not satisfied with the results, your money will be promptly refunded. Price, 60c and \$1.20 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

paing in the democratic fastnesses is the exchange of communiques between the factions commonly differentiated as "wet" and "dry." Harlan L. Mossman is the chief scribe for the "independent democratic committee," whose members will not publicly compromise themselves with light wines or beer. They are supporting W. J. Bryan for delegate-at-large and are opposing Senator Hitchcock and Arthur Mullen. The independents are at present engaged in the task of training their political guns on Mr. Mullen.

"In 1918 the democrats paid the penalty for having elected Mullen," Mr. Mossman writes in his latest statement. "Until Mr. Mullen became committeeman the democratic party was in control of everything in Nebraska. Since that time he has alienated the good will of thousands by his brutal, boss tactics, and has brought nothing but dishonor and defeat to the party in this state."

Two City Blocks Bought By Mrs. George A. Joslyn. What participants said was one of the largest real estate deals recorded in Omaha was finished yesterday when Mrs. George A. Joslyn purchased, through A. P. Tukey & Sons, the land between Twenty-second and Twenty-fourth streets, Dodge street and Capitol avenue. The price paid was not announced. The land will be used for some public benefit not yet determined, Mrs. Joslyn said. A small strip at Twenty-fourth street and Capitol avenue was not included in the tract.

Employees Entertained. Employees of the Bemis Bag Co. danced, sang and made merry last night at the company plant, Eleventh and Dodge streets. The Bemis Glee club, composed of employees of the company, sang several selections.

Lower Lumber Prices Here Presaged by Retail Men. A slackening of general demand for lumber, accompanied recently by fluctuations in the lumber market, presages probable reductions in retail lumber prices this summer, according to Omaha lumber dealers. They do not expect an immediate break, but predict arrival of lower prices by July 1.

### One-Minute Store Talk

"I just spent a month in New York City, where I noticed the finest custom tailoring concerns are stocking up on ready-to-wear clothes—looks like they are reading the handwriting on the wall. In a way, it's a compliment to the judgment of the thousands of men who have already recognized the merit of ready-to-wear clothes," said a customer who sees with his eyes.
