ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR. Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

YOU'LL GET RID OF UNSIGHTLY HAIRS SURE. Ugly and unsightly hairs—light fuzzy or heavy ones on neck, shoulders, arms and under arms go quickly by a simple method that just dissolves them. Get from your druggist a bottle of Fresca Hair Remover Lotion—apply a little of the lotion with a piece of cotton or finger tips to the hair not wanted for a few minutes—then wash off. You'll wonder where the hairs have gone. The Fresca Hair Remover Lotion has just dissolved them—Shaving and removing hairs by other methods only thicken the growth so they come in thicker and stronger than ever, while the Fresca Hair Remover Lotion dissolves them away below the skin and weakens the growth. It also leaves the skin soft and white just like a face lotion. If you are troubled with these unsightly blemishes you should certainly try this simple method.

Advertisement for Kidneys. 'IF KIDNEYS ACT BAD TAKE SALTS. Says Backache is sign you have been eating too much meat. When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and laggard. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sores, tongue is coated, and when the weather is bad you have rheumatic twinges. The uric is cloudy, full of sediment channels often get sore, water scalds and you are obliged to seek relief two or three times during the night. Either consult a good, reliable physician at once or get from your pharmacist a few ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness. Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia water drink.'
