## JOHNSON RAPS EXTRAVAGANCE OF DEMOCRATS

### Charges Administration Has Done Nothing to Reduce Living Costs, in Lincoln Speech.

Lincoln, Neb., April 13.—Speaking in connection with his campaign for endorsement by Nebraska voters as a republican presidential candidate, United States Senator Hiram W. Johnson of California charged, in an address here today, that the democratic administration "has failed here and trilled there and has done nothing at all" with the high cost of living problem.

The speaker declared he knew of no panacea for the problem, but that "with the very sufficient power that is in the administration it is possible systematically and scientifically to begin at both ends of the great chain between the ultimate consumer and original producer until we find out the weak links—find somewhere between these two points something to remedy—and then the remedy can be applied."

Senator Johnson also attacked what he declared was a "saturnalia of expense in the past four years at Washington," and declared himself in favor of a national budget system to prevent appropriations from being made "in a log-rolling fashion."

"This saturnalia of extravagance that has been extant and rampant at Washington ought to cease," he asserted. "It can be made to cease, and I trust within a few months it will be required to cease."

Senator Johnson also declared that congress will save the people "hundreds of millions" by cutting down on the administration's military program.

## DAVIS PLANNING COMPLETE STATE LEGAL BUREAUS

### Attorney General Would Forbid Hiring of Special Counsel Except by His Permission.

Lincoln, April 13.—(Special.)—Clarence A. Davis, attorney general for Nebraska, has prepared an interesting resume of the affairs of his department since he assumed charge, January 9, 1919. He believes that the "department of justice act," which he prepared and which is now in force, has justified itself by demonstrating the wisdom of establishing a complete state legal department of which the attorney general shall be the head and in control, and for which he shall be responsible.

Under the plan, the different departments of the state government are forbidden to hire special counsel, except upon the written permission of the attorney general or the governor. Mr. Davis explains that a more or less chaotic condition resulted under the old plan of departmental engaging special counsel "often without the slightest need for them."

Some of the particular lines of work covered by his department are enumerated as follows: Public utilities, professional standards, fraudulent stock promotion, irrigation litigation, prohibition, banking and insurance, Americanization and radical activities.

He has written a letter to mayors of cities, chiefs of police and all peace officers in Nebraska, pointing out that headlights under the law must not cast a beam over 42 inches high 75 feet ahead of the car, while "spotlights" must focus within 30 feet of the car.

The attorney general classes many "dimmers" much worse than plain lenses and asks all officers to see that the law is enforced.
