

## NEBRASKANS TO HONOR FAVORITE SON IN CAPITOL

All Those From Antelope State Living and Employed in Washington Will Make Merry Tonight.

Washington, April 13.—(Special)—Nebraskans in the national capitol will tonight honor the citizen of that state prominently mentioned in connection with the republican nomination for the presidency of the United States. The Nebraska State association is composed of citizens of the Antelope state temporarily sojourning in Washington by reason of their employment. The association numbers among its members officials of the government from United States senators to department clerks; it is non-partisan and its president is John L. McGrew of Nebraska.

**Will Honor National Hero.**  
Realizing the honor conferred upon the state by the prominent mention of a favorite son for president, however, the Nebraska State association will this publicly acknowledge its appreciation of so splendid a man, now a world hero, and will voice its pleasure and approval of the fact that one of such distinction is a Nebraskan.

Prominent Nebraskans of all political complexes will attend; members of congress and officials of the departments and diplomatic service will be there, many of them in the receiving line with the general. It will be one of those big social events in which those who take part as invited guests do not qualify because of the size of their "pile." Every Nebraskan will be welcome and all will be there to do honor to a fellow-Nebraskan.

**Held in Hotel Washington.**  
The affair will be held at the Hotel Washington. There may be a speech of welcome and of course the general will be pressed for a reply; both will be brief and the evening given over to dancing and conversation.

The general's friends at home have reason to be proud of the fact that such an organization, strictly nonpartisan, should be moved to do such honor to a fellow Nebraskan whose name has been mentioned as a possible president of the union.

## CREEL DEMANDS INVESTIGATION OF SMOOT ATTACK

Denies Irregularity in Transfer Of Official Bulletin to R. W. Babson.

New York, April 13.—George Creel, who headed the committee on public information, Monday made public a letter he has sent to Attorney General Palmer, insisting that Mr. Palmer investigate at once charges by the joint congress committee on printing that the Creel committee had wrongfully transferred the Official Bulletin to Roger W. Babson of Wellesley, Mass.

Mr. Creel also made public a letter to Senator Smoot, chairman of the committee, declaring the senator knew there was no transfer of the Official Bulletin to Babson, but that the joint committee, sneakily worked in secret to further the demand that my testimony would have made absurd. He added that then senator "as much as any one else," was responsible for slipping out the Creel committee June 30, 1919, "in the middle of its orderly liquidation."

In his letter to Mr. Palmer, Mr. Creel said:  
"I insist that your office commence an investigation and report to me every day on the progress of the investigation. I want to know from you, also, what protection a citizen has against the deliberate slanders of a member of congress. Not only are Senator Smoot's charges false, but he knew them to be lies when he uttered them."

## "Raising a Row" Aim Of Bryan at Convention, G. M. Hitchcock Says

Grand Island, Neb., April 13.—(Special)—Senator G. M. Hitchcock characterized William J. Bryan as one who will, if he can, go to the democratic national convention to "raise a row" in the course of a speech here tonight in furtherance of his campaign to keep Bryan from representing Nebraska at San Francisco.

Bryan, he said, is out of harmony with his party and would attempt to force the convention to approve his "hobbies," including government ownership of railroads, which Senator Hitchcock opposes.

Senator Hitchcock said that Bryan deserted President Wilson when he resigned from the cabinet in 1915, that he undertook to discredit and defeat the president in the fight for the league of nations and that he would undoubtedly attempt to prevent an endorsement of the president by the convention at San Francisco.

It would be a great misfortune, he said, "for the democracy of Nebraska to be responsible for sending to San Francisco as their representative a man who will run amuck in the convention and raise a row over the terms of the platform."

## OPEN REVOLT IN HOLT COUNTY AT HARRISON ORDER

Supporters of Hiram Johnson Swing to Pershing, Fearing They Will Be "Double Crossed."

O'Neill, Neb., April 13.—(Special)—Supporters of Hiram Johnson for president, in Holt county, are in open revolt against Frank Harrison of Lincoln, state manager for Johnson, as the result of instructions received here from Mr. Harrison to support the Wood delegate slate at the primaries next Tuesday.

The candidates of S. J. Weeks of this city and Woodruff Ball of Valentine as candidates for Sixth district delegates to the republican convention. Weeks and Ball are the only two candidates for delegates in the district that are unpledged to any candidate, and who have promised to support the candidate the voters express a preference for at the primary.

The Harrison instructions following so closely the attempt of the Wood management last week to renege on its promise to support at which Senator Morris is to speak for Johnson Wednesday night, for the same night and to thus prevent the Johnson meeting, as the hall is the only public one in the city, has caused open dissatisfaction and sentiment favoring General Pershing.

The leaders openly charge that some one is being sold out, particularly as letters received from Mr. Harrison several weeks ago openly charged that such an attempt was very apt to be made by the other candidates and to beware of any candidate for delegate who might be "either a Pershing or a Wood." Johnson men here fear that Harrison has been using the Johnson popularity here merely as camouflage for Wood. They favor Pershing if a military man is to be the candidate.

Voters this week will have opportunity Wednesday night to hear Senator Norris and Senator Johnson and Thursday night Montville Flowers of California tell why he thinks Wood would make a better president than Johnson. Voters cannot understand why it will take two speakers of opposite views and representing candidates of opposite views to tell them to vote for one and the same slate of delegates.

But to the Irish, who love a fight, it is an indication of a good time.

## MESSAGE RECEIVED FROM SPIRIT IN ANOTHER WORLD

Wife of Ex-Secretary of Interior and Mrs. Harriet Blaine Beale Publish Book.

Chicago Tribune-Omaha Bee Leased Wire. Washington, April 13.—Psychic messages from a spirit that has never been on earth received by Mrs. Franklin K. Lane, wife of the former secretary of the interior, and Mrs. Harriet Blaine Beale, daughter of James G. Blaine, are recorded in a book they have published under the title: "To Walk With God."

Even to the title the book is the record of the first experience of Mrs. Lane and Mrs. Beale in automatic writing during the summer of 1919, when both were engrossed in war relief work and Mrs. Lane was directing the convalescent home established through her efforts as an adjunct to Walter Reed hospital.

**Authors Relate Experience.**  
With dignity and reverent sincerity the authors have related the results of their experience, which, after weeks of constant effort, resulted in a series of "lessons" and an appendix in which is set forth with fidelity the notes taken of the first four lessons "showing just how we received the series, also the correction and revision of the lessons given at a later date."

It had been the idea of the authors when the spirit control directed the publication of the lessons to give the conversations as received and then put the corrected lessons at the end. The "control" approved this, but told them to put the corrected "lessons" at the beginning, in which form the book appears.

Entering upon the experiment early last June, Mrs. Lane and Mrs. Beale finally agreed to meet every day for two weeks at a given time. "Neither of us," they explain, "had ever written automatically before, nor have we ever been able to write alone."

**Find "Control."**  
Using a planchette, they obtained at first "only circles, words and fragments of sentences, with irrelevant names and messages cutting into what we hoped vainly would become a connected phrase." Finally "on the 11th day came a decided change. From the moment we began the writing was firmer and more impelling, and we were told at once that whoever was using our hands had come with definite intention and meant to stay with us. We had, in technical phraseology, found our 'control,' though we were both too inexperienced to recognize it."

After perhaps six weeks the "lessons" began and continued until 24 had been received and recorded, the insistent purport of which was that the regeneration of the world could be effected only by love and service, and the desire and will of men to turn to God. "When that day comes," reads the 11th lesson, "man will be very near to God and, like the prophets of old, he will 'walk with God.' And so the dream of peace on earth, good will toward men will come to pass."

## How Is Your Weight?

While it is true that too much weight is not to be desired yet the fact remains that many men and women are thin to the point of danger. This danger lies in their having no reserve force or nerve power to combat deadly diseases. A little extra flesh is needed by all to feel well and to look well, and this calls up the question of how best to increase the weight. Physicians and chemists by experiment have solved the problem of increasing the white and red corpuscles of the blood by the administration of 8 grain hypophosphite tablets, and this is usually followed by an increase of weight. Obtain in sealed packages, and take for a week or several months, according to directions with each pack.

## A HUNCH ON HIRAM

The Michigan primary vote, or rather the vote of the city of Detroit, affords a straight hunch on the political connections of Hiram Johnson in the presidential campaign.

A hint as to the character of the Johnson following was of course afforded by the unanimity with which he went through the North Dakota primaries, with the endorsement of the Non-Partisan League, no other republican candidate opposing.

But it takes Michigan, and Detroit, to change the Dakota hint into a straight hunch. Detroit is next to the greatest center of radicalism in the United States. Cleveland, Ohio, ranks first. In the city of Detroit Johnson took a spurt with 50,000 lead on his nearest opponent, Leonard Wood. Outside or upstate precincts were going strong for Wood, as might be expected outside of the industrial and radical centers.

Drawing a straight line on the map from North Dakota to Michigan, from Bismarck to Detroit, forms a perfect connection between the socialism of the first and the radicalism of the latter, and no uncertainty in either case as to approval of Hiram Johnson.

So on the one hand we now have the lines drawn as to who represents the extremes of thought and purpose in the United States. Hiram Johnson's lot is cast with the cause of Radicalism, as shown unmistakably by results in North Dakota and Michigan. Leonard Wood represents the highest quality of Americanism, as indicated by all expressions thus far, and by the country districts of Michigan in which he was the favorite.

No claims have been made for Leonard Wood so far as Michigan was concerned. The best organized effort to capture the Michigan primary vote was made by promoters of the Lowden can-

didacy, but at last reports the contest for third place was between Lowden and Hoover.

When the smoke of the Michigan battle clears away we shall find two figures standing out distinctly as presidential contenders in the republican convention, the figures of Leonard Wood and Hiram Johnson, in whom and between whom the issue will be inevitably joined. The issue will be Americanism vs. Radicalism and it is impossible to conceive of the possibility of a candidate of the radicals being nominated at Chicago.—Kearney, Neb., Daily Hub.

It may look like a weakness, General Wood running so poorly in Michigan, but as a matter of fact it ought to be the lesson that will make him stronger in many other states. Michigan is a hotbed of socialism and unrest. Its principal city, Detroit, is considered the foremost radical city of the United States. Hiram Johnson is the man who would have a peculiar appeal to a state like Michigan. He is of the insurgent kind. He is a blatant opportunist, selfish and nimble, and ever ready to jump to the side that looks like it is going to be popular. He knows there is seething unrest in this country as well as the rest of the world, and he is of the kind who would attempt to ride the flood instead of trying to stem it. No, indeed, the action of Michigan in turning down Wood for Johnson is a distinct compliment to the kind of an American Wood is. Michigan ought to make every lover of good government redouble his efforts in behalf of the men of the Wood stripe. It is unfortunate that the several good candidates of this kind cannot get together and center their strength on one of their number against the menace of running men of the Johnson type.—Columbus, Neb., Daily News.

## A Message from N. P. Dodge

Father of Nebraska's Direct Primary, Makes Statement on the Campaign in the State.

It costs money to be a candidate before the people under the Direct Primary. As the author of the Direct Primary Law in Nebraska, I have had to defend it for 12 years now. However, I never try to deny its faults, but seek to remedy them. When its enemies, the political boss or "machine" and big business say the Direct Primary is expensive, I reply: Yes, it is, but no more expensive than the old convention. The only difference is the money we spend now is the candidate's or his friends', and we have to use it to buy newspaper advertising, stamps, printed matter and traveling expense. Under the convention plan the railroads gave passes and mileage books to the newspapers for advertising and their moral influence, and paid all traveling expenses and the hotel bills of enough to nominate their own candidates. Yes, it cost money then and it costs money now. The only difference is the source of the money and its final disposition. The old disposition could not be disclosed. It went into hands that were ashamed to confess. Our money is spent openly and honorable purpose. Yes, the Direct Primary therefore costs money, but isn't it better to spend your money openly in educational advertising, informing the voter as to the merits and qualifications of your candidate, than to pass it over a table in some hotel room at 2:11 a. m., when Senator Harding's manager has said his candidate will be nominated?

**The Pershing Campaign.**  
The people who are opposing General Wood in this campaign in their desperation to overcome his lead among all the candidates are now charging that his friends are spending money. In Nebraska the Pershing management has spent and is spending ten dollars to our one. I wouldn't criticize them for the amount they spend, for I think they are spending it legitimately and above board, but I question their motive or ultimate purpose. They know General Pershing is not a serious candidate in any state of the union—not even in Nebraska will he get a large vote. The result will be disappointing and humiliating to him, and why are they thus sacrificing a national or international hero? Why, simply to get 12 votes in the convention to throw a dark horse after one or possibly two complimentary votes for General Pershing.

This is the whole purpose of this old "favorite son," worn-out political trick, and in Nebraska it was started not by General Pershing's friends or fellow citizens; but by a banker from Illinois, who was an able and successful politician of the methods used 25 years ago. That is the only reason why the Johnson political manager has endorsed the Wood candidates for delegates.

The people of Nebraska, much as they revere and honor General Pershing, are unwilling to be a party to a political scheme to hand over their delegates in the National Convention of some old school politicians to be traded off at 2 o'clock in the morning for some dark horse who was not a candidate in the Nebraska Primaries, and they deplore the selfishness of any man or men who would thus use a man's name who has conferred an honor on our state.

The issue in Nebraska is between General Wood and Senator Johnson, and a vote for General Pershing, however, complimentary, is utterly wasted insofar as having any influence in the Chicago convention. General Pershing hasn't the slightest chance of being nominated, or elected, if nominated.

Even Senator Johnson, the only real opponent of General Wood, cannot possibly be nominated. He is a strong man, and up to the time he fought the League of Nations so bitterly he had an enviable record, but no one, not even his closest friends and colleagues in the senate think his would be a wise nomination. It would almost certainly spell defeat in November for too many reasons to stipulate, the principal one being that the majority of people of both parties, or each of them, want our country to join a League of Nations to enforce peace if possible. I don't say the League, I say a League. On that issue alone, Senator Johnson should, and will be defeated, and there are others equally vital. Therefore, unless you vote for Leonard Wood in the Nebraska Primaries you have lost all opportunity to vote for a presidential candidate that can be nominated or will be nominated.

Remind me on June 10, if I am not a prophet, and finally, remember I speak with the greatest admiration and respect for both General Pershing and Senator Johnson. They are both great Americans, only General Wood is the best man for this particular job, where we need a man so badly just now and for some time to come.
