## BODY BUILDING TONIC HOLDS VAST STORE OF FOOD VALUE

### Scientists Prove Father John's Medicine Is Five Times More Nourishing Than Many Common Foods We Eat.

That Father John's Medicine contains a vast store of food value and strength-building, energy-producing elements is established by recent scientific tests. This rich nourishment is in a form which is more easily taken up by the system than the common foods we eat and has many times greater food value.

When a scientist states the food value of any product, he does so in terms of "calories," which he defines as the amount of heat used to raise the temperature of one gram of water one degree. A teaspoonful of Father John's Medicine contains 25,715.76 calories. The same quantity of steak contains only 10,714 calories. By these tests also it was proven that Father John's Medicine is five times more nourishing than an equal quantity of codfish, seven and one-half times more nourishing than an equal quantity of oysters and almost six times more nourishing than pure milk.

Because it supplies this nourishment which you do not obtain from your food and supplies it in the form which the system most easily takes up and turns into tissue, muscle, flesh and strength, Father John's Medicine has had more than sixty years of success as a food tonic for those who are weak and run down.

It is guaranteed that Father John's Medicine positively does not contain any alcohol or any dangerous, habit-forming drugs or opiates. It is a pure and wholesome, nourishing tonic food—a doctor's prescription, not a patent medicine. Begin taking it today.

## VOTE FOR C. G. CARLBERG, Republican Candidate for State Senate

**NEWS ITEM**—The General Manager of the Water Board, who takes over management of Gas Plant under city ownership, has requested City Council to make provision to pay off \$1,000,000 of gas bonds each five years. He states that under city ownership rate should be \$1.35.

I stand for Dollar Gas, knowing that it is a possibility by virtue of the purchase of the Gas Plant by the city of Omaha. Occupation taxes and general taxes now paid by the Gas Company, as well as the annual dividends paid to its stockholders, will be eliminated under municipal ownership. However, if it is the intention of the general manager to pay off \$1,000,000 indebtedness each five years, we will not get Dollar gas. It is a gross injustice to saddle the entire cost of this plant on this generation in order to present the next generation with a debt-free Gas Plant. We are entitled to Dollar gas NOW. There is no justice in paying \$1.35 for gas in order that we may be generous to posterity. If the repayment of the Gas Bonds is spread over a period of fifty years we will get Dollar gas immediately, but if we are to pay for the plant in fifteen years we will have to pay more for gas than we did under private ownership.

If nominated and elected to the State Senate I pledge myself to promote legislation that will insure Dollar Gas NOW.

I earnestly solicit your support at the primaries, April 20th.
