YOU

**CAN HEAR** 

A PIN DROP!

At times during the showing of this wonderful melodrama interest is to tense that a breathless quiet envelopes the entire theater—you can hear yourself breathing—you could almost bear a pin drop! No drama of the London underworld like it! No acreen story with such power, such action, such thrills! Critics declare it the biggest melodrama of the year! Have you seen it? Only one more day!

#### What Do You Know?

(Here's a chance to make your wits worth money. Each day The Bee will publish a series of questions, prepared by Superintendent J. H. Beveridge of the public schools. They cover things which you should know. The first complete list of correct answers received from an Omaha render of The Bee will be rewarded by SI; the first from outside of Omaha will win the same. The answers and the names of the winners will be published on the day indicated below. Be sure to give your views and address in full. Address "Question Editor," Omaha Bee.)

A simple but sure way to increase the weight, it is asserted by several well known physicians, is to take regularly for known physicians, is to take regularly for several months, one or two 3 grain hyponuciane tablets after each meal. These little tablets have the distinguished merit of increasing the red and white blood corpuscles, aiding diestion and promoting assimilaion and absorption of the elements in the food which go to make blood and solid tissues. They are obtainable in sealed packages from well stocked apothecary shops.

Does a hen cackle after laying

(Copyright, 1920, by the Wheeler Syndicate, Inc.)

The statement that there is a

direct connection between the

cackling of a hen and the laugh-

ter of a person who is pleased

may sound strange, but it is nevertheless true. The human

animal-man-gives vent to a se-

ries of sounds originating in his

throat /when something causes

him pleasure. These sounds we

characterize as "laughter." Very

much the same process takes place when a hen lays an egg. The presence of the egg in the

body of the hen causes the bird

some discomfort. When this is

relieved, she is naturally pleased

and announces her pleasure to the world by a species of laughter of joy which we have termed cackling."

If we remember that many

persons "chuckle" when they are pleased the relationship between

the laughter of human beings and the cackling of hens becomes

even more apparent and it should

be borne in mind that every liv-

ing thing expresses its pleasure

in so te animate and unually vo-

cal manner. Cats purr, dogs bark,

monkeys chatter, birds chirp or sing, children jump up and down or cry out with joy, adults laugh or chuckle, hens cackle. It's

simple the application of different
