## Millions Placed at Disposal of Broker Who Has Cornered Stutz Motor Company Stock.

Chicago Tribune-Omaha Bee, Leased Wire. New York, April 15.—Striking developments occurred Wednesday in the "corner" in the stock of the Stutz Motor Car company. Thomas F. Ryan notified a leading trust company to extend to his son, Allan A. Ryan, who is fighting the stock exchange, unlimited credit. The elder Ryan let it be known that he approved the stand taken by his son, but it was not learned until Wednesday night that the former's millions were at the disposal of the son in one of the greatest contests that has been waged in the financial district for many years. The New York Stock Exchange Wednesday created a "loophole" through which the "shorts" in Stutz Motor may escape. It struck the Stutz company stock from the Stock Exchange list. The exchange issued a statement admitting that five of the nine houses mentioned by Mr. Ryan as

# Pioneer Omaha Banker Dies Of Pneumonia in N. Y. Hotel

## Body Will Be Brought West for Burial—Illness Very Brief.

Harry C. Bostwick, chairman of the board of directors of the Stock Yards National bank, died at 4:15 a. m. yesterday in the Manhattan hotel, New York, following a brief attack of bronchial pneumonia.

H. C. Bostwick

At the bedside was Mrs. Charles R. Massey, Sheridan, Wyo., Mr. Bostwick's niece, and nearest relative. They were stopping in New York after a three weeks' visit to Atlantic City.

Mr. Bostwick was in the best of health Sunday, taken suddenly ill with pneumonia Tuesday, and sank rapidly until his death.

Moves to Omaha in 1886. He was a bachelor, 55 years old last August. He was born in New Jersey and moved to Colorado when a young man.

In 1881 he served as mining agent and postmaster of Alpine, Colo., then a prosperous mining camp. He came to Omaha in 1886 and became identified with the banking business here in 1887 as cashier of the South Omaha National bank, which was then newly organized.

Negotiations were begun in the fall of 1910, which culminated in the consolidation of the Union Stock Yards National bank and the South Omaha National bank under the name of the Stock Yards National bank in January, 1911, with Mr. Bostwick as president.

Funeral in Omaha. Mr. Bostwick served in this capacity until January 13, 1920, when he was being short of the stock were found to be parties in contracts on Stutz stock. One house is short two small odd lots. The firm of Jacquelin and De Coppel, which was said to be short, owns 14 shares on balance, while Carlisle, Mellick & Co. are long a few shares.

# PATRIOTISM TO BE KEYNOTE FOR WEEK HERE

## Americanization Plans Outlined at Meeting of Local Bodies Wednesday Night—Starts May 1.

An "Americanization week" will be observed in Omaha beginning Saturday, May 1, which will be marked by a half-holiday and an Americanization parade, according to plans outlined at a meeting of civic and business organizations Wednesday night in University club. A permanent committee on Americanization, headed by Dr. E. C. Henry, was appointed. Mayor Smith, J. J. Isaacs and E. D. White were among the speakers. Mayor Smith declared that "many of the worst reeds in America were born here." Mr. White made a plea for bigger salaries for teachers "to enable them the better to teach American principles to children."

# Locate Twenty-Fifth Wife and Love-Dens of Modern Bluebeard

Staff Correspondent of The Bee. Los Angeles, Cal., April 15.—The discovery of the 25th wife of Charles Newton Harvey, alleged modern Bluebeard, who was first known as "J. P. Watson," and the locating of two of his "love dens" in Los Angeles and Long Beach, featured the multi-bigram suspect's career.

At the same time deputy sheriffs uncovered evidence that Harvey may have sold several of his wives into an immoral life below the Mexican border.

The 25th wife is Kathryn Krutz of Nelson, Ore., who married Harvey at Salem, B. C., June 13, 1913, under the name of "Watson," now known to have been an alias. With the disclosure regarding the 25th wife, the Harvey case now shatters all American bigamy records. According to the officials no other investigation ever made in the United States has shown a prisoner to have been married to so many women.

# Federal Sleuths Use Camel Buttons to Help Locate Liquor Stocks

Chicago Tribune-Omaha Bee Leased Wire. Chicago, April 15.—Trouble looms already for the new order of Camels, the society born in Milwaukee and whose object is to work by every means at hand for more liberal liquor laws. Complaints were received at headquarters that federal sleuths seeking illicit whisky stores and purveyors of contraband booze, were wearing the badge of the Camels.

This button is supposed to enable the wearer to get special attention if he has a thirst and all members of the order are supposed to be thirsty at all times. The government detectives, it is charged, leaped upon this button as a fine key to the hidden stores of liquor. Officers of the Camels indignantly deny that the button of the order is an introduction to any bartender or bootlegger, but they do not want any but members wearing it.

# Judge Advises Wife Of Striker to Start Walkout of Her Own

Chicago Tribune-Omaha Bee Leased Wire. Chicago, April 15.—What's sauce for the goose is sauce for the gander.

Judge Trude figured it out in the court of domestic relations while he was mulling over the case of Mrs. John Baskowski, wife of a railway switchman. She said her husband was on strike and was not contributing a penny to the household expenses and she was at her wit's end to devise means to feed him and herself.

"Why don't you go on strike, too—just lay down on the job like he does, refuse to cook or sweep or make beds or wash the clothes. Sauce for the goose should be sauce for the gander."

"Oh, I couldn't do that, judge," she gasped, "it wouldn't be fair to John."

"I don't agree with you," said the judge, as he turned to the hulking defendant. "Now you are going to support your wife, strike or no strike. Turn over \$15 a week to her. I don't care how you get it so you get it honestly, but you've got to produce. Pay her the money and forget your strike."

# IRISH PRISONERS FREED AND STRIKE IS DECLARED OFF

## Sixty-Four Men Held in Dublin Released—Trade Unionists Claim Victory.

Dublin, April 15.—Sixty-four hunger striking prisoners have been released, apparently unconditionally, and as a result the strike is considered off.

The lord mayor, who went to see Lord French at the vice regal lodge when a hitch arose at Dublin castle through a stipulation that the prisoners must return to their captivity on their recovery, stated on his return that the prisoners would be released unconditionally.

The prisoners had refused to accept the stipulation on the ground that it was a reapplication of the "cat and mouse" policy.

The release of the prisoners is regarded as a complete triumph for the hunger strike and its ally, the general strike. It became known early that Viscount French had summoned the lord mayor, and that it was then out a question of terms.

# Thinks United States Will Lose Big Amount Owed by Germany

Washington, April 15.—Failure by Germany to make full payment for the maintenance of American forces in Germany as required by the armistice was said by Chairman Kahn of the house military committee to have resulted in the troops being maintained at a daily expense to the United States of \$1,220,000. Representative Kahn added that he doubted if this country would ever be able to recover the great amount of indebtedness from the German government.

Several payments on account have been made by Germany since the armistice, he asserted, but no payments for transportation of replacement troops or supplies for the troops already in Germany have been made. A total of 433,000,000 marks has been paid on account up to April 4, 1920, he said.

"The president and the peace commissioners deliberately bartered away the rights of this country for the league of nations," Representative Longworth, republican, Ohio, interjected. "We asked for nothing and the allies took us at our word," Mr. Kahn replied.

# U. S. CITIZENS IN NEAR EAST FIRED ON BY THE TURKS

## Attacking Forces Disregard Flag and Warning That This Country Is Neutral—Situation Is Greater.

By LARRY RUE. New York Times-Chicago Tribune Cable, Copyright, 1920.

Beirut, April 15.—Two large French army columns accompanied by tanks, planes and all the equipment of modern warfare, are marching through Cilicia to the relief of American citizens in Aintab and Urfa.

In Aintab the situation of the Americans is desperate. The latest information received from them is dated April 8. It was sent by John H. Boyd, director at Aintab for the American committee for relief in the Near East. It was brought through a country dominated by Turkish irregulars attached to Mustapha Kemal's nationalist army by a Moslem courier, who arrived in Aleppo today.

The message reports Aintab Americans are fighting the Turks with their backs to the wall, and the need of relief is imperative and immediate. The Turks are attacking the American buildings, where a large number of Americans have joined the Americans. The American flag flies over the American compounds, and the Americans repeatedly have called to the attention of the Turks that America is a neutral in Turkey, but all have been to no avail.

Held as Hostage. Doctor Lorina Sheppard, an American missionary, was held at first as a hostage by the Turks after the withdrawal on March 31, of a French relief column of 3,000, which remained in Aintab for three days. After this withdrawal the attitude of the Turks grew hostile. This hostility became open and general on the third and fourth days.

At a meeting the Turks announced that if the Armenians would surrender their arms and would fly the Turkish flag they would be safe. The Armenians refused because they did not trust the Turks. The Turks then seized several hostages, including Doctor Sheppard. She was released, however, when the Armenians seized several Turks.

When the Armenians took the Turks a mob collected in the Christian quarter. This was dispersed by Armenian rifle fire, which caused several casualties among the Turks. This shooting precipitated the general fighting.

Armenians Weakened. The Armenians were well armed and confident at first, but they weakened as the Kemal nationalists brought up reinforcements.

There are 12 native born and many naturalized Americans in Aintab. The French troops on the way to Aintab total 3,000.

Dr. R. A. Lampert, director at Aleppo for the American committee for relief in the Near East, who received the message from Director Boyd, has wired United States Admiral Bristol at Constantinople for aid. Paul Knaulshue, American consul general at Beirut, who is on French General Gouraud for aid, obtained an immediate response in an order dispatching the four French battalions from Kilis.

The French column moving toward Urfa has been fighting continuously since leaving its base. The Armenians in Urfa are reported short of food and the Armenians are huddled in their homes, while the Turks, Kurds and Arabs, who have been besieging the city for months, evidently intend to starve out the French garrison near there.

Warn Americans to Leave. The Turks have warned the Americans to leave the Armenians' quarters, but the relief workers have refused to abandon the orphanage.

The movement of the French column toward Urfa is expected to increase the pressure of the Turkish forces on the city. Owing to the prevalence of bandits in Syria the American relief workers in Latakia, Tyre and Alexandria have been unable to go to the interior villages. The Syrian government is moving cautiously. It is watching developments in Germany to ascertain what drain there is on the French military strength. Several Turkish nationalists in Damascus have urged their leaders to seize on the occurrence of the trouble in Germany as a psychological time for a move against the French.

# Humble Corncrib in Fair Way to Relieve Dye Shortage in U. S.

St. Louis, April 15.—Speakers at the convention of the American Chemical society said corncocks can be utilized in producing dyes and that efforts were being made to obtain a sugar substitute from malt syrup.

Experiments are being made into the feasibility of substituting wood pulp for cotton, it was explained, with a view to reducing the cost of cotton material. This pulp, already in being used as a substitute for cotton in the manufacture of explosives, it was said.

Dyes of a "vivid green" as well as the brown and blue vat dyes are the latest properties discovered in the humble corncock, according to Dr. K. P. Monro of the United States bureau of chemistry.

It recently has been discovered, he amplified, that furural, a rare and expensive chemical used as the base of some dyes, can be obtained by boiling the cobs in sodium phosphate for two hours.

By the process, he said, the price of furural, \$17 a pound, can be reduced to 15 cents.

Entire time and attention to the duties of the governor's office. Devotion to the development of all industries and legitimate lines of industry, commerce and investment. A farmer for 28 years, his administration will nevertheless be devoted to no particular class, but rather to the welfare of all. The return of all branches of the government, so far as possible, into the hands of the people. This principle led him to oppose the code bill in the legislative assembly that passed it and leads him to oppose it now. The right of all people to assemble, and to petition for political redress, at all times, and the exercise of every power and force of the state, if need be, to protect every class in the exercise of these constitutional privileges. Such improvement in the machinery of law enforcement that punishment shall more speedily and surely follow conviction of crime. Will recommend such changes in the laws that trifling technicalities cannot prevent or delay substantial justice. For granting no pardons, furloughs or paroles without hearing recommendations of the judge and county attorney of the county in which conviction was had. Every effort to keep supreme the established forces of government and the principles upon which our own American government, especially, is founded.

# There's No Picture Like the Picture of Health

The greatest masterpiece in the Art Gallery of Life is Nature's "Picture of Health." It is a marvelous portrayal of the human body. It is the result of a combination of characteristics of this picture of the human body which are sound, well organized and disposed, performing their functions freely, naturally. If you fall in any single point of resemblance to the picture of health, it is imperative that you look to a remedy to bring your body up to a normal state of efficiency in all of its parts.
