After Whooping Cough-What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

ARE YOU FROM MISSOURI?

Nelson B. Updike makes a "Personal Statement" in The Bee regarding his support and the support of his newspaper of General Pershing as a candidate for president, in which we read: "It is a time for all of us as Nebraskans to stand for Nebraska's candidate, and thereby present to the country the best man our party can put forward."

The Bee has been working sturdily on the "favorite son" plea for General Pershing, which is its right, but it is the right of other people who are not deaf, dumb and blind, to take that plea for just what it is worth, which in this instance is practically nothing. If we were all from Missouri, for in-stance, the plea might be more binding, for Missouri is his native state and he is a citizen of Nebraska only through having acquired a domicile in the city of Lincoln, and having many years ago been a military instructor in the Nebraska state university.

The Hub has not a single word to say in disparagement of General Pershing, but it sees much to criticise in the manner in which a political "favorite son" issue has been created out

Indeed, the time has passed when that claim can be made a valid recommendation, because this plea is used mostly as political camouflage to conceal the purpose of political promoters and traders, and it is quite generally suspected that this is the fact with regard to Pershing and his backing in

It is also pretty generally believed that the promotion of Pershing was prompted by a primary purpose to divide Wood sentiment in Nebraska, which if true is fair enough in the game of politics, but need not nevertheless deceive any person.

It is rather remarkable that General Pershing's Nebraska promoters have no other important recommendation for their candidate than the assertion that Nebraskans should take him as a citizen and "favorite son," when the fact is that his citizenship is made to order and the slogan a mere figure of speech. His position or his opinions on public questions are lacking, because he has not expressed them. People know that he is a good soldier and an irreproachable citizen, but those are not presidential qualifications.

Mr. Updike will have to make a stronger "personal statement" if he desires to make a strong case for his candidate, and if he would counteract the tendency to select the best man regardless of state lines and "favorite son" testimonials. The only question is, "Who is the man?" Where he hails from is of least importance to Nebraska voters. - Kearney Daily

The Two Appeals - Wood or Johnson?

Leonard Wood and Hiram Johnson stand for separate and distinct ideals of national life and republican policy and it is unfortunate that a neutral quantity in the person of General Pershing has been injected into the campaign to split the Wood vote.

Leonard Wood's appeal is to the best and safest elements of American life. The response to Hiram Johnson's appeal is thus far chiefly from the radical elements, as for instance in North Dakota and Michigan. There need. not be any mistaking the two appeals.
